Philadelphia, Nov. 18. '67

Messrs Byam, Carlton & Co
Boston, Mass.

Gentlemen:

We beg leave to call your attention to the small quantity of wrapper paper now on hand. Delay in filling future orders will be the consequence of your not sending us a further supply at once. There is only enough of the No. 1 stock to fill a single order - while the No. 2 will barely hold out another month if the present demand continues. Your stock of wrappers on hand, all told, is as follows:

No. 1	55.000
No. 2	3.756.000
W.T. Brown & Co.	200.000
Total	4.011.000

After the bulk of last lot of No. 2 paper had been printed it was discovered that some of the sheets were about an inch short, in length, of the regular size. It is estimated that about 10.000 wrappers will consequently be lost for want of sufficient margin.

Very respectfully,
Butler & Carpenter

Messrs Alex. Underwood & Co.
Newark, N.J.

Gentlemen:

We received this morning from the Commissioner of Inter. Rev. a letter inclosing yours of the 16th inst asking why stamps ordered by you on the 5th inst had not been sent.

We beg to explain that on the 7th inst we had a requisition from the Commissioner for 110.000 one cent stamps from your private die and of course could not fill it for want of time to prepare the dies etc. This you must have been aware of as we had already communicated to you that we required six weeks time before the stamps could be prepared; the date of your engraving order being Oct. 21. '67.

We are under the impression that some misunderstanding exists at the department about the kind of stamps you ordered on the 5th inst, that you wanted $1.000 in the common proprietary stamps, and we have so informed the Commissioner.

If our view is correct you had better lose no time in stating to him the fact, that he may change his instructions to us, as we have no authority to send other than private stamps as called for in the requisition.

Regretting the inconvenience which this delay has caused you we remain,

Very respectfully yrs

Philadelphia. Nov. 19. '67

Hon E. A. Rollins,
Commissioner of Inter. Revenue
Washington. D. C.

Sir:

Your letter of the 16th inst inclosing letter from Messrs A. Underwood & Co, Newark, N.J. requesting us to state why their order of the 5th inst for $1.000 in revenue stamps, had not been filled, is at hand.

In reply we beg to say that their order, No. 441 Ag, received by us on the 8th inst, called for 110.000 stamps from private die, and has not been filled in consequence of the short interval since their engraving order was made, to wit, the 21st ulto; their design being approved by you on the 23rd ulto.

We communicated to them, at the time, that it would require six weeks to complete their die and have stamps prepared therefrom. It is possible therefore that their order of the 5th inst was intended for common proprietary stamps - the correctness of which view may be determined by a reference to their letter making the order of that date.

In compliance with request, however, we have communicated to them the cause of delay, and probably they will rightly inform you on the subject. If proprietary stamps were required we can return you the present requisition for amendment; but if private stamps are wanted they should be aware that it will be two weeks yet before such can be ready for use.

Very respectfully
Butler & Carpenter

Messrs Alex. Underwood & Co.
Newark, N.J.

Gentlemen:

We have the pleasure to inform you that your private die has been engraved, and the proof impression herewith submitted will, we trust, give entire satisfaction. Every effort will be made to have the plate finished and stamps therefrom prepared at the earliest possible moment, and we hope to fill first order for the new stamps by 30th inst. An ample stock of them shall be kept on hand to prevent future disappointment in the filling of orders.

It would be a source of satisfaction to be informed if you misunderstood our letter of the 19th ulto stating the time required to complete the die etc, when you made the order of 5th inst; or whether the error occurred at the Inter. Rev. Bureau in not requiring us to send ordinary proprietary stamps.

We invite your attention to the annexed bill, which is now due, and remain,

Gentlemen:

Your letter of the 6th inst addressed to the Hon E. A. Rollins, Commissioner of Inter. Rev. Washington, D. C. has been referred to us for consideration.

We are the manufacturers of revenue stamps and stamp plates for the government. Our charge for engraving and making a private Inter. Rev. Stamp Plate is three hundred and fifty dollars ($350). The time required to execute the work is usually about six weeks. If you desire us to make a private plate you will please make a sketch representing the size and design and we will prepare a model therefrom and submit the same to you before engraving. For the present, however, the Commissioner has interdicted the preparation of any more private plates, but if you wish to order one engraved you can do so now and get the same made in its regular turn when we resume engraving them.

Gentlemen:

Our a/c of wrapper paper (in stamps) on hand after filling order of the 23d inst is as follows:

15,000 No. 1

In our previous letter we unintentionally stated 50.000 No. 1 - 15.000 is correct. If however our a/c does not yet agree with yours be good enough to state particulars and we may be better able to reconcile the discrepancy.

It is necessary to recall your attention to the deficiency in the size of wrapper sheets - particularly of the No. 1 a large portion of the new lot running from 3/4 to 1⅛ inch too short in width. To make proper size wrappers the white sheets should be 28 x 44 inches and the brown 26 x 44.

The last 184⅛ reams are nearly worked up and our hands are ready for a further supply.

New York, N.Y.

We are not vendors of revenue stamps but merely manufacture them for the Government, & consequently cannot receive money for stamp value on checks.

If you do not wish to order directly from the Commissioner of Inter. Revenue you can get the work done through some dealer in this City, with equal promptness - among whom are J. R. M. Fetridge, W. E. Crockett, & J. E. Ridgway.

For stamping 2040 checks, five to the page, they would require you to send in advance $43.86 items as follows,

2040 stamps @ 2	$40.80
2½% off	1.02

Sir:

Your letter of the 8th inst addressed to the Commissioner of Inter. Revenue has been referred to us for a reply.

We are the authorized agents of the Government to manufacture revenue stamp plates and stamps. Our price for engraving die and making a stamp plate complete is uniformly three hundred & fifty dollars ($350) payable upon presentation of a proof impression from the finished die. No extra charge is made except for manufacturing stamps larger than the Government standard; the rate being 13/16 of an inch free, and for stamps 3 1/8 inches superficial area ten cents per thousand, and in proportion for other sizes, beside three cents per thousand for extra perforation. The entire extra charge for manufacturing a stamp the size of design accompanying your let er would not exceed ten cents per thousand stamps. Your design is original. We would have to obtain the Commissioner's approval, however, ere we could proceed with engraving after which it would take six weeks time to complete the plate. Proprietors of Private dies are allowed a commission of ten per cent on all orders of over $500 at a time. We keep an ample stock of the manufactured stamps on hand to prevent delay in filling orders. If you make a positive order for a private plate, we will if permitted by the Commissioner of Inter Revenue, execute it humbly and we trust satisfactorily.

Thos Calvert, Esq
Detroit, Mich.

Sir:

We are printers of revenue stamps for the Government, but not vendors of stamps and cannot receive money except for the printing of checks etc. The stamp value must be paid to the Government either directly or through a dealer in stamps who will attend to to matter for you.

The dealers in this city are Jacob E. Ridgway; John R. M. Fetridge; and William E. Crockett, either of whom will receive your money and get an order from the Government for stamping your receipts.

The receipts themselves, however, must have the words "Good when used for payment of money" printed on each, and their general character meet the approval of the Commissioner of Internal Revenue ere we can print stamps thereon.

We herein return the Sixty dollar draft to our order. If you desire to order your stamps through a dealer, you have only to remit to him, and we will hand the receipts over accordingly when stamped.

Our charge for printing us uniformly one cent a page of six stamps each or less - and half a cent per page of one stamp. The dealers allow a commission of 2½% & upwards. You can therefore ascertain the amount to cover expenses - and remit the whole in advance.

Please acknowledge receipt of returned draft and oblige,

Yours respectfully

Gentlemen:

The lot calling for forty reams of white paper ran over about 2000 sheets.

Paper from Vernon Bros has come to hand in good order but is too small to cut stamps to the regular size being only 27 by 41 inches and we must either contract them all a little or spoil large numbers of outside ones for want of margin.

There are 21 bundles in the lot each containing five reams - the aggregate weight being 1784 pounds. The sheet inclosed is a sample of quality.

We shall endeavor to keep all the lots separate and send them in the order requested.

We have recently had a letter from the Commissioner of Internal Revenue to the effect, that as it is probable an early change will be made in the mode of preparing revenue stamps with a view to prevent frauds in their reuse, it is deemed unadvisable to prepare any new dies for the present. We therefore regret to say we cannot proceed at once to execute your order; but will place it on file in the order of its date and duly notify you when the prohibition has been withdrawn.

Gentlemen:

Our charges for printing stamps on checks etc are one cent per page of six stamps each or less, and a half cent per page of one stamp.

The checks etc for stamping should be sent to us by Express (prepaid) with am't to pay for printing inclosed. At the same time you should write to the Commissioner of Inter. Revenue Washington, D. C., informing him of the facts and inclosing the duplicate sertificate of a Designated Depository of a deposit made covering the value of stamps to be printed. The Commissioner will then make an order on us to meet the case which will be promptly executed and forwarded by mail (free) The Inter. Rev. Bureau does not receive an order of less than $50.

You can however order any am't of stamps to be printed through our city dealers who make the stamping of checks etc a specialty. You forward the documents to us as before and negotiate with them for the purchase of stamps to be printed.

The dealers here are, J. R. Mc Fetridge, W. E. Crockett and J. E. Ridgway.

Sir:

Your favor of the 3d inst is at hand. We beg to assure you that we have promptly forwarded to you the full amounts of stamps called for in the requisitions from the Commissioner of Inter. Revenue.

On the 13th ulto you telegraphed us to know why order of the 6th had not been sent. We replied at once that no such requisition had been made by the Inter Rev. Bureau. On the 15th, however, a dispatch came from the Commissioner directing us to send you 110.000 stamps, which we complied with the same day.

On the 30th ulto we received another requisition from the Bureau in your favor for 60.500 stamps which was executed and forwarded the same day.

You will therefore percieve that we are not in fault. We also know that the Inter Rev Bureau is generally very prompt in the transmission of orders, and that some accident has been the cause of delay and mistake in the cases cited. If you have not yet received the full amount ordered you had better state the facts plainly to the Commissioner and the fault will be duly rectified.

St Louis, Mo.

Gentlemen:

Your favor of the 11th inst is at hand. Your stamp has been approved by the Government. We have on hand an ample stock of your manufactured stamps and are prepared to fill orders for them at once. Your orders must in all cases be addressed to the Hon E.A. Rollins, Commissioner of Inter. Revenue, Washington, D. C. inclosing the duplicate certificate of a U.S. Ass't Treasurer or designated depository of a deposit made covering the value of stamps ordered. The Commissioner will then make a requisition on us and stamps will be sent you forthwith. The commission on private stamps allowed by the Government is (payable in stamps) five percent on orders of $500 or less, and ten per cent on all orders of over $500.

Manufacturers of matches who desire to avail themselves of the provisions of the 181st section of the Internal Revenue law, and receive a credit of sixty days, will be furnished, on application to the Commissioner of Inter Revenue, with a blank bond in proper form to be filled up and executed by them.

Very respectfully,

Sir:

Our charge for engraving a private die and making revenue stamp plate complete, of any size, is uniformly three hundred and fifty dollars ($350). The time usually consumed in the execution of an engraving order is six weeks.

We cannot now however execute an order for the reason that the Commissioner of Internal Revenue has instructed us that inasmuch as it is probable that an early change will be made in the mode of preparing revenue stamps, with a view to prevent frauds in their reuse, it is deemed unadvisable at present to prepare any more new dies.

Your application in the meanwhile is placed on file and we will duly notify you when the above prohibition has been rescinded.

Sir:

The package of blank receipts which you sent us on the 11th ulto to be stamped with the two cent document stamp through the house of J. E. Ridgway of this city, came to hand only a few days ago. We immediately transmitted a specimen to the Commissioner of Inter Revenue for his approval and the same has been this day returned to us endorsed "approved for a 7 cent stamp, viz: 2 cents as a receipt, and 5 cents as a contract. We therefore regret to say it is impossible for us to stamp the documents for you, as our stamping operations are confined to the two cent die alone, and our only recourse now is to return the blanks to you (which are forwarded this day by Adams Express Company) as we received them a few days ago. We also return draft for six dollars (inclosed herewith) which you sent us in payment for printing, and notify Mr Ridgway of the facts that he may refund to you the price of stamps ordered from the Government through his agency.

Gentlemen:

Your favor of the 8th inst addressed to Hon W. A. Rollins, Commissioner of Inter. Revenue, has been referred to us.

Our stock of 1 ct proprietary stamps is perfectly correct and indicates that the aggregate of orders forwarded on the 6th inst in which yours (No 8979) was included was properly filled.

If you were not mistaken in the counting of the sheets upon first opening the package, the error noted must have been made by our sending one sheet of 1 ct proprietary stamps in excess of the required number to some other party ordering at the same date. We have consequently written to them with a view to ascertain if such has been the case, and will duly apprise you of the result. Asking your indulgence in the meanwhile we remain,

A party whose order for stamps came to us on the same date, and in the same requisition from the Inter. Rev. Bureau, as your order No 957 Ag forwarded on the 6th inst, States to us that his package was one sheet short of the required number of 1 ct proprietary stamps.

Our stock a/c being correct an error could only have occurred by our sending one sheet in excess of the required amount to some other address. Your order of that day called for 300 sheets of 1 ct proprietary stamps. Will you please inform us if that was the exact am't received? If the extra sheet got into your package will you please return it to us that we may forward it to the proper party, and oblige,

Gentlemen:

We have fully considered your proposition of yesterday made personally at our office respecting the engraving of your private die in anticipation of its final adoption by the Government, and desire in the meanwhile to convey to you the Inter Revenue Commissioner's instructions to us ere we execute the order, viz: "In view of the probabilities of a change in the mode of preparing revenue stamps it is not deemed advisable at present to approve designs for private dies, as the plates might soon become valueless to their owners." If, however, notwithstanding this precaution you are still willing to assume the risk of its adoption we shall at once proceed to engrave the die in accordance with your design, and upon the usual terms, on receipt of your instructions to that effect.

C. F. Panknin, Esq
Charleston, S. C.

Sir:

Your letter of the 17th inst accompanied with sketch of design and explanation is referred to us by the Commission of Internal Revenue for reply.

Our charge for engraving a private die and making stamp plate complete, of any usual size, is uniformly three hundred and fifty dollars ($350), and the time consumed in the execution of an engraving order is about six weeks.

Proprietors of private dies are furnished with stamps 63/64 of an inch superficial area without extra charge for manufacturing, and ten cents per thousand are charged for stamps 3 1/8 inches sup. area: all other sizes in proportion.

We cannot now, however, execute an order for the reason that the Commissioner of Inter. Rev. has instructed us that inasmuch as it is probable that an early change will be made in the mode of preparing revenue stamps, with a view of preventing frauds in their reuse, it is deemed unadvisable at present to prepare any more new dies.

Your application nevertheless is placed on file and we will duly inform you when prohibition has been rescinded. In the meanwhile we would state that the law requires the denomination of stamps to be in lettering as well as in figures. We therefore suggest that in the event of engraving your die we be permitted to insert "Four cents" in lieu of the words U.S. of America as at present rendered.

Very respectfully

Sir:

We have received answers from the parties to whom we addressed inquiries respecting the sheet of 1 ct proprietary stamps missing from your package No. 8979, and it is alleged by them that their quantities were as usual correct.

Our system of checks to prevent errors of the description noted is as near perfection as long business experience can make it, and no package is permitted to leave our hands until we are so well convinced of its being correctly filled that we are willing to make oath to that effect, as indeed we are obliged to do at the close of each month. Still in common with all individuals we may be liable to an exceptional error in some unaccountable way, and consequently cannot refute the correctness of your claim. Our balance of stock for which we are accountable to the Government is perfectly correct, and we cannot draw a sheet therefrom to send you. If, however, the party who originally opened the package referred to will make an affidavit to the effect that he is sure there was a deficiency as stated, and the same be forwarded to us we will cheerfully refund you its value by return mail.

Sir:

In answer to your inquiry of the 24th inst, we would state that the Commissioner of Inter. Revenue has not rescinded his directions prohibiting for the present the engraving of private dies for the reason that the Government had not yet decided upon any improved made of preparing revenue stamps.

Regarding the possibility of the stamp tax on matches being removed we can only say that, in our opinion, it is not likely, inasmuch as neither the trade nor the consumers demand any change in this respect.

Your favor of the 11st inst is received.

The Commissioner of Inter. Revenue has instructed us that inasmuch as it is probable an early change will be made in the mode of preparing revenue stamps it is deemed unadvisable at present to prepare any more new dies.

It is probable that we will shortly hear from the Inter. Revenue Bureau when the new rules will be made, and thereupon will at once advise you thereof.

Your application in the meanwhile is placed on file, and will receive attention in the order of its date.

Very respectfully,

Hon E. A. Rollins,
Commissioner Inter. Revenue
Washington. D. C.

Sir:

The letter of Milton Stapp, Galveston, Texas, herein returned, as referred to us by your Bureau on the 14th inst, has been considered, and we beg to inform you that the stamp submitted is undoubtedly genuine.

To prevent misapprehension on part of the Bureau we would also state that its blurred appearance was not caused by a defective plate, as the annexed stamp from our balance will show, and we do not think it can be attributed to bad printing. The manner in which we pack stamps brings all the gummed and printed surfaces together, and we have frequently noticed in the separation of sheets, which have accidentally become glued together, that the gum would fraw blotches of ink from many of the stamps on the adjoining sheet, giving them a broken or blurred appearance. We think it quite likely that the stamps referred to by Mr. Stapp have been wet and afterward separated with a like result.

Mr. S. is a dealer in stamps, and has been getting his supply from here at regular periods, always sent him in tin cases hermetically sealed, and we have never heard from him any complaint. From his questioning the genuineness of certain stamps in this instance it appears that he did not get them from us, and, perhaps, is uncertain by what means or indirection they reached Texas. Possibly they have endured exposure and rough handling sufficient to make them "puzzle good judges."

Please return the stamp annexed by us, and oblige,

Yours Respectfully
Butler & Carpenter

Sir:

In regard to the New Orleans stamps we would state that according to our recollection of the matter there was such a package returned to us sometime prior to Feb 1 1867. We remember having been authorized by the Bureau to receive it according to its endorsement - the lot being so firmly stuck together that it was deemed impossible to count its contents. For the same reason the stamps were not entered in our spoiled a/c, but were merely repackage, endorsed as originally with letter accompanying, pasted on the outside. The package was subsequently placed in an apartment especially devoted to the storage of stamps intended for destruction, and was destroyed with them in February, 1867.

Unfortunately we made no note of particulars other than that endorsed on the package itself. After diligent search we can find no allusion to the subject in our back correspondence, and hence cannot inform you when, or by whom the package was returned, or of its value. A reference to your letter book however would probably give the desired information.

Very respectfully,

The Commissioner of Inter Revenue has referred to us your letter of the 14th inst.

We are the manufacturers of revenue stamps and stamp plates - but have recently been instructed by the Commissioner that, inasmuch as it is probable an early change will be made in the mode of preparing revenue stamps it is deemed inadvisable at present to prepare any more new dies. It is very likely that we will shortly hear from the Inter. Rev. Bureau when the new rules will be made, and thereupon will at once advise you thereof.

We return the model as requested. Your application, however, is placed on file, and will receive attention in the order of its date.

Sir:

Your letter of the 12th inst stating there was a deficit in stamp order No. 9290, has been referred to us by the Inter. Rev. Bureau.

In reply we beg leave to state that our Examiner has a distinct recollection of counting, among other items, 101 40/100 sheets of two cent stamps in the package named immediately before it was sealed up for delivery.

In case you have not already discovered the 1 sheet & 40 two cent stamps, we advise you to look among the five cent stamps for them as we readily conceive how you might be mistaken in the matter for instance the entire 101 40/100 sheets of two cent stamps were at the bottom of the pkge - the 100 sheets being separated from the odd ones by a projecting paper marker - directly over these were the five cent stamps, and the party opening the package has run over the fives and found them correct, but in lifting them off he has removed all the stamps down to the aforesaid paper marker thus leaving the 1 sheet & 40 two cent stamps underneath the fives.

You will therefore please investigate further into the matter, and oblige us by stating whether or not our theory is correct.

Very respectfully

Sir:

Your letter of the 17th inst addressed to the Hon. E. A. Rollins Commissioner of Inter. Revenue has been referred to us.

No doubt there has been an accidental transposition of directions on the packages intended for you and Mr. Fullerton of St. Louis, Mo.

As they amounted to $1050 respectively and the denominations were similar, we trust you were not greatly inconvenienced thereby. Our own accounts and those of the Inter Revenue Bureau will not be interfered with by the transposition unless Mr. Fullerton should be dissatisfied with those he has received and return them to us.

We think however, that your course in retaining the package received by you, was correct; otherwise you must have met considerable delay in making an adjustment. We shall use suitable efforts to prevent a repetition of the oversight, and remain,

Very respectfully yrs.

Sir:

Mr. A. L. Schmidt, Louisville, Ky writes that he recently received a lot of revenue stamps which were evidently intended for you, and infers that you have received those intended for him. Our opinion also is that there has been an accidental transposition of directions on these packages, and as Mr. Schmidt has retained the one rec'd by him - the value being exactly the same, and its contents similar - we have to beg of you to also retain the one received, and thus save the embarrassment and delay that otherwise must ensue. The oversight which has led to this exchange of stamps was ours, it is one that seldom occurs, and we will exercise due vigilance that it will not be repeated. Hoping that you are not inconvenienced thereby, and our request can be complied with we remain,

Sir:

The Inter. Revenue Bureau has not yet authorized us to resume the engraving of private dies, and we cannot say how long it will be until we are permitted to execute your order. As soon as we are advised, however, we will inform you.

The commission allowed by the Government on common stamps is five percent on all amounts over $500, ordered at one time.

All orders must be addressed to the Hon E. A. Rollins, Commissioner of Internal Revenie, Washington, D. C. inclosing the duplicate certificate of a U.S. Ass't Treasurer, or designated depository of a deposit made covering the value of order.

Sir:

Your favor of this inst is received.

We regret to hear that the drafts etc stamped for you are not deemed to be printed in a satisfactory manner.

The foreman of this particular department of our business states to us that, with the exception of one lot, all the stamping for your company has been done by the most experienced workman in this branch, is in every case finally examined by him, and he has in no instance discovered defects other than those which might naturally be expected to occur from the necessity of printing upon dry documents, and the varied qualities of paper.

The lot herewith delivered, it is thought, in a measure justifies his averment. We will, however, redouble our efforts to give satisfaction, and beg you will further notify us should we fail in doing so.

Sir:

Your favor of the 22nd inst is just received.

We find that the transposition of directions on packages sent the same day with yours of the 10th inst, affected the stamps intended for three parties, two of whom it appears have retained the packages rec'd by them, the amounts being respectively the same. The only remaining way to now adjust the matter is for the Commissioner of Internal Revenue to retain the package which you forwarded to him, and duplicate the order which should have come to you in the first place.

We exceedingly regret the inconvenience which this accidental oversight of ours has given you, and will at once notify the Inter. Revenue Bureau thereof that there may be no further delay in the delivery of your order.

Messrs J. J. Nicholson & Sons.
Baltimore, Md.

Gentlemen:

On the 10th inst we send to your address a package of revenue stamps. On the same date by some oversight there was a transposition of directions on some of the packages and it is thought that the stamps intended for you were sent to another party whilst you might have received those intended for Mr. A. L. Schmidt, Louisville, Ky. We desire to know if such has been the case and will be greatly obliged if you send us early information.

You can ascertain the fact by referring to the way bill which came with the stamps of that date.

Very respectfully

Philadelphia, March 25. '68

Hon E. A. Rollins
Commissioner of Inter. Revenue
Washington. D. C.

Sir:

The letter of Mr. A. L. Schmidt, Louisville, Ky. dated March 14. 68, referred to us by your office on the 10thinst, states that he received a package of stamps directed on the outside to him, but upon opening it he found from the bill that it was intended for Mr. J. S. Fullerton, St Louis, Mo. The value being the same and the denominations nearly so he kept the package.

Upon receipt of the above letter we wrote to Mr. Fullerton advising him to retain the package which had been directed to him - supposing of course that he would receive Mr. Schmidt's stamps - and thus save the delay of a further adjustment. His reply, however, which has just reached us, states that he received the package intended for a house in Baltimore, and had returned it to the Inter. Rev. Bureau by Adams Express Co, on the same day.

The difficulty in the matter is apparently in consequence of an accidental transposition on our part of the directions on three packages of stamps intended for A. L. Schmidt, Louisville, Ky; J. S. Fullerton, St Louis, Mo; and J. J. Nicholson & Sons Baltimore, Md, valued at $1 50 respectively, as called for in requisition No 5114, Mch 9. 68.

As two of the parties, viz: Mr. Schmidt, and Messrs J. J. Nicholson & Sons have retained the packages received by them, the only adjustment that need be made is with Mr Fullerton, St Louis, Mo. who desires to have stamps sent him according to his order in lieu of those returned by him to your office. If, therefore, you will send the returned package to us, with your permission to correct the discrepancy in denominations, we will endeavor to do so with the least possible delay.

We exceedingly regret the oversight which has led to this exchange of packages, such has not occurred before with us for several years, and we will exercise due vigilance to prevent its repetition.

Very respectfully,
Butler & Carpenter

Sir:

Your favor of the 25th inst is received.

The Commissioner of Inter. Revenue has instructions that "in view of the probabilities of a change in the mode of preparing revenue stamps, it is not deemed advisable at present to approve designs for private dies, as the plates might soon become useless to their owners".

We therefore are not at liberty to furnish estimates. As soon as the new rules are made we will advise you thereof. Your application in the meanwhile is on file and will receive attention in the order of its date.

Gentlemen:

We are the authorized agents of the Inter. Rev. Bureau to manufacture revenue stamps and stamp plates. The Commissioner, however, has recently instructed us that "in view of the probabilities of a change in the mode of preparing revenue stamps, it is not deemed advisable at present to approve designs for private dies, as the plates might soon become useless to their owner."

Hence we are not at liberty to furnish estimates. As soon as the new rules are made we will advise you thereof: your application in the meanwhile remains on file and will receive attention in the order of its date.

Philadelphia March 31. '68

Hon E. A. Rollins
Commissioner of Inter. Revenue
Washington. D. C.

Sir:

In reply to your communication of the 28th instant, we would respectfully state that our report of the 26th was not intended to make it appear that we have exchanged revenue stamps with parties desiring exchanges, without authority from your office. All exchanges that have ever been made by us, either with your bureau or private parties, were for sheets returned in consequence of being stuck together by extra exposure in their transmission from this office. In such cases we have soaked the stamps, accurately counted them, and resent in exchange precisely the same denominations and amounts of each. In filling requisitions in a couple of instances we have accidentally sent to proprietors of private dies a sheet or two of mutilated stamps, in which cases they have been returned to us for exchange and we have not hesitated to send them perfect stamps of the same denomination in return. But in no case have we ever exchanged one denomination for another, being sufficiently aware that an opposite course would have conflicted with the regulations and records of your bureau, and at the same time embarrass our own accounts. We never expected to have the subject of these exchanges brought into question, as they were obviously made in the interest of the government, and absolute justice to the parties, whose orders could not be considered executed until they were filled with perfect stamps. It would be a difficult matter at this time to hunt up and cite authorities for every case; to show however, that your office was in the habit of requesting us to make such exchanges, we refer to your letter of March 22nd 65, on the subject of Messrs Cowles & Leetes' order, wherein we are requested in pencil marks to "Please send Henry Fassett, Ashtabula, O. other stamps in place of the damaged ones returned. "Original" letter is herewith inclosed, together with copies of other letters authorizing exchanges.

In regard to the destruction of stamps which have become worthless, and our authority for such destruction, we are unable to determine whether you refer only to the stamps which have been returned for exchange, or to the destruction of spoiled stock generally. If the former we would say that when stamps are exchanged, those returned are placed in the spoiled stock in lieu of the good ones resent, are considered the same in every respect as if spoiled in the process of manufacturing, and no discrimination is therefore necessary when the spoiled stock is destroyed. In relation to the destruction of spoiled stock generally it has been our uniform custom, as it has also been with the manufacturers of postage stamps, to destroy from time to time the accumulation; it being best to do so, both for the security of the government and the manufacturer, and in the absence of any instructions to the contrary, special authority for such destruction has never been deemed necessary.

In view of our uncertainty will you please inform us if your directions in communications of the 28th inst, are intended to prohibit the future destruction of stock which may be spoiled in the process of manufacture.

Very respectfully
Butler & Carpenter

Messrs Byam, Carlton & Co.
Boston, Mass.

Gentlemen:

We have on hand at this date, only 4.360.000 of your wrapper stamps, of which 1.645.000 are No 1's. As this is not a three months supply it is to your interest to send us additional paper at once. It may so happen that if you allow the balance to run down we may have so great a rush of business at the time as to cripple our ability to keep them ahead of demand. All the last lots of paper have been printed and the amt's above rendered comprise the entire balance on hand.

Collector of Internal Revenue
Bangor, Me.

Sir:

Our charge for printing government stamps upon policies of insurance is a half cent per impression or policy. The printed documents must be sent us, and the value of stamps to be printed (not less than $50) must be forwarded in the shape of a duplicate certificate of a designated depository of a deposit made for the purpose, to the Hon E. A. Rollins, Commissioner of Internal Revenue, Washington, D. C. who will then direct us to proceed in the matter.

Very respectfully,

New York, N.Y.

Sir:

Inclosed herewith is specimen of two cent revenue stamp imprinted on documents at our establishment. Our charge for printing is one cent an impression of six stamps or less each, and half that amount per impression of only one stamp.

As we do not receive money for the stamp value, you will have to remit directly to the Commissioner of Inter. Revenue, or order the stamping done through the agency of some one of our city dealers, who make liveral deductions to the trade. J.E. Ridgway, J. R. M.c. Fetridge, and W. E. Crockett give particular attention to this beanch of business, and upon application will no doubt furnish you with full information.

Sir:

Our instructions from the Inter. Rev. Bureau are imperative that no new dies will be approved by the Commissioner until it is decided whether or not a change will be made in the mode of preparing revenue stamps.

If, however, you choose to present your case to the Hon Commissioner, on the ground that you are willing to assume all the risk of a change, and should thereby get his sanction we will be happy to execute your engraving order in accordance with the terms stated in our letter of Jan. 23/68.

Messrs H. W. Hunt & Co.
New York, N.Y.

Gentlemen;

Your favor of the 25th inst is at hand.

In our interview with Mr. Hunt in regard to the charge for engraving, we mentioned $350 as being the price of the usual small stamp, but the one in question being very large and requiring double dies we stated it would cost about $500. It was further stated, and explained, that the engraving as far as we could execute it, could be transferred, and would diminish the cost of additional plates required by the company.

We regret to learn of the misunderstanding, and hope our explanation will enable Mr Hunt to recall the facts.

We herewith annex our bill, as requested, and remain,

3.540.000	Total

The last statement was correct in the total, but was not properly rendered as to kinds on hand.

Your order No. 1409 was inadvertently filled with No 1 stamps from the Vernon paper. We have some 200.000 of the think lot yet to deliver and will exhaust them before sending more of the others. You will readily distinguish those from the 100 reams of New York paper by the letter V endorsed on the covering of each parcel.

Sir:

We have considered the matter of changing the denomination of your two cent die to three cents, and making a new six cent stamp. Our total charge for the work would be three hundred and twenty five dollars ($325), which is much less than our former estimate and the sum named by you. It is by no means certain, however, that the Commissioner of Inter. Revenue will authorize us to do the work at present. Nevertheless will submit the matter for his consideration, and duly inform you of his action in the case.

Sir:

In reply to your favor of the 5th inst we would state that it is by no means certain that the Commissioner of Inter. Revenue will authorize the execution of your engraving order. In view of your urgency, however, and the fact of your having made personal application to the Commissioner we will at once prepare an artistic drawing from your sketch of desired stamp, and submit it for his official approval; and will duly inform you of his action in the case. Under favorable circumstances the new stamps would be ready for delivery in about six weeks.

Sir:

Your letter of the 30th ulto, address to the Commissioner of Internal Revenue has been referred to us for reply.

We are the government agents to manufacture revenue stamps and stamp plates. Our charge for engraving a private die, and making stamp plate complete is, uniformly, three hundred and fifty dollars, ($350). The time usually consumed in the execution of an engraving order, and manufacturing an adequate supply of stamps from a new plate, is six weeks.

We cannot now, however, execute an engraving order for the reason that the Commissioner has instructed us that, inasmuch as it is probably that an early change will be made in the mode of preparing revenue stamps, it is deemed unadvisable at present to prepare any more new dies.

Your application in the meanwhile is placed on file and we will duly notify you when the above prohibition *

Sir:

Your letter of the 2d inst addressed to the Commissioner of Inter. Rev. has been referred to us for reply.

We are deputed by the government to manufacture revenue stamps and stamp plates. The charge for engraving a private die and making stamp plate complete is uniformly three hundred and didty dollars ($350). The time usually consumed in the execution of an engraving order, and manufacturing an adequate supply of stamps from new plate, is six weeks.

We would be pleased to have you send a design but we cannot now execute an engraving order for the reason that the Commissioner has instructed us that, inasmuch as it is probable that an early change will be made in the mode of preparing revenue stamps, it is deemed unadvissble at present to prepare any more new dies.

Your application however is placed on file, and we will duly notify you when the prohibition has been rescinded.

Gentlemen:

Your favor of the 4th inst is at hand. In reply we can inform you that our charge for stamping checks and sight drafts is one cent an impression of six stamps or less each, and half cent for impressions of only one stamp. The printed documents must be sent to us with the amount for printing enclosed. You will at the same time inclose to the Commissioner of Internal Revenue, Washington, D. C. the amount of stamp duty in the shape of a duplicate certificate of a deposit made with a U.S. Asst Treasurer or designated depository on a/c of stamped paper. The Commissioner will then make a requisition on us and your documents will be stamped and returned to your address by mail free of expense. The checks etc for stamping should be sent to us by express, prepaid.

Sir:

We have the honor to submit for your consideration the accompanying design for a one cent private stamp for Mr. D. E. Gregory, Agent of Messrs Henning & Bonhack, match manufacturers, New York City.

The application for this die was originally made by letter directed to your office and referred to us on the 8th inst. Mr. Gregory states that he will assume all risk of loss by any future change in the mode of preparing stamps, and urges us to submit your approval of the new die.

Mr. H. T. Heimbold of this city desires to have a new six cent private die made, of the same design as his two and four cent dies now in use, and to have changed the denomination of his present two cent die to six cents. He also states his willingness to sustain any loss that may accrue to him by change in the mode of manufacturing stamps.

We accordingly submit designs, and remain

Dr. J. J. Laurence & Co.
Baltimore, Md.

Gentlemen:

Your letter of the 25th inst with sketch of stamp is received. It is the usage of the Inter. Rev. Bureau to refer to us all applications for private dies, which action, however, does not imply that the Commissioner will authorize us to make the stamp plates. It is merely intended that we shall inform the parties of the terms and regulations, and submit designs to the Bureau for approval. Before we regularly submit a design for your stamp for official consideration we beg to inform you that the Commissioner has instructed us that inasmuch as it is probable that an early change will be made in the mode of preparing stamps it is deemed unadvisable at present to prepare any more new dies, as they might soon become valueless to their owners. You would therefore be required to state to us that you would assume all risk of loss in this respect.

Our price for engraving a private die and making stamp plate complete is three hundred and fifty dollars ($350) payable upon presentation of a proof impression from the finished die. The time usually required to execute an engraving order is six weeks. As we are the manufacturers of stamps as well as dies, the plates are of course retained in our custody on behalf of the government, we keep a three month's supply of private stamps ahead so that proprietors are subject to no delay in getting their orders filled. Orders for stamps are addressed to the Hon E. A. Rollins, Commissioner of Inter. Revenue, Washington, D. C. inclosing the duplicate certificate of a U.S. Assistant Treasurer or designated depository of a deposit made covering the amount of order. The Commissioner then makes a requisition on us and stamps are sent to the parties forthwith. If the stamps are ordinary government size, viz 13/16 of an inch superficial area for one and two cent stamps, or 63/64 of an inch for three and four cent stamps, there will be no extra charge for manufacturing, if, however, the stamp exceeds these area there will be an additional charge made for the cost of paper and printing. This additional charge will be ten cents (.10) per thousand for stamps of 3 1/8 inches sup. area, and in the same proportion for other sizes.

The commission allowed by the government to proprietors of private dies, is ten per cent on all amounts ordered exceeding $500 at one time.

This, we believe, constitutes all the information we have to impart on the subject, we therefore desire to hear whether in view of the circumstances you will assume risk and abide regulations ere we take further action in the matter.

Very respectfully,
Butler & Carpenter

Sir:

We have the pleasure to inform you that the engraving of your private die has been completed, and inclose herewith a proof design of stamp, which we feel assured, will meet your wishes. Please inform us, as early as possible, in this respect, that we may proceed at once to make the plate: also what color you prefer the printing, and about the number of stamps you will consume monthly. In two weeks after hearing from you an adequate supply of stamps will be prepared to meet your demands. Orders for stamps must be addressed to the Hon E. A. Rollins, Commissioner of Inter. Rev. Washington, D. C. inclosing the duplicate certificate of a U.S. Ass't Treasurer or designated depository of a deposit made covering value of stamps ordered. The Commissioner will then make a requisition on us and stamps will be sent you at once.

In the meanwhile we beg to render an a/c of our claim in full, the amount of which you will please forward to our address.

Philadelphia, June 3. 1868

Jeremiah Fenno, Esq
Bangor, Me.

Sir:

We have the honor to acknowledge receipt of your favor of the 30th ulto. We are the manufacturers of revenue stamps and stamp plates: our charge for engraving a private die and making a stamp plate complete is uniformly three hundred and fifty dollars ($350). The government allows a sommission to proprietors of private dies of ten per cent on all amounts ordered over $500 at a time. The only abatement we ever make in the charge for engraving is where a party wants two or more denominations of stamps of the same general design, $300 each being charged for the additional plates.

As we are not authorized by the Inter Rev. Bureau to send out samples, of course we cannot comply with your request in this respect.

Very respectfully,
Butler & Carpenter

Sir:

In reply to your favor of the 8th inst, we would state that we received your three thousand dollar order on the 8th inst. The government agent here shipped the stamps to you on the same day, in two packages viz. No 1025 Ag., containing 100.000 stamps and No 1760 Ag containing 230.000 stamps. They certainly should have reached you on the 11th inst: we have no doubt, however, they have reached you ere this.

Order No. 1813 Ag for 110.000 will be shipped today.

We note your instructions with regard to increase in demand, and will endeavor to meet it promptly.

Very respectfully

Hon E. A. Rollins
Commissioner of Inter. Revenue
Washington, D.C.

Sir:

In reply to your request of the 19th instant, we have to say that our accounts do not give the required information. At the commencement of our business the requisitions were written out by Mr W. H. Kemble, Government Agent, who kept the record of details, while we charged only the aggregates of requisitions. This course was pursued at the time in consequence of orders made through the Bureau for denominations which had not been prepared, thus necessitating an adjustment of the requisitions to suit the existing supply.

We have referred the matter to Mr Pugh, who states that he will forward to your office, at once, such of the old books as may be likely to give the information.

Philadelphia, June 24. 1868

Hon E. A. Rollins
Commissioner of Inter. Revenue
Washington, D. C.

Sir:

We herewith return our statement, vouchers etc for May, 1868, as they appear to us to be correct in all respects. We observe that your a/c charges the deliveries with 110.000 one cent stamps more, and 55,000 two cent stamps less than ours. As the aggregates of value agree, however, and as our statement of deliveries corresponds with the government requisitions, it seems probable that there is an entry in your books of 110.000 one cent stamps where it should be 55.000 at two cents, as called for by requisition. The inclosed statement of individual orders for two cent private stamps will enable you to readily locate the discrepancy in this denomination, we deeming it unnecessary to itemize the numerous orders for one cent stamp, as the difference therein will be indicated when the other is found.

Very respectfully,
Butler & Carpenter

Sir:

In reply to your favor of the 25th inst, we would state that there is no regulation prohibiting us from sending your stamps to any particular address. It is only requisite for you to note your wishes, in your letter ordering stamps from the Commissioner of Inter. Rev. and he will instruct us accordingly.

Our letter of May 30th gives explicit instructions for ordering stamps; in this connection also, we beg leave to recall your attention to our a/c of that date for engraving and making plate, the amount of which you will please send to our address.

Gentlemen:

In reply to your favor of the 1st inst we would inform you that the Inter. Revenue Bureau do not receive a remittance for less than $50 worth of stamps at a time to be imprinted on documents. It will therefore be necessary for you to address your order to some dealer in this city who will promptly execute it for you, and will in the meanwhile furnish a sample.

The dealers in this city are J. R. McFetridge, Esq., Jacob E. Ridgway, and Wm E. Crockett, Esq, either of whom will give full information and execute orders in a satisfactory manner.

Messrs Rashcoe Zisemann & Maus
St. Louis, Mo.

Gentlemen:

Your favor of the 30th ulto is at hand. In reply have to state that it will not be possible for us to decide whether or not your die can be altered to meet your wishes until we learn the title of the new firm. If it can be altered the cost will be $250 if not it will be $350 for a new die. Why not continue the use of the present plate, there is no regulation of the Bureau to prevent it, and you will avoid all delay, and the trouble and risk of getting a new die approved by the government?

Your application for blanks to fill up new bond must be addressed to Hon E. A. Rollins, Commissioner Inter. Rev. Washington, D. C.

Messrs F. Mansfield & Co.
St. Louis, Mo.

Gentlemen:

In reply to your favor of the 10th instant we beg to state that we could not make the alteration, as indicated by your sketch, in private die of Messrs Zisemann, Gresheim & Co, and unfortunately, we have just been informed by the Commissioner of Internal Revenue that he declines to approve any more new dies at present. We could alter the die to make it read "U.S. Inter Rev." in lieu of "Aetna Match", and insert "F. Mansfield & Co, Match Factory, St. Louis." in place of Zisemann,Gresheim & Co. St. Louis", leaving the balance of engraving remain. The cost of the alteration would be about $250, but it is doubtful whether the Commissioner would approve the change at present. We beg to be further advised at any early day.

Our stock on hand at this time is only 216.500 of the Z. G. & Co. stamps, and we deem it inexpedient to replenish until we learn whether or not you will continue to order them.

Sir:

Your order of the 25th inst, and package of 1000 checks for stamping were duly received.

As we do not deal in stamps and have no authority to receive the value of stamps printed, we hand your order to a dealer here (J. E. Ridgway, Esq. Banker No. 57 S. 3rd St.) who regularly sends remittances to the Inter. Rev. Bureau for stamping checks for the trade. We will also deliver to him the checks when stamped. He will then pay our charges for printing and collect the whole from you by express. In future you will please address your orders and packages to some one of our city dealers in stamps (viz: J. E. Ridgway, J.R.M. Fetridge, W.E. Crockett) any of whom will be competent to attend to the matter - unless you prefer to send a remittance (not less than $50) direct to the Inter. Rev. Bureau, for the stamp values; in which case you may send your parcels to us.

The present lot will probably be shipped to you today.

Gentlemen:

We are the manufacturers of revenue stamps and stamp plates for the Government. Proprietors of private dies are allowed a commission of ten per cent on value of stamps ordered over $500 at a time. Our charge for engraving a private die and making stamp plate complete is uniformly three hundred and fifty dollars ($350). We could not at this time execute an order for you, however, as we are notified by the Hon. Commissioner of Inter. Revenue that he declines for the present to approve any more new dies.

Messrs A. L. Scovill & Co's and all other revenue stamps and dies were manufactured by us.

Gentlemen:

You had probably not rec'd our letter of the 5th at the time of remitting us your check for stamps and stamping, on the 6th inst. We stated that we did not receive any money in behalf of the revenue and referred you to one of our city dealers. We regret further however that upon examining the checks sent us that we cannot stamp them at all for the reason that there is no plate made to suit, and it would be too expensive to engrave one especially for them - all our plates are on steel and are laid our equi-distant as to stamps and are not adjustable.

We find ourselves compelled therefore to return the package to you by mail (free) and inclose herewith the cancelled check - exceedingly regretting our inability to execute your order, and thanking you for kind intention.

Sir:

We are appointed by the Inter. Revenue Bureau to imprint revenue stamps on checks and sight drafts. Our charges are one cent per page of six stamps or less each, and a half cent for single stamp to the page. We are in no case allowed to stamp paper before the checks or sight drafts have first been printed thereon.

As we do this imprinting exclusively upon government requisition it will be necessary for you to address your order (for not less than $50 worth of stamps) to the Hon Commissioner of Inter. Rev. Washington, D. C. inclosing remittance covering the value of stamps to be imprinted; and forward the checks etc, together with the charge for printing to us, by express prepaid. Upon receiving proper authority from the Commissioner we will duly return your documents with stamps imprinted thereon.

Or you may more conveniently get the work done through some authorized dealer in this city who will attend to the matter, for any amount, and draw on you for the entire expense after the work has been done. The dealers here are J.E. Ridgway; J. R. Mc.Fetridge; and W. E. Crockett who have constantly requisitions in their favor for such imprinting.

Charles Welsh, Esq

Sir:

We could not stamp the lot of drafts returned to you this morning for the reason that we have recent advice from the office of Internal Revenue that when there is a space in the body of a draft for the insertion of time, and when drawn apparently otherwise than at sight or on demand it would be liable at the same rate as a promissory note, and no stamp could be imprinted inasmuch as the tax varies with the amount.

This ruling will cause some diminution to our business and perhaps inconcenience to our customers but being authoritative we have no recourse but to comply therewith.

Your favor of the 17th inst is received. We are appointed by the Government to make revenue stamps and stamp plates. Our charge for engraving a private die and making stamp plate complete is, uniformly, three hundred and fifty dollars ($350). We would expect you to furnish a sketch of desugn and size of required stamp. You should seek ffom the Commissioner of Inter. Revenue information as to what denomination of stamp is required for your goods. At this time, however, it will be impossible to make you a private die for the reason that the Commissioner notifies us that, "inasmuch as it is probable that an early change will be made in the mode of preparing stamps no new dies will be approved for the present." But if your case is urgent and you are willing to sustain the loss of plate in case an early change is made, you can state the facts to the Commissioner of Inter. Commissioner of Inter. Revenue
Washington, D. C.

Sir:

Messrs S. B. Hartman & Co. Lancaster, Pa. have reduced the price of their preparation, and desire to procure a four cent private die of the same design as their present die. They wrote us on the 18th inst, that they had requested permission to have the denomination changed, and that permission had been granted.

We inclose a sketch furnished by them, together with a stamp from their six cent die, showing the character of an alteration in the dimension of stamp which they desire to have made, reducing it to 2 9/16 inches superficial area.

It being the rule for us to have direct authority from you before executing an engraving order, we submit the matter for further consideration, and remain,

Gentlemen:

In reply to your letter of the 18th inst we beg to state that we have formally submitted your application for a new four cent die to the Hon Commissioner of Inter. Revenue, as it is necessary for us to receive his sanction direct ere we can execute your order.

We stated to the gentleman representing your house that $250 would be the cost of changing the die from six to four cents. But as you now require a change of dimensions the work is equal to making a new die. If, however, we can use the same head over again the cost will be reduced to $300.

We will duly apprise you of the Commissioner's action in the matter, and if permission is granted us, will proceed to engrave the stamp will all possible dispatch.

Gentlemen:

Your favor of the 18th inst is at hand. Our charge for engraving a private die and making revenue stamp plate complete is uniformly three hundred and fifty dollars ($350); for each additional denomination, of the same size and design, three hundred dollars ($300). You should send us a sketch representing the desired size and design.

At this time, however, it will be impossible to make the dies for the reason that the Commissioner of Inter. Revenue has notified us that inasmuch as it is probable that an early change will be made in the mode of preparing stamps no new dies will be approved at present, as they might soon become useless to their owner. All we can do, therefore, is to place your application on file and duly notify you when the restriction has been rescinded.

Gentlemen:

In answer to your favor of the 26th inst, we have to say that when packages of your stamped wrappers are deposited in the P.O. here they are invariably counted by the P.O. officials and repacked in mail pouches. We have always obtained receipts for them calling for the amounts as stated in the invoices accompanying the respective lots. Our balance on hand is perfectly correct as considered in connection with the quantity manufactured, indicating also that the proper deliveries have been made. Hence the missing package must have been lost while intransitu - and it will be impossible for us to make up a deficit from this cause without a regular requisition from the Inter. Rev. Bureau. If you address the Commissioner on the subject, giving our statement in regard to proper delivery, receipt therefor, and correct balance of stock, together with affidavits as per inclosed circular, we have no doubt he will authorize us to send you another $50 package.

Philadelphia, Sep. 5. '68

Hon E. A. Rollins
Commissioner of Inter. Revenue
Washington. D. C.

Sir:

In pursuance of your note of the 2d instant referring to us the letter (herewith returned) of Messrs Root, Anthony & Co., New York City, informing you of complaints made to them that stamps are so easily affected by moisture in the atmosphere; and that one of their customers residing in Texas desires to know whether you will furnish revenue stamps ungummed for the Southern market. We would state, that when stamps leave our office they are always in good condition, the same gum is always used, and the best attainable; but if improperly exposed to such damp weather as has characterized the past summer it will certainly become soft.

The complaints coming from their customers in Texas may no doubt be attributed to want of care on the part of Messrs Root, Anthony & Co. themselves, in packing stamps for transmission to a humid climate. They should invariable be hermetically sealed in tin cases to protect them against the subsequent conditions of moisture and heat to which they are exposed in transit. This is our mode of packing for such places and no complaint insues. As it has never appeared that stamps were in bad condition when Messrs Root, Anthony & Co. received them from us, we cannot justly be held accountable for those that are retransmitted by them packed in a manner over which we can have no control.

Very respectfully
Butler & Carpenter
per L.

Philadelphia, Sep. 5. 1868

Hon E. A. Rollins
Commissioner of Inter. Revenue
Washington. D. C.

Sir:

In answer to your letter of the 1st inst we beg to say that revenue stamps have in all cases been sent from this office in good condition - and when returned to us in damaged lots have been disposed of as so much spoiled stock. We have never charged for any stamps except those delivered upon requisition of the Internal Revenue Bureau; on the contrary, have repeatedly borne the loss of resending good ones for those that have been accidentally spoiled in their transmission.

As we are not aware that any stamps have been returned to us, and others sent upon requisition in their stead, since the 1st of August, 1863, we, of course, have no returns to make. But there were returned to us, by your direction, on the 5th of May, 1867, from C. M. Kibbon, Philadelphia, Pa. thirty five packages marked letter "E" containing in all 1.351.700 stamps, representing a value of $36.750. These are not spoiled, however, and we have no knowledge that others were ordered in lieu of them, although we are sure that an equivalent has not been ordered in the same name; hence they do not seem to be within the subject of your inquiry - but should you deem it otherwise, and desire us to do so we will forward them to you at once upon being notified to that effect.

For a complete a/c of stamps returned we beg to refer you to our statement of March 26. 1868.

Very respectfully,
Butler & Carpenter

Rec'd payment

Philadelphia Sep. 11. 1868

P. Fahrney, Esq
Franklin Grove, Ills.

Sir:

Your letter of the 28th ulto, addressed to the Commissioner of Inter. Rev. has been referred to us for reply.

We are the Gov't agents to manufactur revenue stamps and stamp plates. Our charge for engraving a private die, and making stamp plate complete is, uniformly, Three hundred and fifty dollars ($30). There is also an extra charge for printing at the rate of 13/16 of an inch superficial area of stamp free, and 3 1/8 inches ten cents per thousand stamps, all other sizes in proportion. For stamps larger than the Government sizes there is a charge of three cents per thousand for extra perforation.

When the price of goods is diminished or increased, the denomination of stamp can be changed on the die at a cost of about two hundred and fifty dollars ($250).

We cannot now, however, execute an engraving order for the reason that the Comm'r of Inter. Rev. has instructed us that, inasmuch as it is probable that an early change will be made in the mode of preparing dies, no new ones will be approved for the present: but will put the application on file and notify you when the prohibition has been withdrawn.

As he failed to do so, and has made no response whatever to our last letter we deem it proper to refer the facts to you, and in the event of further delay in the matter we shall feel compelled to resort to such legal measures as may be most likely to enforce payment.

Dear Sir:

Your favor of the 30th ulto is this day rec'd.

Upon receipt of your communication stating your inability to pay for the plate ordered by you as Agent for Messrs Henning & Bonhack, we addressed those gentlemen direct, and they paid us at once. Since then they have ordered and received stamps from their plate.

With regard to any private agreement between Messrs H & B and yourself we have to state that we are not called upon to interfere therewith. That must be settled by yourselves. Our position is simply to obey requisitions from the Government to issue private stamps when the party in whose name the plate has been ordered and engraved has settled with us in payment therefor. You represented yourself us the Agent of Messrs Henning & Bonhack - the stamp is engraved in their name: they acknowledge and pay their indebtedness for it. We have no further knowledge of the business - nor is it n necessary for us to have. If Messrs H & B have violated their agreement with you - it is to them and not to us you must look for redress. We add, moreover, that we have felt ourselves at perfect liberty to dispose of the plate to any party, upon your declaration of inability to pay for it. It was not your property, even had you represented yourself as principal in the transaction, until you paid for it; and your last and as far as we can know, final decision was not to pay for the plate.

We shall address a copy of this communication to Messrs Henning & Bonhack; and shall certainly feel bound to furnish future stamps on their orders regularly made through the Department.

Frankfort, N.Y.

Sir:

In reply to your favor of the6th inst we beg to say that all the lots of stamps sent you from this office have been in pursuance of requisitions from the Internal Revenue Bureau, and any discrepancies that may have existed between the amounts received and those ordered by you were in consequence of errors made at the Bureau. We have referred to your letters from time to time merely for the purpose of keeping up an adequate supply of stock to meet orders. They could in no way influence our filling orders as we are obliged to send you only such stamps as are named on the Commissioners requisitions, and have no discretionary power to change the denominations.

We have recently been short of the three cent stamps for the reason of the large increase in demand for that denomination but we note the amount of deficit in each lot sent and make the entire order complete by further instalment, as soon as possible. This, however, has nothing to do with your complaint in the present instance, and, inasmuch as we have no power to aid you in the matter we suggest you write to the Internal Revenue Bureau and request them to (be)* more accurate in recording your orders upon requisition on us if it should be found that the fault exists at that place.

Very respectfully,
Butler & Carpenter

Gentlemen:

The Commissioner of Inter. Revenue has not yet directed us to resume engraving private dies generally, but as his restriction in the first place was intended to save loss to proprietors, inview of the probability of an early change in the mode of preparing stamps, he has specially permitted several to be made upon being informed by the parties that they would assume all risk of the probable loss. We can therefore only suggest that if the conditions are acceptable to you it would be proper for you to state that fact to the Hon Commissioner and he may grant you similar permission.

We herewith return your sketch for amendment, as requested, and remain,

Very respectfully

Gentlemen:

We have the pleasure to inform you that your new die has been engraved and the plate nearly completed. The inclosed proof, it is trusted, will give entire satisfaction.

No part of the old work could be used. The head even required the same time and skill to adopt it as an original.

A requisition for the new stamps reaching us on the 16th inst, will be duly executed.

We beg to present, herewith, our engraving a/c, the amount of which is due at this stage, and should be forwarded to our address.

Very respectfully,
Butler & Carpenter

Messrs Schaffter & Bryant
Lynchburg, Va.

Gentlemen:

Our operations in stamping are only with the two cent die. The Government will allow nithing but printed documents to be stamped. Therefore your proposition to send us the blank paper cannot be considered. If the documents to be stamped are obviously checks or sight drafts you can send them to us direct (express paid) - specimens of all other documents must first be sent to the Commissioner of Inter. Revenue for his official sanction.

Our charges for stamping are one cent per impression (or pull) of six stamps or less each, and half price for single stamp to the impression. All orders for the stamps and payments for the same (not less than $50) must be forwarded to Hon E. A. Rollins, Commissioner of Inter. Rev. Washington, D. C.

Dear Sir:

Since you called upon us at our office in regard to the 419.175 two cent stamps returned to us Dec 30. '62 from Farmers & Mechanics Bk, Philada, we discovered in our Delivery Book that an equivalent in other denominations had been delivered to the same party the next day; the items of which were included in our a/c rendered the Bureau for deliveries in said month, viz

10080	Express	lct	$100.80
7560	"	2"	151.20
2380	"	5"	119
1020	Conveyance	50"	510

1020	Mortgage	50"	510
1080	Inl. Exchange	$1	1080
990	Power of Atty	$1	990
2970	Inl. Exchange	$1.50	4455
	Total		$8383.50

As Mr Kemble figured up all the requisitions etc on us at that time he no doubt conducted the correspondence in relation to this exchange which may explain your recent inability to find any note of the matter in copies of back correspondence with us.

Hoping that this clue will lead to righting your a/c, we remain

Sir:

Your favor of the 15th inst is received. We have been compelled to fill some of your recent orders by instalments, always, however, sending you a part of the order on demand and the balance shortly afterward - in consequence of the large and sudden demand for these stamps. A very large stock of both denominations is in process of manufacture and no doubt we will be able to give you fill satisfaction in the future.

Your order of the 16th inst has not yet reached us.

Messrs J.H. Zeilin

Gentlemen:

In answer to your favor of the 15th inst we have the honor to state that we are the Government Agent to manufacture revenue stamps and stamp plates.

Our charge for engraving a private die and making stamp plate complete is uniformly three hundred and fifty dollars ($350) payable upon presentation of a proof impression from the finished die. The time usually required to execute the work is six weeks. The Government furnishes stamps of the ordinary size without charge for printing, but when they exceed 13/16 of an inch superficial area for one and two cent stamps, and 63/64 of an inch for other denominations, we are authorized to charge at the rate of ten cents per thousand for stamps 3 1/8 inches superficial area for extra printing and three cents per thousand stamps for perforating.

The Government allows a commission of ten per cent on all orders for stamps over $500 at a time.

We cannot now, however, execute an engraving order for the reason that the Commissioner of Internal Revenue has instructed us that "inasmuch as it is probable that an early change will be made in the mode of preparing stamps no new dies will be approved at present". We can therefore only suggest that, is you are entirely willing to assume the risk of losing the use of the die by reason of the said probability, you are at liberty to state that fact to the Commissioner and he may grant special permission in your case.

We shall place your order on file in the meanwhile and duly advise you when the prohibition has been removed.

Very respectfully,
Butler & Carpenter

Messrs Henning & Bohack
Hudson City, N.J.

Gentlemen:

We have not received any order in your favor, from the Internal Revenue Bureau, since the 25th of Sept. '68, which we executed the same day. Whatever delay there is to your last order must be in consequence of miscarriage of your remittance, or some oversight at the Bureau. You had better address the Commissioner on the subject at once.

The long interval lapsing since the last order we received made us apprehensive that you had ceased manufacturing hence we withdrew your plate from press. Please inform us if you intend to continue your orders that we may resume printing the stamps.

Very respectfully

Boston, Mass.

Gentlemen:

Your favor of the 12th inst is received. Our stamping of documents is confined to imprinting the two cent stamp (specimen enclosed) upon checks, sight drafts, and plain forms of receipts that have the words "good when used as a receipt for payment of money" first printed thereon. Charges for imprinting are one cent per sheet (or pull) of six stamps each, or less; and a half cent per sheet of one stamp each. The documents, with am't for printing inclosed, may be forwarded to us by express, prepaid, and the stamp value, if over $50, remitted to the office of Internal Revenue, Washington, D. C. Or, you can more conveniently send the documents to any one of the dealers here, who will pay the revenue charges and our own, and collect the am't from you when the work is completed. For allowance on stamp value, and other particulars, address the dealers direct, viz: J. E. Ridgway, I. R. McFetridge, Jno M. Riley and W. E. Crockett, Philadelphia, Pa.

Philadelphia Nov 18. '68

Francis V. Barnet, Esq
Easton, Pa.

Sir:

We have the pleasure to acknowledge the receipt of your favor of the 14th inst.

Our charge for engraving a private die and making stamp plate complete is uniformly three hundred and fifty dollars ($350) payable upon presentation of a proof impression of the finished die. The time usually required to execute the work is six weeks. The government furnishes stamps of the ordinary size without charge for printing, but when they exceed 13/16 of an inch superficial area for one & two cent stamps, and 63/64 of an inch for other denominations, we are authorized to charge at the rate of ten cents per thousand for stamps 3 1/8 sup. area for extra printing, and three cents per thousand stamps for perforating.

The Government allows a commission of ten per cent on all orders for private stamps over $500 at a time. We cannot now, however, engrave private dies for the reason stated in our letter of the 13th of March last to Messrs Thompson & Co., your predecessors, but as the restriction is made by the Government merely to protect applicants from risk of losing their plates by the probability of a change in the mode of preparing revenue stamps we can suggest that if you are perfectly willing to assume that risk you are at liberty to state the fact to the Commissioner of Inter. Revenue, and he may grant special permission in your case. Otherwise than this we can do nothing but place your application in file and await further instructions from the Commissioner.

Very respectfully,
Butler & Carpenter

The superficial area of each die will be 1 9/16 inch.

They state to us that they are entirely willing to assume any risk of loss by future changes in the law or in the mode of preparing stamps, and will so inform you in a day or two.

Sir:

The stamps sent to us inclosed in your letter of the 23rd inst, and returned herewith, are genuine without any particle of doubt, and are only slightly faded from age. The fact that prior to M'ch 31/65 the entire class of denominations of stamps, ranging from $15 to $50 inclusive, was issued unperforated will account for the absence of perforation marks on these stamps.

Philadelphia Nov. 27. 1868

E. G. Silby, Esq
86 Water St.
Cleveland, Ohio.

Sir:

We have the pleasure to acknowledge the receipt of your favor of the 23 inst, and in reply thereto beg to state that our charge for engraving a private die and making stamp plate complete is uniformly three hundred and fifty dollars ($350) payable upon presentation of a proof impression from the finished die. Each denomination of stamp requires a separate plate; our charge for each additional plate is three hundred dollars when the size or design differs from the first; but for stamps of the same size and design we would make you the two for five hundred and fifty dollars ($550). We could complete the work in about seven or eight weeks.

The Government furnishes stamps of the ordinary size without charge for printing, but when they exceed 13/16 of an inch superficial area for one and two cent stamps, and 63/64 of an inch for other denominations we are authorised to charge at the rate of ten cents per thousand for stamps 3 1/8 inches superficial for printing, and three cents per thousand for extra perforating. If you decide to have larger stamps than the Government one & three cents you can send us a sketch representing the required size or sized and we will inform you exactly what the extra rate for printing will be. Send us also a photograph (common carte de visite will do) of the head to be used as vignette, and state what lettering is to be used on the stamp.

The Government allows a commission of ten per cent on all orders for private stamps over five hundred dollars at a time. It is necessary, however, in all cases, that applicants for private dies should assure the Commissioner of Internal Revenue that they will assume all risk of losing the use of their plates by the event of any change being made in the tax law, or in the mode of preparing revenue stamps. If you conclude to have dies made you will therefore please send us a statement to this effect that we may submit the same with a model of your dies to Hon Commissioner for his official approval.

We have the honor to remain,

Very respectfully yours,
Butler & Carpenter

Gentlemen:

The Government allows a commis'n of ten per cent to proprietors of private dies.- the extra charge is made for printing etc when the stamps are larger than the common size. The accompanying pamphlet page 18 etc will give you full particulars in this respect. We inclose samples upon which sizes there is no extra charge.

Our price for engraving and making a plate complete is uniformly three hundred and fifty dollars ($350), and the time required is from six to eight weeks.

If you favor us with an engraving order be good enough to send us a rough sketch of required design - and state distinctly whether you are willing to assume all risk of losing the use of the proposed die or dies by reason of any future change in the tax law or in the mode of preparing revenue stamps. Without such statement the Commissioner of Internal Revenue would hardly approve your application for plates.

Sir:

Yr favor of the 1st inst is at hand. The one hundred sheets of threes were not inclosed in pkg No 28354g, but were sent you separately, the same day and their failure to reach you duly was not our fault. We trust they are rec'd ere this.

We had hoped you were not inconvenienced by our necessity to occassionally send your orders by instalments, and regret to find that you have been. We are now printing to keep up a larger amount. Our contract with the Government is not of a character to secure a full three months supply to everybody unless we prepare more than we are guaranteed. Finding this to be the case we have determined to increase our stock largely. It will take a little time to do it.

Sir:

Your favor of the 4th inst is rec'd. As your wrappers are $4\frac{1}{2}$ x $6\frac{1}{2}$ inches in dimensions including margin, the sheets of paper to print them on, at the price named, would be 28 x 47 inches, to give forty wrappers to the impression.

Our machines are set to cut uniform sizes.

It would be impracticable for us to receive and use your paper after it had been cut.

In regard to the return of stamped wrappers which have not been used, we believe the Inter. Revenue Bureau redeems them under certain conditions, at a discount of one per cent.

If you should favor us with an engraving order be good enough to send a sketch of required design, and state whether you are willing to assume all risk of losing the use of the die by reason of any future change in the Tax Law or the mode of preparing stamps, that we may submit the same with model to the Hon Commissioner of Inter. Rev. for his official approval. Without such statement it is not likely he would authorize the die to be made.

Sir:

Your favor of the 10th at hand. It is not possible to imprint stamps upon checks that are bound in book form. We trust therefore, you have not sent them to us in that shape.

For particulars in regard to stamping documents etc we refer you to some dealer in stamps who will give you the requisite information. The parties having credit with the Government for this purpose are J. E. Ridgway, J. R. M. Fetridge, and W. E. Crockett, all of Philadelphia.

Sir:

In reply to your favor of the 11th inst, requesting us to report if any discrepancy was noticed in our stamp account after filling Agency orders Nos. 2290,2336 and 2699, we have to state that during the time of those deliveries our balance of stock remained perfectly correct, and it not probable that any error has been made by us.

The inclosed transcripts from the requisitions will show whether the items sent correspond with those ordered by Mr. Haven, as it sometimes occurs that the cause of complaint in in the parties not getting the same assortments as they order from the Government.

Gentlemen:

We have finished engraving your two private dies and inclose proof impressions which we trust will give entire satisfaction.

It remains now for us to transfer the dies to plates for printing, and prepare an adequate stock of stamps. Your first order therefore may be made to reach us about the 1st proxo, and it will be duly executed. In the meanwhile be kind enough to inform us what color to print the stamps, and how many will probably be needed in the first three months.

We beg to present our a/c, herewith annexed, which becomes due at this stage, and remain,

Very respectfully yrs,

Messrs P. H. Drake & Co.
To Butler & Carpenter Dr.

For engraving two & four cent private dies and
making stamp plates, in full $550

Philadelphia, Dec. 16. '68

Jos. R. Good, Esq
St. Joseph, Mo.

Sir:

Your letter of the 7th inst addressed to the Hon E. A. Rollins, Commissioner of Inter. Rev. has been referred to us for the necessary reply.

We are the agents of the Government to manufacture Inter Revenue stamps and stamp plates. Our charge for engraving a private die and making stamp plate complete is uniformly three hundred and fifty dollars ($350) payable upon presentation of a proof impression from the finished die.

The Government furnishes stamps, from private dies, of the ordinary sizes without charge for printing etc, but when they exceed 13/16 of an inch superficial area for one and two cent stamps, and 63/64 of an inch for other denominations we are authorized to charge at the rate of ten cents per thousand for stamps 3 1/8 inches superficial area for printing, and three cents per thousand for extra printing. A commission of ten per cent is all wed on all orders for private stamps over five hundred dollars at a time.

It is necessary, however in all cases, that applicants for private stamp dies assure the Commissioner of Internal Revenue that they will assume all risk of losing the use of their plate by the event of any change being made in the tax law or in the mode of preparing revenue stamps.

If upon learning all the circumstances of the case you conclude to have us execute your order be good enough to inform us direct, and insert the assurance in regard to risk that we may submit the same with a model of the proposed die to the Hon Commissioner for his official approval ere we commence to engrave

If we are successful in getting the application approved we will have stamps prepare in sufficient quantity by the 1st of Feb'y '69 to meet subsequent orders on demand.

Very respectfully,
Butler & Carpenter
per L.

Messrs Selby & Taylor
Cleveland, Ohio

Gentlemen:

For a private three cent die similar to Gates we would charge you the usual price, three hundred and fifty dollars ($350).

The Government would supply stamps from dies of that size, as well as from those of all other sizes, at the rate of six hundred and sixty dollars in stamps for six hundred dollars in money.

The extra charge for printing perforating etc would be made by us at the rate of 13½ cents per thousand stamps.

There is no style which does not cost extra for printing etc unless it be within the dimensions of ordinary stamps such as are sold by the dealers.

Very respectfully,
Butler & Carpenter

Messrs Wise & Co.
No 15 Warren St. New York, N.Y.

Gentlemen:

We are advised by the Commissioner of Inter. Revenue that you desire to have a private die engraved and he forwards us the sample inclosed by you together with a sketch of required design.

Before taking any action in the matter, as the Government agents to manufacture revenue stamps and stamp plates we will give you full information in regard to cost and mode of procedure.

Our charge for making a private die and stamp plate complete is uniformly three hundred and fifty dollars ($350) payable upon presentation of a proof impression from the finished die. The time usually required is six weeks. The Government allows a commission of ten per cent to proprietors on all orders over $500 at a time. No extra charge is made for printing stamps of the ordinary sizes, but when they exceed 13/16 of an inch for one cent stamp and 63/64 of an inch for other denominations we are authorized to charge at the rate of ten cents per thousand for stamps 3 1/8 inches superficial area and all other sizes in propertion; beside three cents per thousand for perforation. The stamp required by you being 13/16 of an inch of course there would be no extra charge made.

As the Commissioner does not say what denomination of stamp is required,that is whether a one, two or three cent, you will be kind enough to inform us.

It is necessary also in all cases that applicants for private dies to assure the Commissioner of Inter. Revenue that they will assume the risk of losing the use of their plate by the event of any change being made in the tax law or the mode of preparing revenue stamps.

If, upon learning these circumstances youconclude to have the order executed please inform us direct, and state the accurance in regard to risk that we may submit the same with a model of the die the Commissioner for his approval ere we commence to engrave.

If we can succeed in getting the application approved we could have stamps prepared in sufficient quantity to meet on demand your orders rec'd subsequent to 1st Feb.'69.

Very respectfully,

Gentlemen:

We are not permitted by the Government to imprint stamps upon receipts unless the words, "Good when used as a receipt for payment of money" have first been printed thereon; and then only upon certain forms of receipts. Hereafter you will please send us a specimen in advance of the full lot, that we may determine whether we are authorized to stamp the document.

We exceedingly regret the necessity for us to return this lot and hope you will not be inconvenienced thereby.

In future please prepay the expressage as our rule is to refuse to receive unpaid for packages. We paid sixty cents in this case which we collect by return express.

We regret to see that our stamp does not show well upon the check of Mr Billinger, for the reason that the purple tint is not in harmony with the color of stamp, although the defect is in appearance only and cannot impair the validity of the stamp.

We beg to kindly suggest that it would be better in the fututre to take into consideration the effect produced upon the stamp by tints generally and use only such as will harmonize therewith. This would prevent our work as well as Yr own from appearing at a disadvantage.

A. S. Keeler, Esq
Sec'y of "The C. G. Clark Co."
New Haven, Ct.

Sir:

In answer to your favor of the 11th inst we have to inform you that our charge for engraving a private die and making plate complete, is uniformly three hundred and fifty dollars ($350), and the time required to do the work is usually from six to eight weeks.

The Government allows a commission of ten per cent to proprietors of private dies on all arders for over $500 in stamps. No extra charge is made for printing pricate stamps of the ordinary sizes but when they exceed 13/16 of an inch superficial area for one and two cent stamps than we are authorized to charge proprietors at the rate of ten cents per thousand for stamps 3 1/8 inches superficial area, and all other sizes in proportion; beside three cents per thousand stamps for extra perforation. The stamp required by you being 63/64 of an inch sup area would be subject to a small extra charge.

Before we could execute an engraving order for you it would be necessary to get your declaration that you will assume the risk of losing the use of your die by reason of any future change in the laws and regulations of the Inter. Rev. Department that we may inform the Hon. Commissioner of Inter. Rev. accordingly when we submit the application to him for official consideration.

We understand your wishes from the sketch presented and if you decide to have the die engraved we will at one * have a model prepared and the engraving prodeeded with as soon as official sanction can be obtained.

Very respectfully,

Sir:

Our imprinting of stamps upon documents is confined to bank checks and sight drafts. The inclosed is sample of the stamp used by us. Our charges for printing are invariably one cent per impression of six or less stamps each, and a half cent for impression of only one stamp.

The printed documents must be sent to us by express, prepaid, and upon completion of the work the charges for printing and stamps will be collected from you, by an authorized dealer, upon delivery of the lot.

We require about two days time to execute the work.

Very respectfully,

Gentlemen:

We have been permitted to resume engraving new dies after the designs have been approved by the Commissioner of Inter. Revenue; and upon receipt from you of a sketch or description of the required stamp we will make a design to submit to the Honorable Commissioner for his consideration and approval.

We are not aware of any contemplated change in the mode of making stamps, but, of course, you must assume the loss of the die should it be rendered useless by any future change in the regulations of the Government.

If you conclude to avail yourself of the right to have your own die we could have stamps therefrom ready for delivery in about eight weeks from the time of receiving your order to engrave.

Very respectfully,

Gentlemen:

In reply to your of * * we have to inform you that our charge for engraving die and making stamp plate complete is uniformly three hundred and fifty dollars ($350). When two * * are required it is necessary to have two * * plates. If the design of both are the same * * the denomination the charge for (the second plate will) be three hundred dollars ($300).

We could have the new plates made and (stamps printed) there from in about eight weeks from the time of having your application approved by the Commissioner of Inter Rev. which would probably be a few days after you have notified us to commence the work.

As your stamps would be government size there would be no extra charge for them further than the cost of revenue.

In directing us to execute an engraving order for you it will be necessary for you to make a declaration that you will assume the risk of losing the die by the event of any future change in the laws and regulations of the Inter. Rev. Bureau that we may inform the Commissioner accordingly when we submit the application to him for official consideration.

The commission allowed by the Government to proprietors of private dies is ten per cent on all orders over $500 at a time or rather $550 in stamps are allowed for a remittance of $500.

Please send us a sketch giving your own ideas in regard to design and our artist will be better prepared to meet your wishes.

Dear Sir:

Our artist will draw the model of a stamp to be combined with your label and we will submit it to you in a day or two.

To would of course be impossible to engrave an exact copy of the label as the lathework could not be counterfeited except at great expense. We could, however, put other lathe work in its place. The ruled work, writing etc. could be made in facsimile.

We would ask $400 to engrave the combination and charge for paper and printing 30 cents per thousand labels.

New York Medical University
No 8 University Place,
New York, N.Y.

Gentlemen:

The Commissioner of Internal Revenue has referred to us your letter of the 4th inst in regard to private revenue stamp dies.

We are appointed by the Government to manufacture revenue stamp dies and stamps. Our charges for engraving a private stamp die and making the plate complete is uniformly three hundred and fifty dollars payable upon presentation of a proof impression from the finished die. Each denomination of stamp requires a separate plate - our charge for each additional plate is three hundred dollars when the size and design of stamp is the same as the first but differs only in the letters and figures showing the denomination.

The Government furnishes stamps of the ordinary size without charge for printing, but when they exceed 13/16 of an inch superficial area for one and two cent stamps, and 63/64 of an inch for other denominations we are authorized to charge at the rate of ten cents per thousand for stamps 3 1/8 inches superficial area for printing, and three cents per thousand for perforating.

The Government allows to proprietors of private dies a commission in stamps of ten per cent on all orders of over five hundred dollars at a time, or in other words allows $550 in stamps for $500 in money.

We keep on hand a three months supply of every kind of private stamp so that no delay is made in the filling of orders therefor.

If you conclude to have the dies made please send us further notice and we will prepare the necessary models to submit the Commissioner of Internal Revenue for his official approval.

Gentlemen:

Your letter of the 8th inst addressed to the Commissioner of Internal Revenue has been referred to us for reply.

We are the agents of the Government to manufacture revenue stamps and stamp plates. Our charge for engraving a private die and making stamp plate complete is uniformly three hundred and fifty dollars ($350) payable upon presentation of a proof impression from the finished die. Each denomination of stamp requires a separate plate, our charge for each additional plate is three hundred dollars ($300) when the size and design is the same as the first and differs inly in the letters and figures of the denomination.

The time required to prepare the plates and have a stock of stamps manufactured to meet orders would be about six or eight weeks.

If you decide to have us do the work please inform us direct and we will at once prepare models to submit to the Commissioner for official approval.

Very respectfully,
Butler & Carpenter

Gentlemen:

Your letter of the 9th instant addressed to the Deputy Commissioner of Inter Revenue has been referred to us for reply - and in pursuance thereof we respectfully return you the sketch of proposed stamp sent us by the Commissioner of Inter. Revenue on the 6th inst.

We desire simply to state that the engraving of private dies considering their multiplication upon the plate for printing, is a losing operation, and our charge is only a little more than half of what would be charged by any other company for the same work, as the officers of the Inter Revenue Bureau are aware, instead of four times as much as stated by you. We have therefore only to add that your opinion in regard to our exorbitant rate is erroneous and does us injustice.

Very respectfully,
Butler & Carpenter

Gentlemen:

Your favor of the 26th inst is at hand. Our stamping of documents is confined to printing a two cent stamp (specimen herewith), upon bank checks, sight drafts and plain forms of receipts that have the words "good when used as a receipt for payment of money" first printed thereon.

Charges for imprinting are one cent per page (or pull) of six stamps each or less, and a half cent per pull of one stamp each.

The printed documents, with amount for stamping inclosed should be forwarded to us by express prepaid, and the stamp value if over $50, remitted to the office of Inter. Rev. Washington, D. C. Or you may more conveniently send the documents to any one of the dealers here, either of whom will pay the revenue charges and our own, and collect the total from you when the work is completed. For commissions allowed and other particulars please address the dealers direct, viz: J. E. Ridgway - J. R. McFetridge and W. E. Crockett all of Philadelphia, Pa.

Thomas Harland, Esq
Deputy Commissioner of Inter. Revenue
Washington, D. C.

Sir:

In reply to your letter of the 30th inst, respecting the stamps received by us May 5th 67 from Mr. C. McKibbon, and forwarded to your office on the 24th inst, we beg to state that the identical stamps were not sent to you for the reason that they came to us in thirty five small packages of $1050 each, folded in the middle of the sheets, and remained in that condition until the receipt of your letter of the 20th inst. We then counted the stamps and found that in the long interval of nearly two years they had become so dry and hard, and the creases in the folds so firmly set, as to render them unfit for handling until they had stood awhile in bulk, or been repressed. Not wishing to delay their shipment we deemed it expedient and proper to send you a like amount from our stock and retain the others. We did so and the original stamps are still on hand except 800 sheets of two cents, a few of the fives and all the twenty-fives, which, during the last few days were used in filling orders.

The returned stamps were of course not included in our stock a/c, nor in our monthly report to your office. Upon receiving them from Mr. McKibbon we merely entered them under the head of "Suspense a/c" and upon their delivery credited the a/c accordingly.

Very respectfully,

Gentlemen:

Your letter of the 3d inst is at hand.

Only 275.000 wrappers were sent you on the 31st ulto in consequence of the Government requisition calling for that amount only. Doubtless an error has been made by the clerks at Washington: we called your attention in ours of the 25th ulto to the fact that they were probably going astray.

The following list of your letters notifying us of orders, compared with a list of requisitions from the Comm'r will point out any discrepancy that exists between you and the Bureau, viz:

List of letter orders		Government Requisitions			
Date	Amount ordered	No of order	Wash. Date.	Stamp Value	Date Sent
Feb 24	$4.000				
Mch 4	4.000	3422 Ag	Mch 1	$4.400	Mch 2

Apr 1	4.000	3593 "	" 30	2.750	" 30
" 3	4.000	3613 "	Apr 3	4.400	Apr 5

All the odd lots of paper are not quite printed up yet, but we have an abundance of everything to fill orders without any delay.

Gentlemen:

Your favor of the 14th inst is at hand. We have just finished your private die and herewith present a proof impression which we trust will give entire satisfaction. Have the kindness to inform us what color to print the stamps, whether you desire them gummed and perforated, and about how many you will require per month, that we may at once prepare an adequate stock to keep on hand. In five days from the time of hearing from you stamps will be in readiness to meet your orders. Orders must be forwarded to the Commissioner of Inter. Rev, Washington, D. C. inclosing the duplicate certificate of a U.S. Asst Treasurer or designated depository of a deposit made covering the value of stamps ordered. The Commissioner will then make a requisition on us and stamps will be sent you forthwith.

Your engraving a/c having become due at this stage we herewith present our bill, the am't of which you please remit to our address.

Very respectfully,
Butler & Carpenter

Gentlemen:

Your favor of the 15th inst is at hand. Our charge for stamping 5000 sheets of bank checks, 12 stamps to the sheet, would be $100, or one cent per page of six stamps each.

To pay the stamp value you would be required to deposit with the Asst U.S. Treasurer at New Yor, $1142.80 for stamped paper and forward the duplicate certificate thereof to the Hon C. Delano, Commissioner of Inter. Rev. Washington, D.C. stating to him that you require the amount in (60.000) two cent stamps printed by us on bank checks, whereupon he would at once direct us to execute your order for $1200, giving you the maximum allowance of 5% on the sum remitted or $57.14.

In the meanwhile you should send us the checks and the cost of printing the former by express freight prepaid. We would then return them to you finished in about four days from receipt of government order.

Very respectfully

A. S. Dickson, Esq
Meadville, Pa.

Sir:

The Commissioner of Inter. Rev. has referred to us your letter of the 16th inst in regard to engraving a private revenue stamp.

We are appointed by the Government to make revenue stamp plates and print stamps therefrom. Our charge for engraving a private die and making plate complete is uniformly three hundred and fifty dollars ($350) and the time required to do the work and prepare an adequate stock of stamps to keep ahead of demand is usually about eight weeks.

The stamps are furnished without charge for printing, except when they exceed in dimensions the size of the ordinary stamps of the same denomination, in which case we are authorized to charge at the rate of ten cents per thousand stamps of 3 1/8 inches superficial area, and for all other sizes in proportion, for extra paper & printing, and three cents per thousand for extra perforation.

The Government allows to proprietors of private dies a commission in stamps of ten per cent on all orders over five hundred dollars at a time; or, in other words, allows $561 in stamps for $510 in money.

If you conclude to have the die made please send us further notice, and we will prepare the necessary model to submit to the Hon Commissioner of Inter Rev for his official consideration and approval.

Very respectfully,

Gentlemen:

Your favor of the 17th inst is rec'd with comments in regard to the arrangement of the lettering on your proposed stamps. we shall of courde make the change in the engraving according to your suggestion. As we will require the model to work from we cannot sent it to you at present.

In looking through our back correspondence in letter book we are unable to find that we have communicated to you our charge for engraving a die, and to save misapprehension on the score we will now state particulars that you may in view thereof decide whether or not you will have the work done. We would state in the meanwhile we have already submitted your application to the Commissioner of Internal Revenue and he has approved the same, so that the die can be proceeded with as soon as we receive your reply.

Our charge for engraving a private die and making stamp plate complete is uniformly three hundred and fifty dollars and the time required to do the work is usually from six to eight weeks.

The Government allows a commission on stamps, to proprietors of private dies, of ten per cent on all orders of over $500 at a time, or, in other words allows $550 in stamps for $500 in money.

We keep an adequate stock ahead to meet orders on demand.

Sir:

Your favor of the 21st inst, claiming one sheet short in recent package is rec'd.

We duly investigated the matter and found our balance all right, indicating that the proper quantity was sent. We imagine the cause of the seeming deficiency would have been discovered at once had you accurately counted all the sheets, for it sometimes happens that the "fifty" markers get displaced while we are filling the orders from our stock lots, and no doubt in this case, where the one part of a hundred contained only forty nine sheets, you would have found that the other part contained fifty-one sheets.

In their manufacture the sheets are carefully counted in all the several departments of our business, and any inaccuracy would inevitably be manifested, hence our stock is correctly accounted for, and, as we send those stamps to no other house it follows that we could not be in ignorance of any mistake.

Of course we believe you think a deficiency existed, but we feel that our perfected system of checks is a good reason for us to think otherwise. The regulations of the Internal Revenue Bureau require that all packages of stamps be opened in the presence of two witnesses, and no claim for deficit will be allowed unless an affidavit setting forth the facts, subscribed by them, is first submitted to the Commissioner for consideration.

Trusting, however, that you will by this time see that a miscount was in all probability made at your factory and thus relieve us of further anxiety on the subject, we remain,

Yours very respectfully,
Butler & Carpenter

Gentlemen:

Your favor of the 11th inst is rec'd. One object in packing revenue stamps in lots of a thousand sheets or less is that they mat be carried in the money safes of the Express Co., another, that they will bear rougher handling without the same risk of damage.

A contract between the Government and the Adams Express Co. binds the latter to carry stamps at a specific rate per $1.000 face value, the fractional parts being charged for as a full $1.000 - as to whether you are properly charged may be learned upon application to the Commissioner of Inter. Revenue.. However we always pack with a view to economize in fractions, and your order No 3793 Ag for $4.400 should not have cost you one penny more by being in three lots. For supposing you are charged sixty cents per $1.000 - the $4.400 would cost $3. We put your last lot in three packages valued at $1.000 - $1.510 & $1.890 respectively, upon which the charges should have been, at same rate, 60 cents, $1.20 & $1.20 equal to $3 or precisely the same as of they had been in one bulk.

Very respectfully,
Butler & Carpenter

Isaac Pugh, Esq
Stamp Agent

Dear Sir;

In compliance with your request of this date that we state in writing our reasons for refusing to stamp the letter receipts of W. A. Drown & Co., we respectfully reply that they were recently sent to us by Messrs Longacres & Co. (through J. R. M. McFetridge, Esq, stamp dealer of this city) to be imprinted with the two cent document die, and our refusal was based upon the ruling of Deputy Commissioner Douglass' letter of the 3rd inst, informing us that the Gale Lock Manufacturing Company's receipts, almost identical in form, (specimen herewith) required a seven cent stamp.

Yours truly,

Messrs Mansfield & Higbee
Memphis, Tenn.

Gentlemen:

Your favor of the 10th inst is at hand. The letter & design mentioned as having been sent to the Commiss'r of Inter. Rev. Mch 24th, and subsequently refarred to us was not received, or you would have had a prompt reply.

We are the Agents of the Government to manufacture revenue stamps and dies. Our charge for engraving a private stamp die and making plate complete is, uniformly, three hundred and fifty dollars, payable upon receipt of a proof impression from the finished die. Each denomination of stamp requires a separate die: for each additional die, when the design is the same as the first with change merely in the letters and figures of the denomination. our charge is two hundred dollars.

The Government furnished stamps of the ordinary size without charge for printing etc. - but when they exceed 13/16 of an inch superficial area for one and two cent stamps, and 63/64 of an inch for other denominations, we are authorized to charge at the rate of ten cents per thousand stamps for those 3/ 1/8 inches superficial area and for all other sized in the same proportion, for extra paper & printin, and also three cents per thousand for perforation.

Proprietors of private dies are allowed a commission in stamps, of ten per cent on all orders of over $500 at a time or in other words allows $550 in stamps for $500 in money. We keep on hand a three months supply of every kind of private stamp so that no delay occurs in the filling of orders therefor.

As your design has gone astray have the kindness to sketch us another in the event of your concluding to have it engraved, and we will put the matter in hands of our engravers in its regular turn and have stamps prepared for you in about eight weeks from the time of approval of your application by the Commissioner of Internal Revenue.

Very respectfully,
Butler & Carpenter

Frederick Brown, Esq
Philadelphia, Pa.

Sir:

We will have stamps printed from your new private die and ready to meet the first order on the 28th inst.

All orders for stamps must be addressed to the Commissioner of Internal Revenue, Washington, D. C. inclosing the duplicate cetificate of a U. S. Assistant Treasurer or Designated Depository of deposit made covering the value of stamps ordered. The Commissioner will then make a requisition on us and the stamps will be sent you direct from us forthwith.

A commission in stamps is allowed of ten per cent on all orders for $500 worth at a time; or in other words $550 in stamps will be allowed for $500 deposited.

A proof impression of the finished die was sent you by messenger this morning. Please advise us whether or not you consider it perfectly satisfactory.

Our engraving a/c having become due at this stage we inclose the same & remain,

Yours very respectfully,

A. W. Schuster
Collector of Internal Revenue
St. Joseph. Mo.

Sir:

The Commissioner of Internal Revenue has referred to us your letter of the 14th inst in regard to the preparation of a three cent private revenue stamp for Messrs H. R. W. Hartwig & Bros. of your place.

In reply we have the honor to state that we are the agents of the government to manufacture revenue stamps and stamp dies. Our charges for engraving a private die and making plate complete is uniformly three hundred and fifty dollars ($350), and the time required to do the work and prepare an adequate stock to keep ahead of demand is usually about eight weeks.

The Government allows to proprietors of private dies a commission in stamps of ten percentum on all orders of over $500 at a time, or in other words gives $550 face value in stamps for $500 in money.

Stamps are furnished without charge for printing except when they exceed the size of the ordinary stamps of the same denomination, in which case we are authorized to charge at the rate of ten cents per thousand for stamps 3 1/8 inches superficial area, and for all other sizes in proportion for extra paper and printing, and three cents per thousand for perforating.

If, upon having this information, the party referred to conclude to have a private stamp plate made we will prepare the necessary model to present to the Commissioner of Inter. Rev. and put the work in hand in the order of the date of its approval.

Very respectfully

Gentlemen:

The Commissioner of Inter. Rev. has referred to us your letter of the 28th in regard to private revenue stamps for your use.

In reply we have to state that we are the Government agents appointed manufacture revenue stamps and dies. Our charge for engraving a private die and making a stamp plate complete is uniformly three hundred and fifty dollars ($350). Each denomination required a separate plate, for each additional die and plate of the same design as the first except the alteration in the words and figures of the denomination we charge two hundred dollars ($200) which would make for your three denominations viz 1, 2 & 4 cts, seven hundred and fifty dollars.

Stamps from private designs are furnished without charge for manufacturing except when they exceed the size of the ordinary Government stamps of the same denominations in which case we are authorized to charge at the rate of ten cents per thousand for stamps 3 1/8 inches superficial area and for all other sizes in proportion, beside three cents per thousand for extra perforation.

If upon having this information you conclude to have private dies engrave you will please send a sketch representing the character and size of the required design or designs and we will prepare a model to present to the Commissioner of Inter Rev. for his approval and put the work in hand as soon as we get his permission. It would probably take about two months time before we could have a stock of the new stamps ready for your use.

June 8 1869

Hon'e C. Delano, Commiss. Inter, Rev.
Washington, D. C.

Will you approve the two cent stamp on documents for Ridgway.
Specimens sent you third instant.

Butler & Carpenter
425 Chestnut St.

Philadelphia, June 8, '69

, Esq
Philadelphia, Pa.

Sir:
Yours rec'd.

Our stamping of documents is confined to imprinting two cent stamps on bank checks, sight drafts and plain forms of receipts having the words "Good when used as a receipt for payment of money" first printed thereon.

Our charges for imprinting are one cent per page (or pull) of six or less stamps each, and a half cent per impression of one stamp. The amount of charge for imprinting should be inclosed with the documents and sent to us by Express (by parties out of this city) and the stamp value, if over $50 remitted to the Commissioner of Inter. Rev. Washington, D. C. Or you may more conveniently send the documents to one of the stamp dealers of this city, either of whom will pay the revenue charges and our own, and collect the total cost from you upon delivery by Express of the documents when stamped.

For Commissions allowed the trade and other particulars please address the dealers direct - viz - J. E. Ridgway, J. R. McFetridge - and W. E. Crockett dealers in revenue stamps and stamped documents Philadelphia, Pa.

Very respectfully

Philadelphia, July 19.'69

Messrs Edward Wilder & Co.
Louisville, Ky

Gentlemen:

Your four cent die will be transferred to plate for printing in course of the present week. We will notify you of the exact time to make your first order for that denomination so that it will reach us about the time stamps are in readiness to meet it. In consequence of the official delay to your one cent die we cannot have the plate made for that denomination in less than two weeks from date, and we will also duly notify you in regard to it.

All orders for stamps should be addressed to Hon'e C. Delano, Commissioner of Inter. Revenue, Washington, D. C. (Stating denominations and required amounts of each), inclosing the duplicate certificate of a U.S. Ass't Treasurer, or designated depository, of a deposit made covering the value of stamps ordered. Upon receipt of your remittance the Commissioner will at once make a requisition on us and stamps will be sent you forthwith.

We keep a three months supply of every kind of stamp, so that no delay occurs after we once commence to fill orders.

The Government allows to proprietors of private dies a commission of ten per cent on all orders for stamps over $500 at a time; for instance if you send a certificate of $510 deposited you will receive $561 in stamps.

The four cent will be printed in brillant carmine, and the one cent in pea green, as you request. If we can get an opportunity to take proofs in various colors we will do so.

Very respectfully,
Butler & Carpenter

Sir:

We herewith respectfully return Messrs Hostetter & Co's application for a private die, with their sketch of design and photograph for vignette, recently addressed to you and referred to us on the 19th inst for reply; and also inclose a stamp of Messrs Hostetter & Smith(which please return to us) that you may observe the similarity of the two designs, even to the bearded head of the vignette.

We think such a stamp would be an infringement on the rights of Messrs Hostetter & Smith, the object being evident to cut into their business by deception, and unless we have your express authority we deem it but just to Messrs H & S. to inform the party that we refuse to engrave the stamp desired.

Milwaukee, Wis.

Gentlemen:

About ten days ago Mr. W. E. Crockett sent us 87.000 checks of the Wisconsin Marine & Fire Ins. Bank to be imprinted for you with the ten cent die.

As he informs us that he will not pay the Government stamp charges thereon until he collects them from you, stating for the reason that the outlay would be too great, you will not be benefited in the least by his agency in the matter and whatever margin is deducted by himself will be unfairly withheld. We regret having mentioned his name to you in connection with the other dealers, none of whom, we are sure, would have subjected you to the delay which is ensuing from Mr. Crockett's action in the matter.

If you have not already honored his draft you can forward a duplicate certificate of deposit, for $1650.15, of a U.S. Ass't Treasurer or Designated Depositary, to the Commissioner of Inter. Rev. Washington, D. C. Stating that you want the amt in "stamped paper printed by Butler & Carpenter" and he will make a requisition on us in your favor for $1740 (being 5% added to certificate of deposit) and we will then be enabled to send you the checks without interference or further trouble. Our charge for ptg, $174, will be collected on delivery. We had no expectation of such a large order or would have advised you to pay the Gov't direct.

Very respectfully,
Butler & Carpenter

Gentlemen:

While filling your last preceding order we inadvertently inserted the wrong fraction of a sheet, giving you one hundred and ten stamps instead of sixty to which you were entitled, making our balance fifty stamps short of the proper number. In filling order of today the discrepancy manifests itself and we proceed to correct the same by withholding the fifty stamps previously oversent.

Very respectfully

Sir:

Your favor of the 29th ulto is at hand. We regret to say it is utterly out of our power to furnish stamps except in pursuance of regular requisitions of the Commissioner of Inter. Rev. Washington, D.C.: otherwise it would afford us much pleasure to accommodate you.

We herewith return draft for $500, of which please acknowledge receipt.

All orders for stamps must be addressed to the Comm'r of Internal Revenue at Washington, inclosing the duplicate certificate of an Ass't U.S. Treasurer or designated depository of deposit made covering value of stamps ordered. The Commissioner will then make a requisition on us and stamps will be sent you forthwith.

The commission allowed by the Government is ten per cent on all sums or orders of over $500 at a time: therefore if you send a certificate of barely $500 you would be entitled to only 5% or $525 in stamps. If however you make the am't $510 you would be entitled to $561 in stamps.

At your request we will call the commissioner's attention to the bond, today.

Very truly yours

Sir:

Your favor of the 2d inst to hand. The Commissioner of Internal Revenue has formally notified us that your application to change the title of the "B & H. D. Howard" to "N.Y. Match Co." meets his official approval.

The variation in your instructions regarding the alteration of the stamp will not aggect out price. The engraving is not so much the cause of expense as the new die, roll and making of new plate. $75 is the least we can charge. I* will probably be six weeks before the work can be completed; we will however have an adequate stock of the present stamps to meet the demand as stated.

We understand you now that beside the alteration of Howard's die, you also want a new one cent stamp for the parlor matches in paper boxes, according to your letter of July 19th, and still another one cent die (size of three one cent stamps, for matches in round wooden boxes. Are we right in this, or do you mean for us to make only the one new die accodfing to your last letter, Aug 2?

Will be pleased to meet you personally at 425 Chestnut St. 4th floor, in regard to the subject.

Sir:

Your favor of the 2d inst to hand. We imprint two cent revenue stamps on bank checks, Sight drafts and plain forms of receipts which have the words "Good when used for payment of money" first printed thereon.

Our charges for imprinting are uniformly one cent per page of six stamps or less each, and a half cent per impression of one stamp.

The am't for printing should be inclosed with the documents and sent to us by express (prepaid) and the stamp value if over $50 remitted to the office of Inter Rev Washington D. C. (by making a deposit with an Asst U.S. Treasurer or a designated depositary and inclosing the duplicate receipt thereof) stating the object of the remittance.

Or for lots of less than $1000 stamp value you may very conveniently and on favorable terms send the documents to one of the dealers here, either of whom will pay the revenue charges and our own and collect the total from you on delivery by express of the work when completed.

J. E. Ridgway and J. R. McFetridge of this city are both extensively engaged in the business and will give you full particulars of discounts to the trade etc upon your application to them direct.

Your letter of the 2d addressed to the Secretary of the Treasury has been referred to us for reply.

We are appointed by the Government to engrave revenue stamp dies and print stamps therefrom. Our charge for engraving a private die and making plate complete is uniformly three hundred and fifty dollars ($350) and the time required to do the work is usually about six weeks.

The Government allows to proprietors of private dies a commission of ten percent on all orders of over $500 at a time.

Stamps are furnished without charge for manufacture except when they exceed in dimensions the size of the ordinary stamps of the same denomination, in which case we charge at the rate of ten cents per thousand stamps 3 1/8 inches superficial area and for all other sizes in proportaion for extra labor & material, beside three cents per thousand for extra perforation.

A stock of every kind of private die will be kept on hand to save delay in filling orders therefor.

If you decide to have a private die engraved please send us a rough sketch representing about your ideas of the required design and we will give the matter our attention.

Gentlemen:

Your application of the 10th inst, addressed to the Hon Commissioner of Internal Revenue has been referred to us for reply.

We are the appointed agents of the Government to manufacture revenue stamp dies and to print stamps therefrom. Our charge for engraving a private die and making plate complete is uniformly three hundred and fifty dollars ($350).

Stamps of the ordinary sizes are furnished without charge for manufacturing. But for increased sizes we make a charge for extra paper and printing, at the rate of ten cents per thousand for stamps 3 1/8 inches superficial area and for all other sizes in proportion: besides three cents per thousand for perforation.

The Government allows to proprietors of private dies a commission of ten per centum in stamps on all orders of <u>over</u> $500 at a time.

We keep a stock of every kind of private die ahead of demand so that no delay occurs in filling orders therefor.

If upon learning the facts you still desire to have the engraving, we will cheerfully prepare a model ffom your sketch and present it to the Inter Rev. Bureau for official consideration and approval.

We would state that we received previous application from you, in the latter part of July last, but as the name, and vignette head, together with the desired design were all so similar to the die of Messrs Hostetter & Smith, also manufacturers of stomach bitters, that we submitted the matter in advance to the Commissioner for advice, and, failing to get his reply we have done nothing further on the subject.

As you have now varied the design however, we can see no objection to our proceeding to prepare an elaborate model as usual (upon learning your conclusion) and let it remain with the Government authorities whether to approve it or not.

It would take at least eight weeks to complete the die and have a stock of stamps prepared therefrom.

Very respectfully,

Mr. W. E. Crockett of this city has referred to us your favor of the 12th inst for our consideration of the matter of your claim of forty five impressions equal to two hundred & twenty five stamps short of the amount of your late order for imprinting.

We regret that any discrepancy exists and can only say that from our system of checks and the number of times which the impressions were counted in our hands we are confident that no error was made by us. 17400 sheets were counted before handing them to the printer; they were again counted by the foreman after printing, and still again ere packing them in the box for shipment. We trust that by this time you will have ascertained that if any miscount has been made that the same was on your part, and thus relieve us of anxiety on the subject.

We have about fifty impressions unstamped. If you will have the kindness to return us the misprints we will cheerfully send you others in lieu of them.

Sir:

Your favor of the 2d inst duly rec'd and has been referred to Commissioner Delano who will doubtless advise you what course to pursue in order to recover the value of unused spoiled stamps on your hands.

We being totally unauthorized to make exchanges of course can do nothing in the matter.

Very respectfully,

Sir:

We have the pleasure to present you herewith our a/c for engraving your private die and also a proof impression therefrom which we think is very handsome and entitled to general admiration.

Please inform us by return mail whether you desire the stamps gummed and perforated, and about what quantity you will probably order at a time, bearing in mind that the government allows a mommission of ten per cent on all orders of over $500 at a time; or in other words gives $561 in stamps for $510 in money remitted by a certificate of deposit (in a/c of stamps) of a designated depositary or Asst U.S. Treaser. *

Please state also what color you prefer to have the stamp printed, we suggest black as being the richest for this design. One week after getting this information from you we will be prepared to fill your first order and will thereafter keep a sufficient stock on hand to promptly meet the future demand.

Very respectfully

Gentlemen:

Your favor of the 13th inst is rec'd.

The package of No 1 wrappers mailed to you on order 4376 ~~4/1/67~~* Aug 24/69 must have been broken open after it left our hands and the missing 500 no doubt lost in the mail.

It is absolutely impossible that it could have contained anything less than the proper quantity when it left here.

The Government Stamp Agent has instituted inqueries at our Post Office and may learn something. Have you inquired at the Boston P.O.?

Twenty seven bundles No 1 paper was recently rec'd in good order, but no invoice is yet at hand. How many reams should there be?

Very respectfully,

Sir:

Your favor of the 2d inst is at hand. The Commissioner of Inter Revenue appears to have abandoned the idea of making any change for the present as he has resumed the consideration of applications for new dies, but has not formally advised us on the subject.

Our charge for engraving a private die and making stamp plate complete is uniformly three hundred and fifty dollars ($350) and the time required to do the work is usually about eight weeks. When more than one die is required, we charge at the rate of $200 for each additional die provided the vignette head is the same on each.

Stamps from private dies are furnished without charge for manufacture: but for increased sizes we charge at the rate of ten cents per thousand for stamps 3 1/8 inches superficial area and for all other sizes in proportion.

We understand your wishes from the sketches sent us and will proceed with the engraving upon having your advice in that respect. You have sent us no photograph for vignette head: if you require the same on both stamps we will make both for $550.

Very respectfully

Messrs Wirt, Cox & Co.
Baltimore, Md.

Gentlemen:

Mr. Isaac Pugh, Stamp Agent, has referred to us for reply your favor of the 10th inst.

We would state that we are positive that the ten odd stamps of one dollar each were in the package according to invoice when it was sent from this office.

A probable theory is that the missing stamps adhered to the sheet immediately above them in the package and were removed therefrom without being observed.

Our stamp a/c is correctly balanced and it is impossible for us to send you ten extra stamps except upon requisitionn of the Commissioner of Inter. Revenue.

Gentlemen:

Mr. Pugh, who necessarily depends on us for information regarding the filling and packing of stamp orders, has referred* to us your favor of the 13th inst, wherein it is insisted that the package previously referred to, contained a deficit of ten one dollar stamps according to its accompanying invoice.

In replying we take the opportunity to assure you that we have every confidence in "your sincerity in making the claim; yet,as we are so very sure that no mistake was made by us - as evinced by the result of checks applied in filling every order - that an acknowledgement of error on our part is impossible; and we can only attribute the discrepancy to a mistake by you in overlooking the ten stamps. Our long experience in the business has taught us precisely where to look for missing stamps, and, as suggested in our last letter on the subject, we have no doubt that the missing fragment of a sheet adhered to the underside of the full sheet of fifty cent stamps lying immediately above it , and was thereby unconsciously removed from the package. An examination may yet bring these to light in your possession; or, may you not have sold the fifty cent sheet with the ten stamps still adhering to it?

We are particularly positive in this instance where the order was filled in the regular way. Telegraph orders however are an exception and readily susceptible of errors, as our checks do not apply the same to them, and ** we were led into error in the two instances which you cite, although, you will admit, we detected them*** ourselves and notified you thereof immediately we received the regular Government requisitions. Filling orders by telegraph is done only to accommodate dealers and is an uncertain and inconvenient way of doing such business. Happily, however, it is almost entirely confined to your orders, and we trust in you to assist us in making necessary corrections.

Please accept our apology for not filling your telegraph order of yesterday; it came too late in the day.

Very respectfully,
Butler & Carpenter,

A. H. Flanders, M.D.

Sir:

We have drawn, and herewith submit, a sketch of design for your private die, and trust it may prove satisfactory. The necessary alterations, such as putting the signature in fac simile and rendering the word medicine with its complement of letters will be made in the engraving.

It is to be regretted that there has been some delay in reaching your stamp, although we have taken up no work out of its regular turn in reference to yours. In a few days, however, we will be able to put the engraving of it in hand, and with all due diligence, will complete it in a few days thereafter.

Please return at earliest convenience the inclosed design with free and full comments - any alterations or amendments whatsoever you suggest can readily be made.

Sir;

The order for Messrs Lawrence & Cohen's stamps, received here on the 16th inst, was not filled until yesterday for the reason that the amount called for was, for that kind of stamp, extremely large, necessitating the preparation of an extra supply to meet it.

Unfortunately in our haste we inadvertently retained a quarter sheet (containing 36 stamps) from one of the $1100 packages, which, however, we inclose herewith that you may hand it to Messrs Lawrence & Cohen upon their application therefor.

We also notify Messrs L & C as above that they, as well as you, may be saved any further trouble on the subject.

Very respectfully,

This envelope will please be delivered to Messrs Lawrence & Cohen upon their application, as it contains thirty-six 5 ct stamps from their private die which should have been placed in one of the $1100 packages sent to Mr Dan'l Butterfield on order No 4512 Ag

Philadelphia, Sep. 24. 69

J. W. Douglass, Esq
Actg Commissioner of Inter. Revenue
Washington, D. C.

Sir:

Your letter of the 17th inst notifying us that Messrs Wirt, Cox & Co. of Baltimore, and P. Eichele & Co St. Louis, complain of discrepancies, and requesting us to make necessary examination and report result to your office was received on the 21st inst.

In compliance therewith we beg to assure you that we are positive that no error was made by us in either case, and we believe that whatever errors actually existed were made at the places of the parties named, who, as we have received no evidence from them to the contrary, did not count and examine their stamps immediately upon receipt of their respective packages, and being too confident in their own regard readily attributed their discrepancies to us. We cannot make an error in counting and packing without discovering it ourselves, and when one occurs we invariably notify the Government Agent here of the circumstances of the case, and let him make the necessary adjustment.

For a full explanation of the cases in question we cannot do better than submit all of our correspondence with the parties on the subject, remaking in addition thereto that the package referred to by Wirt Cox & Co was purchased by them from Mr. J. L. Thomas, Baltimore, Md., to whom it had been sent, with fifteen other packages, in pursuance of your requisition of Aug 23/69, and was not received directly by the former although there is no reason to suspect that the packages were tampered with while in Mr. Thomas' care.

Messrs Wirt Cox & Co say we make errors sometimes and refer to two instances when we acknowledged having done so. To show how these were made it is necessary to explain that for the last six months they have been getting nearly all their orders filled through telegraph dispatches, from your office to Mr. Pugh, a day in advance of our receipt of the regular requisition containing the order. On an average we have been filling about three of these orders each week, all calling for a variety of stamps, and in many cases it borders on guesswork to decipher the unpunctuated messages with the writing out of the numbers and figures of the stamps & denominations running into each other. And, besides, in filling isolated orders for general stamps we have no opportunity to apply the usual checks, and coming late in the day they require hasty action by all hands to get them up in time for Mr Pugh's delivery. Hence in one of the telegraphic orders we sent to them the fraction of a sheet bearing two 25 cent stamps in excess of the correct amount. In the other we sent 100 stamps at $1.50 in lieu of 150 stamps at $1.00. In both cases however we detected and located the error ourselves immediately we put up the following day's requisition containing the order in its regular shape; and moreover notified them of the facts (through Stamp Agent) ere they seemed to be aware that any error had been made. The fact that we discovered, traced and at once pointed out these things to those gentlemen, instead of being a proof of carelessness on our part is the best testimony of the accuracy of our delivery.

As we have had no reply from Messrs Eichele & Co to our letter, a copy of which is herewith, we can say nothing further on the subject but trust they will acknowledge that they may have been mistaken.

Philadelphia, Sep 20. 69

Messrs Peter Eichele & Co.
St Louis, Mo.

Gentlemen:

Your note of the 14th inst to the Internal Revenue Bureau, stating that order sent on the 6th inst, fell short eight sheets, has been referred to us.

In reply we would state that we have made a thorough examination of the matter, and having an accurate account of every sheet that has ever been manufactured from your plate and also that has been delivered down to the present moment, we find that the balance remaining on hand after filling (on the 9th inst) your order of the 6th was correct to a stamp.

Feeling confident however that you sincerely think a mistake was made by us it would afford us much pleasure to send you eight sheets, but we cannot do so without disturbing our balance of stock and showing a deficit in our a/c to the Government. But it is impossible for us to account for the discrepancy without attributing it to an oversight by some unknown means on your part, and you will, if you remain positive that the package contains only 1039 130/200 sheets, please state to us in the form of an affidavit, sworn to and subscribed by yourself and the other gentleman who saw the package opened, and counted its contents, all the particulars of the case, regarding the condition and appearance of the package when first received by you, when and by whom it was opened, and what time elapsed from the opening to the counting of all the sheets, and if any opportunity was afforded in the meanwhile at your establishment for the removal of the eight sheets without your knowledge. Also state if the sheets were short in one of the hundred lots or in the odd forty-seven sheets on top, and if the former, whether or not eight sheets were ever found in any of your other orders.

As a charge like this is very embarrassing to us it is necessary to be thus particular in our inquiries to ascertain your chances of being in error, and we will be very happy to learn upon further reflection and examination you may be able to acknowledge the possibility that the whole mistake has been made at your place.

Gentlemen:

Your favor of the 22d inst is at hand.

In reply we can state that our balance of stock indicates that we made no error in packing the stamps sent to the depositary at Cincinnati, and our hand whose business it is to count every package immediately ere sealing up for delivery, distinctly remembers the packages of which yours was one, and can make affidavit that the five cent stamps were right when they were sent from this office.

Feeling confident however, that you sincerely think a mistake was made by us, although the package had not gone directly to you, it would afford us much pleasure to send you the sheet claimed, but we cannot do so without disturbing our balance of stock and showing a deficit in our a/c to the Government. But as we are entirely without means to account for the discrepancy without attributing it to some irregularity on the part of others than ourselves, you will please state to us in the form of affidavit sworn and subscribed to by the other gentlemen who saw the package opened and counted its contents, all the particulars of the case - regarding the condition and appearance of the package when first received by you, when and by whom it was opened, and what time elapsed from the opening to the counting of all the sheets, and if any opportunity was afforded in the meanwhile at your establishment for the removal of the sheet without your knowldege.

As a charge of deficit is very embarrassing to us it is necessary to be thus particular in our inquiries to ascertain the chances of the error having been made after the package left us, and inas much as we can only get another sheet of stamps by purchasing it from a dealer you will acquit of us of a disposition to act arbitrarily in the matter of our request.

Gentlemen:

Your favor of the 24th duly to hand.

The Government does not permit us to stamp labels with the proprietary stamps. You can accomplish the object by ordering a private die combining the label and stamp in one, although that would be expensive - the plate would cost $350 - to begin with, and the extra for steel plate printing would amount to something considerable.

We have no authority to send out sample stamps. You can purchase the kind required however, from any principal stamp dealer in your city. Our advice is that the most practical course for you to pursue is to use the ordinary adhesive stamps on your label.

Sir:

The engraving of your private dies has now been completed and it remains for us to make the plates and prepare a stock of stamps. It will probably be two weeks yet before we can be ready for your first order.

We inclose proof impression from one of the dies and trust it will give entire satisfaction.

Please inform us what color to print the stamps and whether you desire them gummed and perforated.

Our a/c becoming die at this stage we present the same herewith & remain

Dear Sir:

We duly submitted the inclosed specimen drafts to Commissioner of Inter Revenue for approval to stamp with the two cent die and they are this morning returned to us with his objection of which the following is the language.

"I return herewith the instruments received with your favor of the 4th inst, and will say that before the amount of stamp duty can be determined it will be necessary to state the drawer and upon whom the instrument is drawn."

Very respectfully,

John F. Henry, Esq
New York, N.Y.

Sir:

We have the pleasure to acknowledge the receipt of your favor of the 6th inst inclosing $750 in full for engraving three private dies and making stamp plates complete. Your right to order stamps therefrom is now established and you should address all orders to the Commissioner of Internal Revenue, Washington, D. C. inclosing the duplicate certificate of a U.S. Assistant Treasurer or Designated Depository of a deposit made covering the value of stamps ordered. The Commissioner will then make a requisition on us and stamps will be sent you from here. You will in the meanwhile however await our notice to you when to forward the first order.

The Commissioner receives orders for any am't not less than $50, and allows commissions as follows: on amounts purchased at one time of not less than fifty nor more than five hundred dollars five per cent, on ammounts over five hundred dollars, ten per cent.

We note advice regarding color, gumming and perforating.

Very respectfully,
Butler & Cappenter

Sir:

We being the Agents of the Govemment to engrave revenue stamps dies, the Hon'e Commissioner of Inter. Rev. has submitted to us your letter of the 5th inst, submitting for examination pieces of Gates 3ct stamps.

We have made the examination as requested and herein return the pieces. We can say they are from a genuine stamps, and their appearance, which has probably led to your query, is, in our opinion, the result of rubbing received when first applied to the box, from the sanded surface of another box that may have been packed with it at the match factory.

Dear Sir:

Mr. John F. Henry has made an order for stamps from his three new dies.

Will you please have the kindness to say when the plates will be finished that we may advise Mr. Henry of the prospects, and take measures to have a stock of stamps prepared therefrom?

A verbal answer by bearer will oblige.

Gentlemen:

Your favor of the 12th inst to hand.

We were directed by the requisition of the Inter Revenue Bureau to forward your order by "Express", and could not know that you desired it sent by mail.

To make the matter sure hereafter you had better state in every order sent to the Commissioner that you desire it forwarded by mail, otherwise we will, very likely, be directed to send it by express.

Yours truly,

Philadelphia, Oct 18/69

John F. Henry, Esq
New York, N.Y.

Sir:

Your favor of the 13th inst and also Government requisition for stamps were duly received. The plates are not quite finished yet and it will be several days before we can execute your first order. After we once prepared a stock of stamps there will be no further trouble in meeting the demand.

The Commission allowed by the Government is added to remittance in stamps - i.e., if you forward a $600 certificate of deposit you are furnished with $660 in stamps.

We omitted to mention before that the government regulations require different denominations of stamps to be printed in separate colors - oblige us therefor by stating what other colors besides black (which you have already mentioned) you desire to have the other two denominations printed.

Very respectfully,
Butler & Carpenter

Philadelphia, Oct 19. 69

James Eaton, Esq
Utica, N.Y.

Sir:

Your favor of the 18th duly to hand. We regret the delay which has caused you so much inconvenience but assure you we are not in fault. The requisition for the stamps was dated at Washington Oct 16th (Saturday), and was rec'd and the order executed by us on the 18th, the day of your writing and no doubt you have received the stamps ere this.

We cannot imagine why the Bureau did not make a requisition on us at an earlier date if your order was sent on the 4th inst but presume that there was either some informality on the part of your order or it was overlooked in the meanwhile by some of the clerks.

Very respectfully,
Butler & Carpenter
per L.

Philadelphia, Oct 23/69

Hon C. Delano
Commiss. Inter. Revenue
Washington, D. C.

Sir:

Your communication of the 22d instant, returning our statement, vouchers and account of stamps delivered in September, 1869 is received.

A reference to our accounts shows them to be consistent: the statement is certainly in accordance with the actual stamp deliveries.

The difference between us, according to your letter, appears to be 127.000 stamps, or an excess of charge on our part of 222.000 one cent, and a deficiency of 65.000 two, and 30.000 three cent stamps - this difference also makes the money value of yours $20 less than we figure it.

We have compared the month's requisitions with our books and find their amounts correctly entered. The orders were all executed as per requisitions except No 4702, Sep 14. to E. Ferrett which originally called for 66.000 two cent stamps instead of 132.000 at one cent. Mr. Ferrett having a one, but no two cent die, the matter was referred to, and adjusted by, the Stamp Agent here, who informed us that he notified you on the subject at that time.

We can therefore only resubmit our a/c without alteration, and, to verify its correctness, as well as to point out where the difficulty really exists, we send herewith the October requisitions for private stamps, and have to request that you will please duly return them to us after comparing them with the books of your office.

Very respectfully

Messrs Walter & Irwin
Steubenville, O.

Gentlemen:

Your favor of the 24th inst to hand. Our charge for engraving a private stamp die and making plate complete is uniformly three hundred and fifty dollars ($350) and the time required to complete the work and have a stock of stamps prepared would be six to eight weeks.

Stamps of the ordinary size cost nothing for manufacture but for increased sizes you would be charged at the cost of ten cents per thousand for stamps 3 1/8 inches superficial area and all other sizes in same proportion. The Government allows a commission in stamps of ten per cent on all amounts exceeding $500 at a time, or in other words gives $561 face value of private stamps for $510 in money.

Very respectfully

Sir:

The engraving of your private die has been completed and we herewith submit a proof impression which we trust will give entire satisfaction. It now remains for us to make the plate and we expect to have it finished and stamps prepared therefrom in one week from this date.

The government allows a commission of ten per cent in stamps on all orders of over $500 at time. Remittances on a/c of stamps orders should be addressed to the Commissioner Inter Rev. Washington , D. C. in the form of a duplicate certificate of a U. S. Ass't Treasurer or Designated Depositary.

Our a/c for engraving becoming due at this stage we beg to present the same herewith, the am't of which you will please remit to our address.

Very respectfully,
Butler & Carpenter

Gentlemen:

Your favor of the 21st inst to hand. We understand your wishes and can make a drawing accordingly provided you make a positive engraving order and state the denomination of stamp desired.

The questions of what protection you will have against loss or damage to plate is answered by saying the U. S. Government will be its custodian and we presume will act in good faith towards you. Stamps delivered to you are thereafter held at your own risk except under certain conditions for information upon which we refer you to the Commissioner of Inter. R.v.

Stamps can be printed upon white paper or, by special permission of the Commissioner, upon colored paper, you are free however to chose your own color of ink.

Sir:

Your favor of the 26th inst is at hand. We are duly authorized to manufacture private revenue stamp dies. Our charge for engraving a private die and making plate complete is uniformly three hundred and fifty dollars ($350), and the time required to do the work is usually about eight weeks.

Stamps the same in size as the ordinary Government stamps of the same denomination cost nothing for manufacture, but for increased sizes the charge is at the rate of ten cents per thousand for stamps 3 1/8 inches superficial area for extra paper & printing, and three cents per thousand for extra perforation.

The Government allows a commission in stamps of ten per cent on all orders for private stamps of over $500 at a time.

If you decide to have your own private die please furnish us with a sketch of design and size, stating the denomination and lettering that you will require.

Gentlemen:

Proprietors of private dies have no risk in the plates from which they are entitled to order stamps. Although they originally pay for the engraving they never own the plate but simply possess the right to order stamps therefrom, and, with permission of the Commissioner of Internal Revenue to assign that right to other persons.

The Government takes all the risks, and under its present regulations makes no charge for keeping up the plate.

As a general thing there are no extra charges for different colors of ink or paper. Exceptional cases sometimes arise, however, in the event of which they are according to the extra expense incurred.

Sir:

We duly submitted to the Commissioner of Internal Revenue duplicate specimens of the three varieties of checks sent us to be stamped for Messrs Krebs & Bro. Pittsburgh, Pa. and have a reply this morning from Acting Commissioner J. W. Douglass, as follows:"a two cent stamp should not be imprinted for the reason that it may be a time order, and an order otherwise at sight, or on demand, should be stamped the same rate as promissory notes. The same may be said of all of them. The one which reads At _____ sight is nevertheless so framed that it may be used as a time draft."

As your letter of the 6th inst does not say whether we are to return them, in event of their disapproval, to Messrs Krebs & Bro, Pittsburgh, or to you, we deem it advisable to return them to you with this explanation and to express our regret at not being permitted to imprint the stamps.

Dear Sir;

I inclose Statement for estimating the amount of our sales as manufacturers, from Ap'l 1. 68 to Sep 30/69, also a separate statement fer the same purpose from Oct 1 to 19th 69.

One of the Ass't Assessors imformed me yesterday that the $2 per $1000 tax on sales commenced April 1st 68, and that back returns may be rendered in the aggregate down to Sep 30/69, the end of the sixth quarter, except in cases where one or more quarters shall have been less than the amount of exemption. I have therefore made an aggregation statement to Sep 30th, but itemized under each heading in a way to facilitate the discovery of the cause of any discrepancy that may exist between your a/c and mine.

Not knowing the rate for calculating extra charges on private dies I have left a space that you may carry out their amount.

There is no note in my books that the plates of Oliver Crook $350, Dr. Kerr $350 and New York Match Co. $350, have ever been paid for.

Jas M Conaghy reported for duty today and will go on to night. I have arranged now that our office will never be without some one in it, Sunday or weekday.

Shall we have the sail I spoke of?

Very respectfully,

Dr Sir:

We are aware that your statements in regard to the last lot of paper are true and we assure you that every effort shall be made to remedy the defect with future lots. The fault is one which could not have been forseen by us and arose from the fact that the Government proposes to furnish a certain kind of paper for its work and expecting to have the new kind in readiness at a specified date stopped the manufacture of that which we had till then been using. But in consequence of unexpected difficulties the manufacture of the new paper has been delayed and we have been forced to go in the market and procure the best we could get.

Although the paper now used is more expensive than theo old it is not so suitable for either printing or gumming but as stamps must be made we have no alternative and beg you will accord to us some indulgence and we trust the difficulties will soon pass away.

Gentlemen:

Your favor of the 24th inst addressed to the Commissioner of Inter. Revenue has been referred to us for reply.

We are the authorized agents of the government to manufacture revenue stamp dies and to print stamps therefrom, and could execute your order in about six weeks. The charge for engraving a private die and making stamp plate complete is, uniformly, three hundred and fifty dollars ($350).

The advantage of having a private die is in one respect that the government allows to the proprietor a commission of ten per cent in stamps on all orders of over $500 at a time.

Stamps are furnished without charge for manufacture except when they exceed the size of ordinary stamps of the same denomination in which case we charge for the excess of size at the rate of ten cents for thousand for stamps 3 1/8 inches superficial area and for all other sizes in proportion - besides three cents per thousand for perforation.

Please advise us further if you wish us to proceed with the work; your photograph and slip are on file and will be sufficient for us to work from.

Very respectfully,
Butler & Carpenter

Sir:

Yesterday the 29th inst we received from the Inter. Revenue Bureau a requisition in blank for the amounts of each denomination for $660 worth of your stamps. A note below it was as follows: "Mr. Henry does not state in his order what denomination of stamps he desires, but refers to a letter of same date to Messrs Butler & Carpenter. Please fill up above and advise this office."

No letter from you having been received by us to this writing we beg that you please notify us by return mail or telegraph how many dollars you require of each denomination.

On the 9th instant we had the honor to submit for your consideration a design for a one cent private die for the Akron Match Co. at Akron, Ohio. Not having heard anything in regard to it from you in the meanwhile I imagine it has escaped attention and hereby inclose another of the same design, trusting it will meet your approval.

Sir:

The Stamp Agent will forward to you today a sheet of one cent proprietary stamps printed in indelible blue, the usual color. The inclosed twenty five stamps, printed in fugitive blue, are sent that you may elect which color is more desirable. Two cent proprietary stamps are printed in blue. If any change be made in color permit me to suggest that the one cent proprietary be printed in yellow which will clearly show the cancellation marks. If you will permit it I will submit a sheet of this yellow colce which will prevent washing.

Sir:

Your favor of the 27th inst is rec'd. Any checks that you may desire to have stamped by me (eagle design) will please be forwarded to some one of the stamp dealers here (viz: J. E. Redgway, J. R. Mc Fetridge or W. E. Crockett) and they will have prompt attention. Our charge for printing the stamps is one penny an impression of six or less stamps each except when there is only one stamp to the page when we charge a half cent per page.

The dealers will allow you a liberal discount on the stamp value of all large lots and will collect charges, including for stamps and printing, upon return by express of the lots when finished.

For other particulars please address the dealers and give your work to whom will take if on the most favorable terms to you.

If you chose to submit the stamp value (over $50) directly to the Commissioner of Inter Rev we can receive your checks direct and stamp them without the intervention of a dealer. The other course however will be to your advantage unless your stamp value is over $1000.

Dr Sir:

Your duplicate letter of the 19th ulto is to hand. We had the original regularly in file and had fully noted the instructions in regard to the change of color of the two and four cent denominations. But the Government requisition which came to us in blank stated that you had instructed us how to fill the order by letter of the same date, that is the dame date that you sent your order to the Bureau - and as the requisition was dated on the 29th we naturally supposed that you referred to a letter written a good while subsequent to the 19th and hence were led astray by the Bureau's note.

Please do not omit to state to the Bureau with every order the am't of each denomination of stamps required and it will save further inconvenience.

The next stamps will be in the new colors.

Gentlemen:

We have the pleasure to inform you that your private die has been completed and it now remains for us to transfer the same to the plate for printing, and then prepare a stock of stamps therefrom. It will not take more than a couple of weeks to accomplish this and we will advise you precisely how and when to order stamps. The inclosed proof impression we trust will give you entire satisfaction.

Our engraving a/c becoming due at this stage we herewith present the same and remain,

Philadelphia, Dec 3. 1869

Dr Sir:

Your favor of the 29th ulto duly received but escaped attention until this moment.

Our stamping of documents is confined at present to imprinting the two cent die (eagle design) on bank checks, sight drafts and plain forms of receipts (having the words "good when used as a receipt for payment of money" first printed thereon).

Our terms are one penny a page of six or less stamps each and a half penny per page of only one stamp. Or we will print on the same terms as the American Phototype Co.

We do not receove money for the stamp value of the imprinting. That should be paid to the Government in either of two ways. The first by remitting to the Commissioner of Inter Revenue a duplicate certificate of an Asst U. S. Treasurer or designated depository of a deposit made covering the value of stamps to be imprinted, (over $50 at a time) inclosing an order stating that the stamps are to be imprinted by me, and at the same time forward the sheets for stamping with am't of printing charges inclosed to my address, and the work will have prompt attention & be duly returned to you.

The other way and certainly the more convenient is to send the documents to be imprinted to one of the dealers in this city, either of whom regularly remits to the Government and is authorized to have the work done, and he will attend to the entire matter for you on his account and collect the total of charges, stamp value as well as for imprinting from you (C.O.D.) by express when the work is returned.

These dealers order from the Government large enough amounts in stamped paper to entitle them to the maximum commission which it allows i.e. five per cent, and if your trade is an object to them they will deduct from their charges against you a large portion of the commission.

The names of these dealers are J. E. Ridgway No 57 So. 3rd St. and J. R. McFetridge, Inquirer Building, Philadelphia, Pa. You will obtain full particulars by addressing them and may ascertain which will do the work on the terms more advantageous to yourself.

Very respectfully,

We are instructed by the Inter Rev. We presume that the instructions will be carried out in regard to the other denominations, but, as the balance is large, the delivery of most of them will continue for some time to come.

As we do not feel authorized to divulge which of the denominations are proposed to be discontinued we beg you will put the query to the Commissioner of Inter Revenue who we do not doubt will give you the desired information.

Gentlemen:

Your favor of the 8th inst is rec'd. The Commissioner of Inter. Revenue dropped the denomination of $2.50 from the list of stamp issues a few weeks ago, but in a letter to us today directs that their manufacture shall be immediately resumed.

The $2 stamps were substituted for $2.50 in your order as it came to us recorded upon the requisition from the Inter. Rev. Bureau and it was simply our duty to dill it from the record. We are entirely without official authority to change any of the items on the government requisitions and hence cannot comply with the instructions of your letter respecting the substitution of the several denominations.

As the $2.50 are to be reissued at once however future orders will be filled without any substitution.

They are now being manufactured in adequate quantity, however, and you will not be liable to any further similar trouble.

Gentlemen:

Your application for a private die is properly addressed to me, (late Butler & Carpenter)

I will prepare the model according to advice and after it has received your approval, will, as is usual in such cases, myself submit the matter to the Commissioner of Inter Revenue for official sanction ere the engraving is commenced.

The charge for engraving, plate etc, is uniformly three hundred and fifty dollars, and the time required to finish the work generally about eight weeks. If, however, no delay is caused by your withholding the model after we shall have submitted it to you, I may, from present appearance, have the new stamps ready in about six weeks from this date.

J. W. Douglass, Esq

Sir:

In explanation of the matter referred to in your communication of the 14th inst, I have to say that Miss Van Law's order of Nov 4/69 was dilled according to the requisition of that date, and it is impossible that we could have sent her 11.900 3 cent, instead of 17.850 2 cent stamps and not immediately notice the transposition when taking the balance of stock after filling the requisition.

In looking at other orders, however, to ascertain when she did get 3 cent general stamps we find order No 5365 on requisition of Nov 19. 69 for the same number viz 11.900 3 cent general and none at two cents, which suggests that this is the order to which she intended to refer, instead of that of Nov 4th (as indicated by schedule herein returned) and which, if found to be the case, is conclusive evidence that we followed the directions of the requisition and should not be held responsible for the $8.92 retained by you as discount on the exchange.

Very respectfully,

Gentlemen:

Your favor of the 18th inst with remittance of three hundred and fifty dollars ($350) is rec'd, and the am't placed to credit of your a/c in full payment.

The plate is finished and will go to press at once. Stamps will be ready to meet your first order in about one week from this date.

Orders should be addressed to the Commissioner of Internal Revenue, Washington, D. C. inclosing the duplicate certificate of a U. S. Asst Treasurer or designated depositary of a deposit made covering the value of stamps ordered. The Commissioner will then make a requisition on us for stamps and they will be sent you forthwith.

The government allows ten per cent in stamps on all orders of over $500 at a time, that is, if you remit a certificate of deposit of $510 you would receive therefor $561 in stamps.

Sir:

Your communication of the 23rd inst is at hand.

I am the authorized agent of the government to engrave revenue stamp dies to make plates and print stamps therefrom, and could execute your order for a private die in about eight weeks. The charge for engraving a private die and making stamp plate complete is uniformly three hundred and fifty dollars ($350).

One advantage in favor of a private die is that the government allows to its proprietor a commission in stamps of ten per cent on all orders of over $500 at a time.

Stamps are furnished without charge to the proprietor for manufacture except when they exceed in size the ordinary stamps of same denomination in which case there is a charge for the excess of size at the rate of ten cents per thousand for stamps 3 1/8 inches superficial area and for all other sizes in proportion.- besides three cents per thousand for perforation.

If you decide to have a die engraved be kind enough to make a rough sketch of required design that our artist may get the idea, and state what denomination of stamp is wanted.

RECAPITULATION

Receipts from Stamps	$15.938.19
Imprinting	1.261.03
Engraving	[illegible].050
Extra Private Dies	
Total	

Philadelphia Jan 18. 70

Messrs Sprague & Close
Box 5324 New York, N.Y.

Gentlemen:

The charge for engraving a private die and making plate, complete is uniformly three hundred and fifty dollars ($350). It usually requires about eight weeks to execute an engraving order.

If the design for a four cent stamp dies not exceed superficial area 63/64 of an inch there will be no charge for manufacturing the stamps, but for an increased size a charge will be made for extra material and printing, at the rate of ten cents per thousand for stamps 3 1/8 inches superficial area, and three cents per thousand for extra perforation.

The Government allows to proprietors of private dies a commission, in stamps, of ten per cent on all orders of over $500 at a time, i.e. for a remittance of $510 gives $561 in stamps.

A sufficient supply of private stamps is always kept on hand to duly meet the demand.

Very respectfully,
Jos R. Carpenter
Successor to Butler & Carpenter

Geo W. Swett, Esq
Boston, Mass.

Sir:

Your communication of the 17th inst addressed to the Hon Commissioner of Inter. Rev., respecting a discrepancy in a recent stamp package, as compared with the invoice, has been referred to me for reply.

I can only say that the package should have contained 151 23/52 sheets - 7.875 stamps when you received it, as it was found to contain that quantity when it was dispatched from this office and the presumption is that one sheet has been overlooked in your counting. Stamps from your die have been manufactured in such limited quantities, and during the process are invariably counted over and over again by experts, and our balance being correct after deducting all your orders to date, that the indication is that no error could have been made at this office.

Trusting that the cause of the discrepancy may be ascertained to have arisen from inadvertence on the part of your employees, I am,

Very respectfully,
Jos R. Carpenter
Successor to Butler & Carpenter

Sir:

Mr. Olmstead's letter submitted per note of the 21st inst, has been considered and is herein returned.

The stamps referred to, like the sample, are entirely faultless, and will act as he describes only when the gum is too much diluted or entirely removed in the attempt to moisten it for application.

Very respectfully,
Jos R. Carpenter,

Philadelphia Jan 22. '70

Chas. W. Clickener, Esq
Somerville, N. J.

Sir:

Our charge for engraving a private stamp die is uniformly $350; the only exception to this being when a label combined with the stamps is wanted, in which case the charge is increased according to the character and quantity of the work required. A die, plate, etc, complete, for a stamp the size of design submitted would cost simply $350 for the one denomination, and $200 each for additional denominations of same design.

If the Government should ever abolish the stamp duty it is not likely you would get possession of the dies and plates.

The cost to manufacture, without perforation, would be, for the size stated, about five and a half cents per thousand stamps.

Orders for private stamps are addressed to Commissioner of Inter Rev. accompanied with remittance. 5% commission is allowed on orders of $500 or less at a time, and 10% on amt's over $500 - That is for $510 remitted you would receive $561 in stamps.

We could have stamps ready from a new die in about eight weeks from the date of order to engrave.

Very respectfully,
Jos R. Carpenter
Successor to Butler & Carpenter

Messrs Blakewell & Marthens

Gentlemen:

Your favor of the 20th inst is rec'd. Our stamping of documents is confined at present to imprinting with the two cent die (eagle design* on bank checks, sight drafts and plain forms of receipts having the words "good when used as a receipt for payment of money" first printed thereon.

Our terms are one penny a page of six or less stamps each and a half penny per page of only one stamp.

We do not receive money for the stamp value of the imprinting; that should be paid to the Government directly or indirectly by you in either of two ways. The first by remitting to the Commissioner of Internal Revenue a duplicate certificate of an Ass't U.S. Treasurer or Designated Depositary, of a diposit made covering the value of stamps to be imprinted and inclosing an order stating that the stamps are to be imprinted on documents, and at the sametime you will forward the sheets for stamping, with am't of printing charges, to our address, and upon the Commissioner's verification to us the work will have prompt attention and be duly returned to you.

The other way and the more convenient(inasmuch as the Commissioner will not receive a remittance of less than $50), is to sned the documents to be imprinted to one of the stamp dealers in this city, either of whom regularly remits to the Government for the purpose of executing such orders and is duly authorized to have the work done, and he will attend to the entire matter for you on his individual account and collect the total of charges, stamp value as well as for imprinting, from you, by express when the work is finished and returned.

These dealers order from the Government large enough amounts of stamping in advance to entitle them to the maximum commission of five percent and if your trade is an object to them they will deduct a part of this commission from their charges against you.

The names of these stamp dealers are J. R. McFetridge, Inquirer Building and J. E. Ridgway, 57 South 3d St. Philadelphia. You may obtain full particulars by addressing them and ascertain which will do the work on terms more advantageous to you.

Yours of the 20th inst to hand. I am the authorised agent of the Government to engrave revenue stamps dies, to make plates and print stamps therefrom. The engraving is on steel, stamps are gummed and perforated unless otherwise ordered. The charge for engraving a private die and making stamp plate, complete, is uniformly three hundred and fifty dollars ($350).

The time usually required to complete the engraving etc. and to have an adequate stock of stamps prepared is about eight weeks.

Messrs Lord & Robinson,

Gentlemen:

I was at the Department at Washington on Saturday and had your bond cancelled as requested - that is the bond on which you were sureties for Mr. Donnelly.

The difficulty of their furnishing you with stamps from that die is, that it stands in Donnelly's name, and although they admit your equities, and are ready to have evidence taken as to the real ownership of the die, they do not think it expedient so to do in view of the repute and delay involved. The Department suggests as the most expeditious way of relieving the difficulty to be as follows - to have Butler & Carpenter of Philadelphia submit a model for you and indoing so let them submit the same one as they submitted before and from which they have been printing the stamps, and although it is not usual for them to do it, yet in this case they will at once approve it, and direct that stamps be furnished you from the same die now in use, you of course providing the bond.

The question as to you using Donnelly's trade mark will be between you and him, the Department having nothing to do with that. They only suggest this course as they are satisfied that Donnelly has acted in bad faith and are disposed to afford you every facility.

Truly yours

(Signed) Milton Whitney

Yours of the 26th inst, addressed to an employee, and acknowledging receipt of mine of the 25th is received.

In reply thereto I have to say the the recollection of the clerk who took Mr Donnelly's order is so vague as not to be evidence in the matter at this time, it being possible that a Mr Tiel, who represented Mr Donnelly on the occasion, said that Lord & Robinson objected to having Donnelly's name on the die.

Messrs O. P. Bissell & Co.
Peoria, Ills.

Gentlemen:

Your favor of the 27th inst to hand. I am the appointed Agent of the Inter Rev Bureau to engrave revenue stamp dies and to print stamps therefrom.

Your application for a die is formally made and the mode of further procedure is simply for you to state your wishes explicitly and, if a portrait is desired for the vignette, to send me a photograph, any size, of the one desired. I have no specimens to exhibit as each is supposed to be an original and we can vary to suit your taste from the one which you submit & will adopt either your or our own ideas in regard to the details as you may prefer.

The charge for engraving a private die and making stamp plate complete is uniformly three hundred and fifty Dollars, ($350) and the time usually required to do the work and print an adequate stock of stamps to commence with, is about eight weeks.

Stamps of the ordinarry size are furnished without charge for manufacturing but for increased size the charge is at the rate of ten cents per thousand for stamps 3 1/8 inches superficial area, other sizes in same proportion, besides three cents per thousand stamps when perforated. A stamp the size of Hostetter's would cost about ten cents per thousand stamps for extra paper and printing without perforating.

The government allows a commission of ten per cent on all orders from propristors of private dies, of over $500 at a time, i.e. for a remittance of $501 in money it gives $551.10 in stamps.

If upon knowing these facts you desire me to engrave you a private die please state your wishes accordingly and the order shall be satisfactorily executed.

In reply to your favor of the 27th ulto. I have to say that I know of no means by which you can have your wishes consummated in regard to stamps on documents, as the Government does not stamp blank paper but simply receives the printed documents at either this or the New York office and impresses stamps thereon of the appropriate denomination.

In the case of adhesive stamps I presume the Commissioner of Internal Revenue can deposit a supply with any of his officers, and, upon application, will advise you regarding the subject much better than I can do.

Gentlemen:

Your favor of the 4th inst to hand. It would not be practicable to engrave and manufacture the label which you submit in this instance, for the reasons that it is too large, and that the matter of furnishing paper of a specified quality and cutting the labels to a standard size with their margins as represented would be something like an impossibility with a business of this character. Hence no estimate can be made.

The price mentioned in my letter of 2d inst, viz $350 for engraving the large stamp as submitted by yours of the 1st inst, is the lowest rate charged for any stamps, and I think cannot reasonably be deemed excessive. The estimate of about twenty four cents per thousand (it would probably be a little less than that) is according to the usual rate for the extra paper and printing of stamps exceeding in size the ordinary government stamp of the same denomination.

Very respectfully,

this 11th day of February 1870

I, Clement Test, Clerk in the Delivery Department of Inter Revenue Stamps under Jos R. Carpenter, Philadelphia, Pa. hereby declare that whatever bills of stamp orders and the necessary stamps to fill them have been handed over to me by Edwin Lamasure for final examination and proof of accuracy, during the month of January 1870, have been carefully examined and proven to be correct, and I also declare that, upon such verification of each individual order, I have packed and sealed up thoroughly said separate orders for stamps and delivered said package or packages to the Stamp Agent Isaac Pugh, Esq.

Sworn and subscribed before me

Gentlemen:

On the 5th inst I wrote you, inclosing a model, as follows: "Herewith please find model of stamp according to last instructions. Please return it with comments immediately that the engraving may not be unnecessarily delayed."

As I have had no reply thereto, and your last advice was for me to lose no time in the execution of the order, I fear that there may have been some mishap to our correspondence. Please state at once if my letter was received and if so whether it has been replied to.

Very respectfully,

Gentlemen:

I print the two cent document stamp (eagle design) on bank checks, sight drafts and plain forms of receipts at the same rate as the American Phototype Co. of New York, viz: one penny an impression of six or less stamps and a half penny per impression of only one stamp.

The checks should be sent to one of the stamp dealers in this city who will attend to the matter for you and collect all charges upon return of the finished work by express. For discount etc please address the dealers direct, who are J. E. Ridgway 57 S. 3rd St. Philada; J. R. McFetridge, Inquirer Building.

W. D. Curtis, Esq
Oshkosh, Wis.

Sir:

The variety of general stamps referred to by your letter of the 8th inst was forwarded according to the Commissioner's instructions to me by requisition of the 3d inst. As you wanted stamps from your own die it is very likely that your order was mistaken at the Inter Rev. Bureau. I observe however that on the 9th inst we had a requisition, which was duly filled, for $700 worth of your private stamps which looks as if the error had been discovered at the Bureau and corrected.

Very respectfully

Philada Feby 3rd 1863

Hon Geo S. Boutwell
Commissioner of Internal Revenue
Washington, D. C.

Sir:

We hasten to advise you of an oversight in filling the California Order which our monthly settlement of a/c stock reveals.

One item of said order called for 170.000 stamps (15ct Inland Exchange Stamps); and at the time the order was filled we had not received from the Gumming & Perforating Departments a sufficient balance to comply perfectly with this demand and also that of the regular requisitions on receipt. Accordingly the whole of the rest of the order was made up and put aside until these stamps were ready; a memorandum-notice (or blank) on the order noticing the omission. It would seem, however, that the packer forgot afterwards the circumstances and the pokges packed up were boxed and timed up without these 170.000 15ct Inland Exchange Stamps. The regular balancing of a/cs showed this discrepancy and by reference to the original order we discover where the error lies. Shall we forward the omitted stamps to the same address in California or shall we deduct the amount from our a/c?

We await instructions, expressing our great regret that a treacherous memory has led to this oversight. We have reason, however, to be perfectly satisfied with our system of a/cs which has not failed thus far to indicate unerringly any deficiency or surplus of stamps.

Very respectfully
(signed) Butler & Carpenter

For the following Internal Revenue Stamps delivered to Wm. H. Kemple, Esq, Stamp Agent, during the month of January, 1863,
viz:

9.110.543 Stamps @ 13¢ $1184.37

I hereby certify that I have rec'd nine million one hundred and ten thousand five hundred and forty three stamps during the month of January,

(signed) Wm. H. Kemble
Stamp Agent

Philadelphia, Feb 28/70

L. G. Hunt, Esq
Box 448, Chicago, Ills.

Sir:

I have the pleasure to inform you that your private die has been engraved and that stamps will be ready to meet an order in three days from this date. The enclosed proof impression will I trust give complete satisfaction.

Orders for stamps must be addressed to the Hon. C. Delano, Commissioner of Inter. Rev., Washington, D. C. stating that stamps (one cent) are wanted from your private die, and inclosing duplicate certificate of a U.S. Ass't Treasurer or Designated Depository of Deposit made covering the value of stamps ordered. For remittances of over $500 at a time ten per cent in stamps additional will be allowed, i.e. if you forward a $600 certificate of deposit the Commissioner will draw a requisition on me for 66.000 stamps, and the same will be forwarded to you forthwith.

Very respectfully,
Jos R. Carpenter
per L.

Sir:

Yours of the 26th inst directing the engraving of a private die is fully understood and will have due attention.

Terms for engraving a private stamp die making plate etc complete are three hundred and fifty dollars payable upon presentation of a proof impression of the finished die.

Very respectfully,
Jos R. Carpenter

R. V. Pierce, M. D.
Buffalo, N.Y.

Sir:

Your favor of the 23d is received. It will give me pleasure to do everything possible to expedite the work on your stamp. I cannot promise that it will certainly be finished at a much earlier day than that mentioned but will duly notify you when to order stamps so that no unnecessary delay may intervene.

Very truly yours,
Jos R. Carpenter

New York, N.Y.

Sir:

Yours of the 26th to hand. If the order which you mention is comprised by the requisition of March it will be executed, as usual, the same day, and you should certainly receive on the following day.

Packages are always sent by Adams Express unless otherwise directed by the government requisition. The contract between the Government and the Express Company allows the latter to charge the parties ordering stamps a certain sum per $1000 or fractional part of $1000 face value of the stamps. Hence you will perceive I cannot mark the cost value on the packages as you request.

Very respectfully

Messrs M. G. & S. K. Harber & Co.
St. Louis, Mo.

Gentlemen:

Yours of the 26th to hand. The charge for engraving a private die and making stamps plate complete is uniformly three hundred and fifty dollars and the time necessary to do the work about ten weeks. I understand your wishes and nothing further is necessary except for you to give me the positive order to engrave and forward the photograph.

It is possible there may be an objection to the smallness of the size of the stamp when a model is sent to the Commissioner of Inter Rev for official approval, and it would be better for you to have the stamp of the same size as the ordinary one cent stamp although you can have the dimensions in proportion to those you mention.

Very truly yours
Jos R. Carpenter

Gentlemen:

Your favor of the 28th ulto to hand. It will give me pleasure to execute your engraving order for a one cent private die but you have not stated what size or sort of design you required for that denomination. In your letter of Nov. 24/69, to the Commissioner of Inter. Rev. you submit a photograph and sketch of design for a three cent die, which I have before me, but nothing specified regarding the one cent stamp.

Have the kindness to inform me at once in this particular and allow me to say in connection with the subject that stamps of the ordinary size are furnished to proprietors without charge for printing etc., but when the size is increased there is a charge made for extra labor & material at the rate of ten cents per thousand for stamps 3 1/8 inches superficial area and all other sizes in proportion besides three cents per thousand for extra perforation.

Very respectfully

Dear Sir:

I hasten to return the lot of drafts you sent me this A.M., being prohibited by rulings of the Commissioner of Inter Rev. from stamping such forms, on the ground that they have a line after the word "at" for the insertion of time, and might be filled for time drafts for which no rate of stamp duty could be predetermined as it would vary with the am't of the draft.

If agreeable suppose you submit duplicate specimens of this form to the Commissioner and see if he will grant permission in this instance upon such special application and information as you may have to impart as to their intended use.

Very respectfully

Gentlemen:

I observe the grounds for your comments respecting the last lot of stamps, and will prepare others at once to exchange for such as you deem unfit for use. It will require about ten days to prepare a complete stock. I have about 4000 sheets on hand, however, of the same kind sent you today on balance of order, and will exchange them with you for these on the thick paper. The paper itself is the cause of the whole difficulty and has been a source of loss and much annoyance to myself from the fact that the manufacture of that which I originally used in stamp printing was stopped several months ago by the Gov't with the then intention of supplying in its place a special paper marked in a peculiar manner for easy identification. For some reason the new paper has been held back leaving me no recourse but to obtain what I could from the market, to meet the regular demand for stamps, and the unsuitable character for printing etc of much of the paper thus obtained has resulted in the disatisfaction which you and others have justly expressed.

I am now using a paper similar to the original stamp paper and made by the same man facturer, which appears to work well, and you will please forward to me at once (by express) such stamps as cannot be used and I will forthwith send you in exchange what I can and the balance as soon as possible afterwards.

Very respectfully

Sir:

Herewith inclosed please find monthly Exhibit, and a/c signed in duplicate, for revenue stamps delivered in February 1870.

I will forward the usual affidavits tomorrow.

Very respectfully,
Jos. R. Carpenter
per L.

I, Edwin Lamasure, Chief Clerk of the Delivery Department of Internal Revenue Stamps under Jos R. Carpenter, Philadelphia, Pa., hereby declare that the a/c in detail of stamps delivered during the month of February, 1870, is true, and agrees in every particular with the aggregate of stamps called for in the requisitions from Washington for said month, amounting in all to thirty three millions, one hundred fifty two thousand, nine hundred and forty one stamps (33.152.941); and I also declare that having proven and verified said requisitions, I with assistants, made out and filled the item bills of the separate orders thereof, proven also in dollars and cents as well as stamps, and I also declare that, in addition to the separate verification of each individual order in its counting, the total amount of each day's deliveries is proven to be correct from the general balance of stock taken ere the stamps are handed to the Stamp Agent, Isaac Pugh, Esq.

Sworn and subscribed before me
this ninth day of March A.D.1870

I, Clement Test, clerk in the Delivery Department of Internal Revenue Stamps under Jos R. Carpenter, Philadelphia, Pa. hereby declare that whatever bills of stamp orders and the necessary stamps to dill them have been handed over to me by Edwin Lamasure for final examination and proof of accuracy during the month of February, 1870, have been carefully examined and proven to be correct, and I also declare that, upon such verification of each individual order in its counting, I have packed and sealed up thoroughly said separate orders for stamps and delivered said package or packages to the Stamp Agent, Isaac Pugh, Esq.

Gentlemen:

Please do not in future forward checks for stamping to me. I do not sell stamps or receive money therefor, but merely furnish them to stamp dealers on Government requisition. These dealers regularly remit to the Inter Rev. Bureau from and for which they receive credit to have stamps imprinted on checks etc and dispose of the right to those who do not pay directly to the Government themselves making a commission on the value of the stamps printed. Please therefor send your packages and money to either of the dealers and have the matter regularly attended to. I would endorse and hand your check to Mr. McFetridge (who will however have the checks stamped & sent you) but you have made an error in the firm name, hence I cancel & return it to you. Mr McFetridge I presume will draw on you for the charges or you can remit it to him in the meanwhile. Please acknowledge receipt of cancelled check. The dealers here are J. R. McFetridge, Inquirer Building, J. E. Ridgway, 52 S. 3d St. W. E. Crockett and Jno M. Riley.

Jacob S. Merrell, Esq

Dear Sir:

Your favor of the 8th inst to hand. The cost of engraving a private die making plate etc complete is uniformly three hundred and fifty dollars ($350) and the time required to execute the work and have a stock of stamps prepared is about ten weeks. The smallest size stamp allowed is 13/16 of an inch superficial area which is the same as a check stamp or ordinary one cent proprietary stamps.

If you wish me to engrave you a private die please state clearly, the wording required and send me a photograph for vignette and the work will have die attention.

A larger stamp costs no more for the engraving but you would be charged for the extra labor and material required to manufacture them.

Very respectfully
Jos R. Carpenter

Gentlemen:

I have the pleasure to inclose a proof impression of your finished die and trust it will meet your full approval.

It only remains now to transfer the die in multitude to the plate, and in the meanwhile I should like to have your comments, and be informed what color to print the stamps.

The engraving a/c becoming die at this stage I present h the same herewith, and remain,

Very respectfully,

Philadelphia, March 15. 70

Messrs J. C. Ayer & Co.
Lowell, Mass.

Gentlemen:

Yours of the 11th & 12th insts to hand. I have very much to regret that you are put to inconvenience by reason of the thickness of the paper used in printing your stamps, and of the tint imparted by the grain of the plate - this latter fault is now being corrected and the plate will be ready again in a day or two. The paper in the last lot is similar to that which has always been used for your stamps and I was not before aware of its unsuitability. I inclose herewith a blank sample of another sort of paper which is more pliable, and desire to have your opinion regarding it. If suitable, your answer by telegraph will reach me by the time the plate is ready for press, when about 800 or 900 sheets can be printed per diem. Please return, at one, those which you cannot use and I will send you the new ones at earliest possible moment after receipt of those which you send me to be exchanged.

Very respectfully
Jos R. Carpenter

Dr. Jas C. Ayer, & Co.
Lowell, Mass.

Gentlemen:

I herewith submit two additional samples of paper, marked respectively Nos 1 and 2. The former is the kind used for printing revenue stamps generally, is part linen and hence is sufficiently tough to stand manipulation while moistened with paste. It is almost identical with the paper of the stamp inclosed by you: but as a portion of the last lot was printed on this very same paper I understand you to have condemned it then as being too heavy.

No 2 is a paper which can be obtained and used on your stamps if you prefer it, although it does not compare favorably with the other in point of strength.

Very respectfully

Gentlemen:

I herewith submit a proof of die with the expression of the face in vignetter head altered according to the suggestion of the gentleman connected with your house, who called here in reference to the subject.

This is about the best that can be done from the photograph which you sent me and I hope it will now prove satisfactory. If it does not however you will please send me a photo. that is much more distinct (any size so it is distinct) and I will make necessary alteration.

Very respectfully,

Box 4659 P.O.
New York, N.Y.

Gentlemen:

Your favor of the 22d inst with inclosure of three hundred and fifty dollars ($350) in full payment for engraving private die and making stamp plate complete is rec'd for which you have my thanks.

I inclose proof impressions in colors. It will take perhaps about two weeks to make the plate and have stamps prepared. I will duly notify you in the meanwhile precisely when to order stamps.

Our engraver thinks it impracticable to make any alteration in the features of the vignette head without another picture and hence the die will be transferred to plate as it is.

Very truly yrs.

Sir:

Yrs of the 22d inst at hand.

I have a good balance of all your denominations on hand in anticipation of orders.

You ask me to see if any of your private 4 cent stamps have been issued since last Nov. In reply I have to say that on the 22d Jany '70, there were forwarded pursuant to a Govt requisition dated Washington Jan 21/70 3.124 1 ct wrappers and 2.500 4ct stamps addressed to the"U.S. Proprietary Medicine Co." Cincinnati, Ohio.

Very respectfully

Gentlemen:

I have made a new plate from your one cent die and as the paper will now I think, run uniformly like that which you say will suit you I have reason to trust that the new issue will give you complete satisfaction.

Very respectfully,

New York, N.Y.

Dear Sir:

Yours of the 23 inst is at hand. On the 16th inst I received from the Commissioner of Inter Rec. a requisition ordering stamps from private die sent to George C. Barclay, New York, N.Y. As there was nothing to indicate which private stamps were required the Government Agent here sought and obtained directions from the Inter Rev. Bureau on the 19th inst and sent Barry's stamps addressed to you, per Adams Express, on the same day. Why you have not received them ere this I cannot say but will institute inquiry at the Express office at this end.

Very respectfully

R. V. Pierce, Esq
Buffalo, N.Y.

Sir:

In reply to your favor of the 24th inst, I have to say that I will expedite the work on your new stamp as much as possible, but it is scarcely probable that it will be ready in less than three weeks from date. When I first wrote you regarding time we were able to execute an engraving order in from six to eight weeks, but now it requires at least ten weeks to execute it.

I can make you a four cent stamp of the same design as the two cent, simply changing the letters and figures of the denomination, for two hundred dollars ($200) our regular price being $350 for one denomination and $200 for each additional denomination when the change is no more than above stated.

Very respectfully
Jos R. Carpenter

Messrs F. C. Wells & Co.
New York, N.Y.
P. O. Box 4503.

Gentlemen;

I am the appointed Agent of the Government to manufacture revenue stamp dies and plates and to print stamps therefrom. The Commissioner of Inter. Revenue has referred to me your letter of h the 24th inst and I reply thereto that it is only necessary for you to send me a sketch of design and size of the required stamps, stating the wording to go on it, and the matter will have due attention. The charge for engraving a private die and making stamp plate complete is uniformly three hundred and fifty dollars ($350) and the time to complete the same about ten weeks.

Stamps are furnished without charge for manufacture except when they exceed the size of ordinary stamps of the same denomination, in which case we charge for the excess of size at the rate of ten cents per thousand for stamps 3 1/8 inches superficial area and for all other sizes in proportion besides three cents per thousand for perforation.

Very respectfully,
Jos R. Carpenter

Gentlemen:

Your recent stamp order to hand & will be executed today. I may not be able to furnish all the ones called for, but whatever is the deficit will be forwarded tomorrow.

The new plate will be worked until an ample stock is prepared, and I will probably be able to make the exchange referred to as soon as those you have are returned.

Very respectfully
Jos R. Carpenter

Messrs C. E. Hull & Co.
New York, N.Y.

Gentlemen:

Your plate will be ready to go to press tomorrow morning. All I am now waiting for is to know what color you prefer of the specimens sent you on the 24th inst. Also please state if you wish the stamps gummed and perforated and about how many you will use per month. Stamps can be ready in about five days from the time of the receipt of this information.

Orders for stamps must be address to the Commissioner of Internal Revenue, Washington D. C. inclosing a duplicate certificate of a U. S. Ass't Treasurer or Designated Depositary of a deposit made covering the value of stamps ordered. The Commiss'r will then make a requisition on me and the stamps will be duly sent you from here.

On purchases or order of $500 or less you are allowed an addition of 5 per cent in stamps and of over $500, 10 per cent.

Very respectfully,
Jos R. Carpneter

Sir:

I inclose you a proof impression of your finished die, which I think will give you entire satisfaction. Please state your views at earliest moment, inform me what color to print the stamps and whether you desire to have them gummed and perforated. Also about how many you will probably consume per month.

It remains now to transfer the die to the plate for printing and to prepare an adequate stock to meet your demand.

Upon receipt of your further advice I may be able to state precisely when you may order stamps.

Very respectfully,
Jos R. Carpenter

Gentlemen:

Your favor of the 2d inst is at hand.

The charge for engraving a private die and making stamp plate complete, is uniformly three hundred and fifty dollars ($350), and the time required to complete the work and have an adequate stock of stamps prepared, about eight weeks.

Each denomination of stamp requires a separate plate. The charge for each additional denomination (of same general design) is two hundred dollars ($200).

The plates are uniform in size, say 12 x 15 inches.

Private stamps are furnished without charge for manufacture except when they exceed in size the ordinary stamps of same denomination in which case I am authorized to charge at the rate of ten cents per thousand for stamps 3 1/8 inches superficial area, for extra paper and printing, and three cents per thousand for perforation.

I do not usually send out specimens and have none on hand at present. If however you will state your wishes by letter accompanied with a rough sketch to embody your ideas I will endeavor to prepare a model which will probably be satisfactory to you.

Very respectfully,
Jos R. Carpenter

Gentlemen:

Your favor of the 5th inst is at hand and contents noted.

The Government requisition for your stamps has not yet been received.

It appears that the Commiss'r Inter Rev has changed his system of allowing commissions on orders for private dies. Heretofore he gave ten per cent pn amounts over $500. Since the first inst however the allowance appears to be only five per cent on the $500 and ten per cent on the excess so that you may expect to receive only $536 in stamps for your remittance of $510.

I mention this in connection with the fact that I did not know that any change was contemplated when I informed you that the ten per cent would be allowed on the full am't.

Philadelphia, April 14. 1870

Hon C. Delano
Commissioner of Inter. Rev.
Washington, D. C.

Sir:

I have the honor to submit herewith for your approval, the design of a four cent private die 1¼ inch superficial area. Stamps accordingly are intended for the proprietary medicine of Mr. E. T. Hazeltine, Warren, Pa.

Very respectfully,
Jos. R. Carpenter
per L.

Philadelphia, April 14, 70.

E. T. Hazeltine, Esq
Warren, Pa.

Sir:

I inclose herewith a proof impression of your new die with the engraving completed except the flower work at top and bottom, which not being yet finished in the die is here filled in with pencil; and request that you will please inform me if it meet with your approval before I make further progress with the work.

Very respectfully,

Jos. R. Carpenter

Messrs Bradfield & Co.
Atlanta, Ga.

Gentlemen:

The Commissioner of Inter Revenue has referred to me your letter of the 9th inst and requested me to furnish you with information respecting the engraving of a private die.

I am the Agent of the Bureau to engrave private dies and to print stamps. The charge for engraving a private stamp die and making plate complete is uniformly three hundred and fifty dollars ($350) and the time required to do the work about eight weeks.

Private stamps are furnished without charge for manufacture except when they exceed in size the ordinary stamps of same denomination in which case there is a charge of ten cents per thousand for stamps 3 1/8 superficial area for extra paper and printing and all other sizes in proportion, besides three cents per thousand for perforation.

If you desire to have the die engraved please address me direct and give a rough pen and ink sketch showing size of stamp and the wording required and I will give the matter due attention.

Very respectfully
Jos R. Carpenter
per L.

Philadelphia April 16. 70

Messrs G. E. Mitchell & Co.
Servell, Mass.

Gentlemen:

Your favor of the 14th inst is at hand. The Commissions allowed on purchases of stamps by proprietors of private dies are as follows, viz: on amt's purchased at one time of not less than fifty nor more than five hundred dollars five per centum, on amounts over five hundred dollars ten per centum. In other words if you make the single order which you refer to of $5,000 the Inter Rev Bureau will give you $5,475 in stamps.

Very respectfully
Jos. R. Carpenter
per L.

Philadelphia, April 16. 70

Geo. W. Laird, Esq
New York, N.Y.

Dear Sir:

Your favor of the 15th inst is rec'd. I return thanks for remittance of $200 and place the same to credit of your a/c.

Have the kindness not to remit to me the money for stamps, as that in all cases must be forwarded to the Internal Revenue Bureau at Washington.

After the label has been engraved it will be proper to apply to the Commissioner of Internal Revenue for permission to make the "specimens", although I apprehend he will not grant the request.

Your die will go in hand at once and will be completed with all possible dispatch.

Very respectfully
Jos R. Carpenter

Dear Sir:

Have the kindness to always state to the Commissioner of Inter Revenue, with your remittances on a/c of stamp orders, exactly what denomination or denominations of stamps you wish sent, as I have no discretion in the matter and can forward only such kinds as are stated in the Commissioner's requisitions upon me.

Very respectfully

Merchants Gargling Oil Co.
Lockport, N.Y.

Sir:

The Commissioner of Inter. Revenue has made a new regulation in regard to the allowance of commissions on purchases of private stamps. I believe, since the first instant, he has been giving but 5% on the first $500 of a remittance and 10% on the excess of the $500 only - instead of 10% on the whole am't as formerly.

Please refer to the Commissioner for more positive information.

Very respectfully

E. T. Hazeltine, Esq
Warren, Pa.

Sir:

Please inform me by return mail what color to print your stamps, how many you will probably require per month and whether they are to be gummed and perforated. By the time I get this information the plate will be ready to go to press, an ample supply of stamps will be prepared immediately and I will then early advise you exactly when to order stamps.

Yr engraving a/c becoming due at this stage I herewith present the same & remain -

Very truly yrs

E. T. Hazeltine, Esq
Warren, Pa.

Sir:

Yours of the 22 inst, with remittance of $350 in full payment for engraving private die and making stamp plate complete, is duly to hand, and you have my thanks for prompt response.

I note advice in full respecting the manufacture of stamps and will be prepared to execute an order about the 3d proxo. Orders must in all cases be addressed to the Commissioner of Inter. Rev. Washington, D. C. You will please write to him that you wish stamps from your four cent private die and inclose the duplicate certificate of a U. S. Asst Treasurer or Designated Depository of a deposit made covering the value of stamps required. The Commissioner will upon receipt of said order make a requisition on me and the stamps will be sent you from here.

Very respectfully,
Jos. R. Carpenter

Gentlemen:

I reply to yours of the 23rd inst that I believe the regulations of the Internal Revenue Office require all private stamps to be cancelled when they are so affixed as not to be necessarily destroyed in the opening of the packages on which they are so affixed.

I respectfully refer you to the Honorable Commissioner of Inter. Revenue, Washington, D. C. for more definite & positive information.

Sir:

I have to acknowledge the receipt of your favor of the 30th ultº covering draft for $500, and stating that as there is no Designated Depository at your place you desire me to procure a certificate of deposit and order stamps for you.

Pursuant thereto I have endorsed the draft and handed it over to Isaac Pugh, Esq. Government Stamp Agent, staticned at my place of business, who has obtained a certificate in your name and forwarded the original & duplicate to Washington with your order, as required by the regulations of the Bureau and no doubt a requisition will be duly made on me when the stamps will be sent you forthwith.

I inclose triplicate which is intended to be retained by you.

Please address Mr. Pugh direct on future occasions of this kind and he will give the matter due attention.

Gentlemen:

It will probably be two weeks yet ere we can present a proof impression of the new die. The engraving is steadily progressing however, there has been no unnecessary delay on our part and we trust in your patient indulgence for the extra time required to do the work.

Stamps from your small die are in readiness to meet several orders ahead.

Sir:

In reply to yours of the 2d inst I have to day that the Commissioner of Inter. Rev. has issued a circular to the effect that he is of the opinion that the allowance of commissions on orders for private stamps should be calculated at five percent for the first $500, and ten per cent on the balance of the order, and, accordingling (accordingly?), since the 1st of April, requisitions have been made on us computed at that rate.

A long die will cost you the same to engrave as the ordinary size - the only difference is that stamps of the small size are furnished you without cost for manufacturing while for a large there is a charge of ten cents per thousand for those 3 1/8 inches superficial area for extra paper & printing, and all other sizes in proportion - besides three cents per thousand for extra perforation. The uniform price of a die is $350.

Very respectfully,
Jos. R. Cappenter

Gentlemen:

Yours of the 30th ulto to hand. My authority to stamp documents is limited at present to the imprinting of the two cent stamp (eagle design) on bank checks, sight drafts and plain forms of receipts, the receipts to have the words "Good only when used as a receipt for payment of money" first printed across their face.

I do not receive money for the revenue or stamp value of the imprinting: that should be paid to the Government in either of two ways, viz by remitting directly to the Commissioner of Inter. Rev. a duplicate certificate of a U.S. Asst Treasurer or Designated Depository of a deposit made covering the value of stamps to be imprinted (over $50 at a time) inclosing an order stating that stamps are to be imprinted by me, and at the same time you will forward to my address by express (prepaid) the sheets for stamping with the am't of printing charges inclosed; or, the other way, and perhaps the more convenient, is to send the sheets to one of the dealers in this city (either of whom I will mention regularly remits to the Government and is authorized to have the work done) and he will attend to the matter for you on his own account and collect the total of charges, stamp value as well as for printing from you when the work is finished and returned.

The charges for imprinting are one penny a page or pull of six stamps or less each and a half penny for pages of only one stamp each.

The dealers order from the Government at one time large enough amounts to entitle them to the maximum commissions which it allows i.e. five percent and if your trade is an object with them they will deduct from their charges against you a large part of the commission. The names of these dealers, J. E. Ridgway - J. R. M. Fetridge and W. E. Crockett.

Sir:

Your favor of the 17th inst is at hand. I understand your wishes in regard to the engraving of a private die and will give them ready compliance, but in the meanwhile, in case you are not already aware of the terms, etc. it is proper to inform you that the charge for engraving a private die and making stamp plate complete, is, uniformly, three hundred and fifty dollars ($350), and the time required to complete the same and have an adequate stock of stamps prepared therefrom, about ten weeks.

While stamps of the ordinary size are furnished without charge for manufacture, increased sizes are charged for at the rate of ten cents per thousand for stamps 3 1/8 inches superficial area, and all other sizes in proportion, in pay for the extra paper and printing; besides three cents per thousand for extra perforation. A stamp the size you indicate (denomination of two cents and 1 5/8 inches superficial area) would cost at the rate of about 6½ cents per thousand stamps, perforated, and 3½ cents if not perforated. If upon consideration of these conditions you will please direct me to proceed with the engraving I will put the matter duly in hand and execute your order with all possible dispatch.

Yours very respectfully,

Dear Sir:

I have your favor of the 6th inst and reply thereto that the charge for engraving a private die and making stamp plate complete is uniformly three hundred and fifty dollars ($350), and the time required to complete the same and have an adequate stock of stamps prepared therefrom, about ten weeks.

While stamps of the ordinary size are furnished without charge for manufacture, increased sizes are charged for at the rate of ten cents per thousand for stamps 3 1/8 inches superficial area and all other sizes in proportion, to pay for extra paper and printing, and three cents per thousand for extra perforation. A stamp the size you indicate (denomination one cent and 1¼ inch superficial area) would cost at the rate of about 5 cents per thousand stamps, perforated, or 2 cents per thousans if not perforated.

It will be necessary for you to inform what lettering, if any, you require besides the words "Proprietary" & U.S. Inter. Rev" etc., to go on the stamp, and if upon consideration of the conditions stated you will direct me to proceed with the engraving I will put the matter in hand and complete work with all possible dispatch.

Gentlemen:

I very much regret to have to say that the alteration in the size of your stamp is impracticable for the reason that it would be just as expensive as to make an entirely new stamp. The vignette head and oval could not be saved without a double transfer which would be quite equivalent to a reengraving.

In view of the fact that the present die is completed and simply requires to be transferred to the plate, I make free to suggest that you make an extra endeavor to devise some means by which it will be possible to use stamps therefrom.

Very respectfully yours,

Stamp Agent

Dear Sir:

In packing private die order No 6911, Reg 9522, May 9th, for P. H. Drake & Co. New York, I inadvertently inclosed 26875 two cent stamps instead of that quantity of four cent stamps as directed by the requisition, giving them only $537.50 instead of $1075.

As they desire to have the deficiency supplied with four cent stamps I herewith deliver to you as follows, viz:

13,437 stamps @ 4 ct	$537.48
1 " @ 2 "	.02
	$537.50

This makes the order as filled stand as follows, viz: 26,876 @ 2 cts, 13,437 @ 4 cts Total 40,313 stamps - $1,075, and will change the totals of stamps on the requisition to the following am'ts, viz: 163,545 @ 1 ct, 28,140 @ 2 cts, 26,562 @ 4 cts, Total 218,244 stamps equal to the same value as before, viz: $3,260.73.

Will you please have the necessary alterations made on your books and those of the Bureau and inform me if the above course of action in making the adjustment is confirmed & oblige,

Yours very truly,
Jos R. Carpenter

Gentlemen;

I stamp sight drafts and checks only - and charge at the rate of one penny a page or pull of six stamps or less each, and half price for pages of one stamp each. I do not receive money for the stamps to be imprinted and will therefor await your instructions. You must either remit for the stamp value to the Commissioner of Inter. Rev. or address your order to some dealer in this city who will pay the charges for you and collect the same from you upon return of the instruments when stamped.

If the instruments come to hand before I again hear from you I will hand the lot to Mr. J. R. McFetridge, stamp dealer of this city, who will be your agent in the matter.

Gentlemen:

Your favor of the 17th inst duly to hand. I imprint checks, sight drafts etc. with the two cent die of the design you refer to, printed from steel, and uniformly of one color as per specimen herewith.

The charge for printing is in all cases one penny a page of six or less stamps deep, or half penny per impression of only one stamp.

I imprint only for those who pay the Government directly for the stamp value. These persons are generally dealers in revenue stamps who order in large quantities to get the full commission. They then do the work for the trade and make something in their charge for the stamps. The dealers here are J. R. McFetridge; J. E. Ridgway and W. E. Crockett to either of whom you may send your checks etc and have them properly attended to. They will duly advise you upon application as to their respective terms etc. and you can choose the best for yourself.

I have had recent official notice not to stamp any document hereafter that bears a blank space before the words "Pay to the order of", inasmuch as a two cent stamp would not be sufficient to meet all the purposes for which the instrument might be used.

It has long been apparent that the Government would not sanction an insufficient stamp to be imprinted on a document and allow the party filling it up to affix adhesive stamps for the deficiency.

Gentlemen:

On the 17th inst I submitted specimens of the form of draft which you sent me, to the Inter. Rev. Bureau for approval to imprint it with a two cent stamp. The reply thereto, noted in pencil on one of the forms returned, was "Permission cannot be granted. The form is as well suited to a time draft as any other. It might be printed with the usual limitation. Is it drawn upon the Cashier's own bank?" Pursuant thereto I resubmitted the form with an explanation as far as I could give one and again asked permission to stamp it. To this the Dep. Commiss. replied that it was "approved for a stamp of two cents with limitation "Good only for sight draft". This limitation however, is a prohibition so far as I am concerned, as it means that the words indicated are to be printed on the face of the draft, and as by my process of stamping I cannot impart those words with the stamp, I have no recourse but to return the drafts to you - which I do by to-day's express - and will say that I regret my inability to comply with your wishes and would gladly have attended to the matter had I been permitted to do so.

I herein return the five dollar stamp, with Mr. McLaughlin's letter of 24th inst, submitted by you for my decision as to its genuiness.

The stamp is undoubtedly genuine and its faded appearance may be caused by its face having at one time been stuck to the gummed surface of another stamp and the ink partly removed by their separation.

Gentlemen:

Your letter of the 7th inst covering check for $175, is duly received. As the check is erroneously drawn in favor of James R. Carpenter, I am compelled to return it for correction. It should be in favor of Joseph R. Carpenter.

I regret you are vexed about your stamp, but do not think you are just to me. Let us look at the facts of the case;- You order a private stamp to be engraved in accordance with your own design as to what is best for your business. Though you have ample time between the date of the order and the completion of the engraving, an interim of several weeks, you do not discover nor claim until the last moment that you (not I remember) have made a grave mistake, and the stamp cannot be used as you intended. When informed of your blunder I consent to accept 50% of the original price, thereby incurring myself not only a heavy loss pecuniarily, but ------- the waste of valuable time, labor and skill of my engravers ---- the work executed in strict compliance with your instructions. You are now very indignant because I will not engrave you a new stamp ---- at a loss to myself and, without courtesy, style my regular charge "an outrageous extortion". I submit very respectfully that to expect me to pay for your error of judgment is certainly more creditable to your confidence in my magnaminity than complimentary to my business knowledge and experience.

Were my arrangements with the Government of such a nature as to cover the cost of my engraving department I would cheerfully furnish private stamps free of cost, but, such not being the case, I feel that I do quite enough in making such a charge for private dies and plates as will expose me to no greater loss in that department than I have experienced for several years past, viz: a loss of several thousand dollars per annum. I have, moreover, to add that I do not believe the Government will at any future day undertake to furnish private stamps free of cost to the proprietor, particularly when so large a discount is allowed private over general stamps: a discount which in a short time, if any amounts of stamps be ordered, not only pays for the expense of the plate but allows a handsome profit thereafter.

In conclusion I have the honor to state that my price for engraving your new die and plate will be three hundred and fifty dollars $350 - and you will please instruct me further how you wish to have it in size and design.

Very respectfully

Sir:

Stamps cannot be imprinted according to the request of Messrs Seifert & Lawton, for the reason that the plates are not wide enough for the purpose. Adjusting the sheet for imprinting on the left end of a sheet would throw a projection of the sheet over the right or entering edge of the plate and subject it to certain mutilation by the action of the printing roller.

Gentlemen;

Your favor of the 20th inst to hand. I am the agent of the Government to engrave plates and print revenue stamps therefrom. The charge for making a private plate complete, is uniformly, three hundred and fifty dollars ($350) and the time required to do the work about ten weeks.

Private stamps are furnished without charge for manufacture except when they exceed in size the ordinary stamps of the same denomination in which case there is a charge of ten cents per thousand for stamps 3 1/8 inches superficial area, for extra paper and printing and all other sizes in proportion, besides three cents per thousand (stamps) for extra perforation.

If you desire to have a die engraved you will simply advise me of the fact and furnish a rough sketch of desired design giving size and denomination and the work will be put in hand and duly executed.

The stamps and letter of Mr. J. DeB. Smith, referred to me by your note, are returned herewith.

The stamps are undoubtedly genuine and probably the parties having a slow sale are anxious to get rid of them and offer the inducement of an extra discount.

Respecting their appearance the color of the $2.50 is one that fades very easily, and the blue are in the fugitive ink.

If I had the names of the parties selling these stamps I could say whether I have recently or at any time sent them stamps direct.

Respecting the matter of Messrs Hostetter & Smith's communication of the 2d inst herein returned, I would state that in July '69 you referred to me the application of Messrs Hostetter & Co. of Decatur, Ills for a four cent private die. But as the sketch of design which accompanied it presented such a close resemblance to the stamp of Messrs Hostetter & Smith that I immediately returned the application to you with my note of July 22d '69, calling your attention to the imitation.

Without reply in the meanwhile on the 14th of the following month you referred to me another sketch from the same party, modified to overcome the objection, but as nothing further was heard from Hostetter & Co. on the subject I did not submit their sketch to your office, and as far as I can know their design has never been officially approved.

I very much regret that there is any discrepancy between your count of the last lot of stamps forwarded and the invoice accompanying. I have carefully examined the balance of your stock in my hands and find it correct to a stamp. Considering that the sheets are counted in every department of my business by careful experts and again verified by count before delivery I could not make the mistake of a single stamp or sheet without at once discovering it in the balance on hand.

If I had an oversheet it would give me pleasure to adjust the discrepancy therewith.

Gentlemen:

Yours of the 8th inst addressed to the Hon. Commissioner of Inter. Rev. has been referred to me for reply. I am the Agent of the Government to engrave private dies, make stamp plates and print stamps therefrom. The charge for a private plate complete, is uniformly three hundred and fifty dollars ($350), and the time required ere stamps can be ready for delivery, about ten weeks.

Stamps of the ordinary sized are furnished without charge for manufacture but for increased sized there is a charge made at the rate of ten cents per thousand for stamps 3 1/8 inches superficial area and all other sizes in proportion for extra paper and printing, and three cents per thousand for extra perforation is required.

The only thing necessary for you to do will be to send me a rough pencil sketch representing size and denomination of stamps, stating ideas in respect to design, and the work will be duly executed. I keep an adequate stock of stamps from each private die in hand to meet orders on demand. The commission allowed by the government is five per cent for the first five hundred dollars of an order and ten per cent on the balance of order. No order rec'd for less than $50.

Very respectfully,

Gentlemen:

The regulations of the Inter. Rev. Bureau do not permit me to stamp instruments of this form, viz: "pay to the order of myself".

Special permission to have them stamped with the two cent die may be applied for by addressing the Hon Commissioner of Inter. Rev. and inclosing duplicate specimens of the instrument with your communication.

Very truly

Philadelphia, July 15. 1870

Cashier 2d Nat Bank
Detroit, Mich.

Sir:

I have procured by purchase a sheet of five cent general stamps which I herewith send you in settlement of claim for deficit in your order of May 24. 70. Please acknowledge its receipt.

I am inclined to respectfully state in view of the possibility of a repetition of the circumstances that I have reason to believe that the claim is founded on your own error, and, without supposing that the sheet was ----* removed at your place (although nothing in the affidavits indicates there was no opportunity for it due to the interval between the opening of the package and the counting of the stamps) that the error occurred in this wise, viz: There having been in the package 400 sheets 2 cent general on top, 200 5 cent next below, 50 10 cent next to them etc, it is probable that your clerk has counted off first 401 in mistake for the 400 sheets sent, thereby lifting from the package the one sheet of 5 cent stamps, and upon finding the balance of the----* of 199 sheets attributed the discrepancy to mistake------* whereas had he looked under the lot of 2 ct stamps which he first lifted from the lot, the missing sheet of five cent stamps would have been discovered at once. Had I before known the circumstances of the case as presented by the affadavits which are now before me I would have advised an examination of your balance of two cent stamps in search of the missing sheet, but now I presume it is too late to do any good.

Very respectfully,
Jos R. Carpenter

Hon C. Delano
Commissioner Of Inter. Rev.
Washington, D. C.

Sir:

Pursuant to your advice of the 12th inst I have procured by purchase a sheet of five cent general stamps and handed it to Mr. Pugh to be sent to the Second National Bank of Detroit, Mich as a settlement of their claim for an alleged deficit in order of May 24, 1870.

I would invite your attention to the fact however, that the affadavits presented by the bank are not in reality conclusive evidence in the matter, as they do not indicate what time or circumstance intervened from the opening of the package to the counting of the contents, etc.

I have my theory as to what led the bank to suppose that a deficit existed and have communicated the same thereto hoping to save any further trouble from the same cause.

Very respectfully,
Jos R. Carpenter

New York, N.Y.

Dr Sir:

I regret you are displeased with the head which has been engraved on your stamp, I have followed the sketch which you sent me but did not suppose that you wished a facsimile of its rude engraving and hence made what would be considered a great improvement in the design as well as the workmanship. As to the show card which you mention as having sent me, I have seen nothing of it as it has never reached my office. If any change has to be made now in such an important matter as reengraving a vignette it will involve considerable trouble and I should like to have satisfactory advice from you that the matter may be adjusted as speedily as possible.

I propose to placd the words of the copyright under the lines at the bottom - as I did not learn anything from you regarding this addition until the stamp had been outlined.

Very respectfully,
Jos R. Carpenter

Gentlemen:

Your die at present is in the hands of the vignette engraver who is diligently performing his work. It will probably be finished this week so that stamps will be in readiness by the 3d or 4th proxo.

As soon as the die is finished I will send you proof impressions and give you full information how and when to order stamps.

Very respectfully,

Gentlemen:

The Government Stamp Agent stationed at my office (425 Chestnut St. 4th floor. from 10AM to 3PM) is authorised by the Inter. Rev. Bureau to deliver to you $309.40 in revenue stamps, but supposing it probable that you desire to have their equivalent printed on checks, he is undecided whether to deliver them to you or to take my receipt and allow me to place the stamps to your credit for imprinting. In either event however he requires a receipt for the stamps and you will oblige him by sending someone down tomorrow who is competent to attend to the matter.

Very respectfully,

Gentlemen:

I have the pleasure to submit herewith, a proof impression of your finished die and trust it will be found entirely satisfactory. The plate is in hand and will be completed in a day or two and stamps will be ready for delivery in about one week from this date.

Have the kindness to inform me in the meanwhile what color to print your stamps and whether to gum them, etc.

Your a/c for engraving becoming due at this stage I present the same also herewith and remain,

Sir:

In reply to your of the 23rd inst, submitting an impression of the New York Match Co. private die (herein returned), I have to say that the same is undoubtedly genuine, and an examination under a strong glass shows that it was originally a well printed stamp. It has probably been subjected to some undue rubbing while in a moist condition as the color is spread upon the remaining portion of the paper box to which the stamp is still adhered.

Sir:

I regret that I cannot comply with your request of the 5th inst to send stamps on recent order, without gum, for the reason that there is now a large supply on hand from both your dies which it will be necessary to exhaust before any others can be issued. I will give attention that when other stamps are prepared they shall be as you wish.

When the stamps become stuck together you may readily separate and restore them to use by soaking them for several hours in water and afterwards rinsing off and drying them on a flat surface.

Gentlemen:

I note advice per your favor of the 11th inst and have the pleasure to hereby acknowledge the receipt of three hundred and fifty dollars ($350) as payment in full for engraving private die and making stamp plate complete and return thanks for prompt attention.

There has been a change in the regulations of the Inter. Rev. Bureau in respect to the allowance of commissions on purchases of stamps from private dies. I believe that now five per cent is allowed on any amount exceeding $50 up to $500 and ten per cent on the excessof $500. For full and definite information, however, regarding commissions I am compelled to refer you to the Commissioner of Inter. Rev.

All orders for stamps should be addressed to the Commissioner Inter. Rev., Washington, D.C. inclosing the duplicate certificate of a U.S. Treasurer or designated depositary of a deposit made covering the value of stamps ordered. The Commissioner will then make a requisition on me and stamps will be sent you from here direct.

I will probably be able to meet your first order in about one week from this date.

Sir:

Your letter of the 6th inst. has been referred to me by the Inter. Rev. Bureau for reply.

I am the appointed agent of the Government to manufacture revenue stamp dies and to prepare stamps therefrom. Our charge for engraving a private die and making stamp plate complete is uniformly three hundred and fifty dollars ($350) and the time required to do the work and to prepare an adequate stock of stamps to keep ahead of demand is about eight weeks. Stamps of the ordinary sizes are furnished without charge for manufacturing, but for increased sizes there is a charge at the rate of ten cents per thousand for stamps 3 1/8 inches superficial area and for all other sizes in proportion.

If, with a knowledge of these facts, you desire to have order engraved you will please draw a rough sketch, embodying the required size and your ideas of design and I will put the matter in hand at once.

Sir:

Your letter of the 23d inst addressed to the Hon. Commissioner of Inter. Revenue has been referred to me for reply. I am the authorized agent of the government to engrave revenue stamp dies, make plates and prepare stamps therefrom. The charge for engraving a private die and making stamp plate complete is uniformly three hundred and fifty dollars ($350), and the time required to do the work is about eight weeks. Stamps of the ordinary size (13/16 of an inch for 1 and 2 cent stamps and 63/64 of an inch for 3 and 4 cent stamps) are furnished without charge for manufacture, but for increased sizes there is a charge made at the rate of ten cents per thousand for stamps 3 1/8 inches superficial area and all other sizes in proportion, besides three cents per thousand for perforations.

A stamp of the size devoted to the wrapper submitted would print to great waste and if charged for according to the square of its greatest dimensions would be very expensive in comparison with one which might be made to simply fill the inner square of the design and which would probably answer your purpose as well.

If, with the facts before you however, you desire to have a private design engraved, you can consider the matter of size and communicate your wishes to me in full.

The commissions allowed by the government to proprietors of private dies, after the 1st of October next, will be in amounts from $50 to $500, five per cent, and in amounts over $500 ten per cent - or in other words if you send a remittance of $510 you will be furnished with $561 in stamps.

Private stamps are in all cases kept on hand ahead of demand so that orders are always promptly filled. They are furnished without charge for manufacture except when they exceed in size the government stamp of the same denomination in which case there is an extra charge at the rate of ten cents per thousand for stamps 3 1/8 inches superficial area for extra paper and printing and all other sizes in proportion; besides three cents per thousand for extra perferations.

Just preceding the date of Mansfield Co.'s order referred to, there was an unusual spell of damp weather lasting about five or six successive weeks which almost entirely stopped the work in the gumming department, and in consequence whereof I was compelled to dry by artificial means the gummed stamps of Mansfield Co and some others, the stock of which was low at that time. Hence to save inconvenience to the parties the stamps were delivered by instalments as soon as they could be prepared.

Dear Sir:

Yours of the 3d inst received and order for stamps noted.

As I informed you when you ordered your die the government was allowing proprietors a commission of ten per cent on all amounts over $500 remitted for stamps - for instance for $510 certificate it gave $561 in stamps. But about the 1st of April last the regulation was changed so that no more than five per cent was allowed on the first $500 of any am't remitted and then ten percent on the balance of the order or in other words, for $510 in money gives but $536 in stamps. A law has recently been passed however which provides that after the 1st October next proprietors will be entitled to ten per cent on the whole amt. of all orders for private stamps the same as when you were first informed by me. You will be careful to notice that you must remit over$500 after Oct. 1 to get the 10 per cent - $501 will do it.

I herewith return the fifty dollar stamp and accompanying papers submitted to me by your note of the 13th instant.

The absence of perforation on the stamp shows that it was issued several years ago, and my opinion is that it has in the meanwhile been applied to use, from the fact that, although the original gum is still on the stamp, it is without the even flow which characterizes an unused stamp; and the face and lightest portion of the drapery of the vignette bear evidence of erasure.

In all cases of stamps of such high denominational value I suggest that the Government would do well to trace them back as far as possible. A fifty dollar stamp is very likely to have a history.

On requisition No. 9751, received today, J. W. Schenck's order calls for7,166 three cent and 7000 six cent stamps, value $634.98. This being obviously wrong, Schenck having a one but no three cent die, I have amended the order to read 21,498 one cent and 7000 six cent stamps, as before.

Also same requisition, Jno. J. Levy Co's order calls for 24,125 four cent stamps equal to $965; and as Levy Co. have no four cent die but invariably require five cent stamps, I have amended their order accordingly, viz, 19,300 five cent stamps value $965.

These amendments involve a change in the stamp totals of the requisition to the following amounts, viz: 1,527.748 one cent, 200,000 three cent, 26,875 four cent, 19,300 five cent, and 7000 six cent, making 1,780,923 stamps in all.

Sir:

In reply to your letter of the 22d inst, the charge for engraving a private revenue stamp die and making plate complete is uniformly three hundred and fifty dollars ($350) and the time required to execute the work is usually about eight weeks.

The sketch sent me would answer very well to work from, and could be greatly improved in the engraving. The size you submit being larger than the government stamp of same denomination would cost you something less than five cents per thousand for extra labor and material in the manufacture of the stamps - the regulations being (for four cent stamps) 63/64 of an inch superficial area, free, but increased sizes are to be charged for at the rate of ten cents per thousand for stamps 31/8 inches, for extra paper and printing and all other sizes in proportion, besides three cents per thousand for extra perforation.

If with this knowledge you desire to have a stamp engraved please communicate the fact to me and the matter shall have early attention.

Very respectfully,

Jos. R. Carpenter

Gentlemen:

Your favor of the 24th inst is received. The words "Health to all" can be placed on the shield in the vignette of your die, but there can be no alteration in the lettering of the circle around vignette so as to insert "New York." If you desire I can place "Savannah and New York" in the bottom border lines of the die.

Please advise me without delay as to whether you will or not have the words entered as I suggest.

Dear Sir:

I herewith submit a specimen proof of your die with the words of the copyright inserted. Please advise me duly if you're satisfied with it and one week from the time I hear from you I will be prepared for a stamp order. Orders should be addressed to the Commissioner of Internal Revenue, Washington, D.C., stating that you wish three cent stamps from your private die and enclosing the duplicate certificate of a U.S. Assistant Treasurer of Designated Depository, of a deposit made covering the value of stamps ordered, on receipt of which the Commissioner will make a requisition on me and stamps will be sent you from here direct.

After the 1st proximo the commission allowed by the government will be five per cent on all orders from $50 to $500, and ten per cent on orders of over $500- i.e. if you remit a certificate of $510 you will be entitlted to $561 in stamps.

I have the honor to herewith submit a proof impression of the framework of your stamp with a photograph of vignette inserted that you may say how it would suit you. In the engraving of course the design would be more distinct. The original drawing of the vignette is also submitted that you may better judge as to the effect which will be produced in the engraving.

Sir:

In reply to your favor of the 26th inst I have to explain that the law requires every private stamp to contain the figure as well as the letters of the denomination and also the words "U.S. Internal Revenue" or their proper abbreviation. Your model is correct in all this except the omission of the figure "5." I presume the department would not object to the abbreviation "cts." I suggest that the figure 5 be inserted as I have drawn it in the photograph of model herewith returned.

I retain your large model for the present.

Gentlemen:

In reply to your favor of the 27th inst, there can be no deviation from the regular charge of $350 for engraving a private die and making stamp plate complete. It is your privilege to designate the size of die, large or small, it would make no material difference in the amount of work, the plates being of uniform size and while the small stamp would take less work to engrave, it would take more of them to fill the plate. The only disadvantage in a large die is that the extra work in preparing the stamps would be charged to you.

The Government will of course not make you any allowance of stamps in consideration of the amt paid for engraving a private stamp plate.

As to the percentage allowed on orders for stamps, I must refer you for definite information to the Commissioner of Inter. Rev. I believe it to be on private stamps (from Oct 1st inst) ten per cent on all orders of over $500 - and on general stamps four per cent on $500 and five per cent on $1000.

I would await payment of $350 for engraving until a proof impression could be presented from the finished die.

Sir:

Your favor of the 28th inst to hand. I note your remark that $350 is apparently too high for engraving a stamp and that it could be done for considerably less in New York; to which I reply that you have not considered the fact that beside engraving the stamp it is also a part of the bargain to multiply that engraving about one hundred and seventy times to make a plate of the government standard size from which the stamps are to be prepared. And besides this, there are elements of considerable moment which do not enter into the terms of an outside party but must necessarily be greatly considered by me.

The price stated, viz: three hundred and fifty dollars is in no case deviated from, and is the lowest possible amt. for which the work could be done.

Dear Sir:

Will you please inform me by return mail what color to print your stamps and whether you wish them gummed and perforated. If you wish them perforated please understand that the perforation row on top of the stamp must necessarily be in a straight line as it is impossible to follow a curved line with a perforating machine.

I cannot find my note of your having previously advised me in the above respect and it will be necessary for me to have the information on Wednesday next when the plate will be ready to go to press.

The stamp, although a poor impression, is certainly genuine. It is one of the very first issued as attested by the absence of perforation, and, no doubt, has in the meantime been subjected to much usage. My impression is that it has not been washed although the appearance of gum over the sides of the stamps looks as if it had been tampered with, and upon this suspicion I would require the party to show from whom he derived it and the discount allowed. A $200 stamp should have a history not very difficult to trace.

The officials at Washington have examined the lot of spoiled stamps from your die and fail to discover anything respecting the claim which you recently made of a deficit of eight sheets. Some mistake must certainly have been made at your factory in counting the contents of the package as it is impossible to make a mistake in our count without discovering a corresponding discrepancy in the stamp balance upon taking an account of stock after filling a subsequent order. Please look into the matter at the factory and see if there has not been a mistake made there.

Gentlemen:

Yours of the 31st ulto. addressed to the Commissioner of Inter. Rev. with sketches of designs for private dies, has been referred to me for reply.

I am the appointed agent of the government to engrave revenue stamp dies and to prepare stamps therefrom. The charge for engraving a private die and making a stamp plate complete is uniformly, for a single denomination, three hundred and fifty dollars ($350). Each denomination of stamp requires a separate plate. If there is no variation in the design or size of the several denominations except in the letters and figures naming the denomination of the stamp, the charge will be $350 for the first plate and $200 each for additional plates.

You will have the right to designate any ordinary colors for printing without being subject to charge therefore. And there will be no charge for manufacturing stamps of the ordinary sizes, viz: one and two cent stamps 13/16 of an inch superficial area, and three, four cent, etc., 63/64 of an inch superficial area, but for increased sizes there will be a charge made for extra paper and printing at the rate of ten cents per thousand for stamps 3 1/8 inches superficial area and all other sizes in proportion, besides three cents per thousand for extra perforation.

I would require about two months to make a single plate and about three months to complete the four. The Commissioner of Inter. Rev. has temporarily prohibited the engraving of private dies but no doubt the prohobition will be removed in a few days.

I have the pleasure to acknowledge the receipt of your favor of the 10th inst. with remittance of three hundred and fifty dollars ($350) in full for engraving private die and making stamp plate complete. I also note your advice respecting color, etc. and will have stamps prepared and ready to meet your first order by the 19th inst.

Orders should be addressed to the Commissioner of Inter. Rev. Washington, D.C. inclosing the duplicate certificate of a U.S. Apt. Treasurer or Designated Depositary of a deposit made covering the value of stamps ordered, stating in your note to the Commissioner that you require 4 ct. stamps from your private die: a requisition will then be made on me and stamps will be sent you from here direct. The commission allowed by the Government is five per cent in stamps, on sums of $50 to $500, and ten per cent on over $500 - that is if you remit $510 in the shape of a certificate of deposit you will get $561 in stamps.

In reply to query as to the charge for additional denominations, I would say that it is three hundred and fifty dollars when the design or size of the stamp is not changed. If, however, there is no change except in the letters and figures of the denomination, the charge would be only two hundred dollars.

Thanking you for prompt and kind attention, I remain yours,

Sir:

Your favor of the 17th inst addressed to the Commissioner of Inter. Rev. has been referred to me for reply.

I am the authorized agent of the Government to engrave private dies and to prepare stamps therefrom. The charge for making a private stamp plate complete is uniformly three hundred and fifty dollars ($350) and the time required to do the work is about eight weeks.

The Government allows to proprietors of private dies a commission in stamps of ten (10) per cent on all orders of over $500 at a time.

After a plate is made an adequate stock of stamps is kept on hand in advance to meet orders therefor on demand.

There is no charge for manufacturing stamps of the ordinary size, viz: 13/16 of an inch sup. area for one and two cent stamps and 63/64 of an inch for higher denominations; but for increased sizes there is a charge for manufacturing at the rate of ten cents per thousand for stamps 3 1/8 superficial area, for extra paper and printing, annd all other sizes in proportion besides three cents per thousand for extra perforations.

I would inform you however that the Commissioner of Inter. Rev. has temporarily prohibited the engraving of private dies for the present, but I expect the prohibition will be removed in a few days.

If, with this knowledge, you desire to have a plate engraved, please advise me what denomination, size and design of stamp you require and I will give the matter immediate attention as soon as I am permitted by the Government to do so. Please accompany your application with a rough sketch of design to facilitate the work of our artist.

Gentlemen:

Concerning the 500 labels claimed for deficit in order sent you on the 18th ulto, I find that the stock on hand here is properly balanced according to an accurate account of the paper printed and cut. The packages of 5000 labels when put up for shipment are composed of ten separate lots of 500 labels each and to account for the discrepancy it might be supposed that only nine of these lots had been put in the package referred to while eleven had been put in some other package: but this seems to me improbable inasmuch as the packages are invariably tied up while in a press made and adjusted purposely to require the exact complement of ten lots to fill it, so that any deviation in quantity would necessarily be apparent to the packer. I am therefor, you will perceive, entirely at a loss to account for the discrepancy, and hence beg you will further consider the matter and ascertain by investigation if the fault in count has not been made at your establishment, or if a package had been broken and 500 lost during the shipment of the order from here.

Gentlemen:

Your order for $660 in stamps came to me and was executed yesterday. The requisition bearing the order was dated at Washington on the 28th inst and if you ordered the stamps on the 19th there must have been something unusual to make a delay of nine days at the department in getting it entered on a requisition.

At all events you will perceive that the fault is not at this office and I would refer you to the Commissioner of Inter. Rev. for information as to whether your letter making the order was duly rec'd by him, etc.

Gentlemen:

I have the honor to herewith submit a proof impression of your private four cent die which I think will merit your approbation as to the execution of the work, and trust you may be able to use the stamp with entire satisfaction notwithstanding your desire, when too late, to have its size increased.

As it remains now only to make the stamp plate, please inform me in the meanwhile what color to print the stamps, and, upon hearing from you in that respect, I will advise you precisely when and how to order stamps.

My account for engraving coming due and payable at this stage, I present the same also herewith.

Mr. Pugh:

In reply to the letter referred to me this morning, that Mr. Hillhouse's order No. 7461 was correctly filled. Of the one cent general stamps it contained 210 sheets or pieces, of 100 stamps each, and beside the stock account being correctly balanced, it is distinctly remembered by the clerk who put up the order, and also by the one who finally examined the stamps and sealed them for delivery, that the said 210 sheets of 100 stamps each, equal to $210, were in the package marked No. of said order. The parties in New York may have been misled in counting the sheets by the manner in which they were cut, or they may have ordered more of that denomination, but in any event I have proof positive that $210 worth of one cent general stamps were put in the package as stated.

Your brother called in a day or two ago to urge upon me the necessity for completing your new stamps in the shortest possible time, saying you would like to have one or both in a couple of weeks.

At his request I write to inform you as I did him that I expect that it will require twelve weeks to do the work and have the new stamps prepared, but every possible effort shall be made by me to lessen the time, but the work of engraving is of such a nature that I cannot give you hopes of getting through in much less time that stated.

I inclose sample of revenue stamp printed by me on checks and sight drafts. It can be printed in the middle of check or on the <u>right hand</u> end.

If you do not order the stamps of the Government direct, you will be obliged to have the work done through one of the stamp dealers in this city who will receive your checks, have them imprinted by me according to your directions, and collect all the charges from you on their return by express. Sir:

The charge for engraving a private revenue stamp die and making the plate complete is uniformly three hundred and fifty dollars ($350), and the time required to do the work, about twelve weeks. There is no charge for manufacturing stamps when the die (4 ct) is of the Government size, viz: 63/64 of an inch superficial area; but for increased sizes there is a charge at the rate of ten cents per thousand for stamps 3 1/8 inches superficial area, for extra paper and printing and all other sizes in proportion, besides three cents per thousand for extra perforation.

The commission allowed by the Government is ten per cent in stamps on all orders of over $500 at a time. The smallest order rec'd at the Revenue Bureau is $50, upon which the commission allowed is five per cent.

Dear Sir:

Pursuant to yours of the 15th inst, I herewith return the letter of the Act'g. Ass't. Treasurer at New York, and, in addition to my report already made through Mr. Pugh, I can only say that the usual checks were applied by experts in putting up the order in question, and it was proven to be correctly filled when it left this office.

The one cent stamps and others of the same class, are invariably printed 210 to the sheet. The explanation therefor, as to why there were only 100 on the sheets delivered, is that a large quantity of that denomination having been left on hand since the commencement of the business by reason of a change in the law, a portion became stuck together on the edges, and were found upon their separation to yield but 100 perfect or available stamps to each damaged sheet.

Gentlemen:

Your communication of the 13th inst addressed to the District Commissioner Inter. Rev. has been referred to me for reply.

It is not probable that the new issue of revenue stamps will be ready prior to the 1st of July next, and even then I am not aware that there will be a six cent proprietary stamp engraved by order of the Government.

Although you do not say proprietary stamps are required, I presume you refer to that kind from the large am't mentioned. Why not procure a private die at once? It would cost you only three hundred and fifty dollars, and take about three months to engrave the die and make a stamp plate complete, then you would be entitled by the Government to ten per cent commission on all orders for stamps therefrom, over $500 at a time, or, in other words, would get for say $600 remitted $660 in face value of stamps.

Sir:

I am in receipt of your letter of the 14th inst and sketch accompanying.

The charge for engraving a private die and making stamp plate complete is uniformly three hundred and fifty dollars ($350) and the time required to do the work about twelve weeks. There is no difference between the engraving charges for a small or large die but when the stamp is larger than the government size, there is a charge for manufacturing stamps at the rate of ten cents per thousand for stamps 3 1/8 inches superficial area and all other sizes in proportion, for extra paper and printing; and three cents per thousand for extra perforation.

I also print the stamps for the government. If on learning these particulars, you desire to have a private stamp engraved, please inform me what denomination you require and the work will have due attention.

Gentlemen:

Your blank paper for imprinting 167 impressions of stamps, 6 to the page, is rec'd. The dealer's order accompanying calls for only 960 stamps and it will be impossible for me therefor to print on the dealer's account more than the number called for. But as your paper will receive 1002 stamps and you appear to require that number, I return the order herewith that you may take it to Mr. Ridgway and get it increased to the required am't before the work is commenced.

I would be very happy to comply with your terms about printing the full am't and collecting the cost of the extra stamps from you on completion of the work, but I am wholly unauthorized by the Government to do so. The rule is that the Government must be paid for the stamp value in advance and the order of the dealer is used by me as a voucher in his settlement with Internal Revenue Bureau for the stamp value in the imprinted paper.

Gentlemen:

Your letter of the 28th ulto addressed to the Commissioner of Inter. Rev. has been referred to me for reply.

I am the authorized agent of the government to engrave revenue stamp dies, make plates and print stamps therefrom. The charge for making a private stamp die and plate complete is uniformly three hundred and fifty dollars ($350), the amt. whereof you will please remit to me. Stamps of the ordinary size (siz. 13/16 of an inch superficial area for one cent and 63/64 for three and four cent stamps) are furnished without charge for manufacture, but for increased sizes there is a charge made at the rate of ten cents per thousand for stamps 3 1/8 inches superficial area for extra paper and printing, and all other sizes in proportion - besides three cents per thousand for extra perforation.

If with this information you conclude to have the stamp prepared please address me accordingly and your order shall have due execution.

Very respectfully

Sir:

In reply to your favor of the 8th inst. I would say I have no regular specimens of the stamp imprinted by me on checks, etc. but herewith submit a stamp from my check book which will give you a correct idea of the design. Should you wish to make an order for such imprinting, be good enough to address one of our city stamp dealers who is authorized by the Government to receive the stamp value therefor and he will attend to the matter fully and collect all the charges from you by express when the work is returned to you.

My charge for imprinting is uniformly one cent a page or impression of six stamps or less each and a half penny for impressions of only one stamp each.

J. R. McFetridge, "Inquirer Building," of this city is a stamp dealer and will promptly execute your orders for imprinting.

John G. Howard, Esq.

Dear Sir:

I exceedingly regret to learn by your favor of the 6th inst of the decease of D. Scott. In reply to your inquiries, the circumstances connected with the ordering of the engraving of a private die for the University are as follows, viz:

On the 13th of October, 1870, Dr. Scott concluded his negotiations with me by ordering a four cent die according to the design of which proof impressions in colors are herewith inclosed, the University understanding that it would pay me the uniform price for the engraving, viz. three hundred and fifty dollars upon the completion of the work. The order or application was duly approved by the Government and the work of engraving was finished on the first of February, '71, when I notified you accordingly, submitting at the same time a proof impression of the die and my bill for the $350 which was then, and is now, due.

Your reply to this on the 2d inst was that "Dr. Scott who personally attends to the engraving and printing is dangerously ill at present, and as soon as possible will attend to business." There has been no further communication on the subject until yours of the 6th inst and hence my engraving account of $350 is still entirely unpaid and the die now remains subject to your orders as to color and quantity of stamps to be printed therefrom.

Gentlemen:

The Government has not yet authorized or directed the preparation of a six cent proprietary stamp, probably because the limited demand therefor has not appeared to warrant such action. It is possible that the denomination will be made in the course of a few months. If there be not, however, I should suppose that no inconvenience would result from the use of two 3 cent stamps on packages of $1.50 preparations, but circumstances alter cases, and perhaps you are the better judge as to the matter of convenience, and should directly communicate with the Inter. Rev. Bureau on the subject.

The charge remains the same as before, viz: three hundred and fifty dollars ($350) for engraving and making the plate complete.

The regulation at present respecting orders for stamps allows ten per cent on all amounts remitted exceeding $500 at a time: that is, say, $510 in money would entitle you to $561 in stamps, while $500 would yield you only five per cent or $525 in stamps.

New York, N. Y.

Gentlemen:

Yours of the 16th inst is rec'd in time to stop the checks rec'd yesterday from being stamped. I will withhold the lot until the others come and both lots will be returned to you together.

The agency of the imprinting for you has been referred to Mr. J. R. McFetridge, stamp dealer, in this city, who will pay the government charges as well as our own, and collect the total from you when the work is done.

Very truly yours,

Jos. R. Carpenter

Sir:

Your letter of the 8th inst., addressed to the Commissioner of Inter. Rev., has been referred to me for reply.

I am authorized by the Department to engrave private stamp plates and to prepare stamps therefrom. The charge for engraving a private design and making a plate complete is uniformly three hundred and fifty dollars ($350), and the time usually required to do the work is about eight weeks. In consequence however of the Government having recently ordered an entire new series of general stamp plates, which must have priority of attention, I will not be able to execute a present private order within the usual time - but, if upon learning the above terms, Messrs. Darls' Sons conclude to have a plate engraved and will notify me directly thereof, sending me a rough sketch of the design, size and denomination of stamp required, I will duly advise them as nearly as possible in what time the work can be completed.

Very respectfully,

Jos H. Carpenter

Your proper course will be to return the mutillated and disfigured stamps to the Commissioner of Internal Revenue. He would probably not authorize me to make the exchange which you desire until the returned stamps were first inspected at Washington.

of Inter. Rev. Washington, D.C.

There are two discrepancies on today's requisition
(1000)
vis: Gray's order calls for one thousand dollars and
(900)
adds up only nine hundred. Bubb's order calls for
(500) (600)
five hundred and foots up six hundred. In Gray's
(100) (1(
order there is an item of one hundred one dollar
(100) (2)
stamps and in Bubb's one hundred two dollars. If
these items were transposed all would be right.
How is it?

Gentlemen:

Your favor to hand, and triplicate certificate of deposit is returned herewith.

Your order from the Inter. Rev. Bureau came yesterday, and while it is the rule to keep a three months supply of all stamps constantly on hand, it so happened in this instance that the balance of your four cent stamps was exhausted and awaited a new supply which could not be finished in time for yesterdays express. The stamps are shipped to you today, however, and I hope that the delay of one day will not greatly inconvenience you.

Gentlemen:

My charge for imprinting stamps on checks, etc. is invariably one penny a page all of six stamps or less each.

I do not sell stamps and hence cannot determine what rate of discounts is allowed by dealers. You can however remit on account of stamp values direct to the Commissioner of Inter. Revenue, or you may perhaps more conveniently have your work done through an authorized dealer in this city. The dealer would no doubt furnish you with samples of check paper, rates, etc. attend to the Government charges and may own, and collect the total from you in one bill.

I refer your application to Mr. J. R. McFebridge, our authorized stamp dealer in this city, who will no doubt inform you clearly how to pursue the matter.

Sir:

Your favor of the 27th inst., addressed to the Commissioner of Inter. Revenue, has been referred to me for reply. I am authorized by the Department to engrave private stamp plates and to prepare stamps therefrom. The charge for engraving a private design and making a plate complete is uniformly three hundred and fifty dollars ($350) and the time usually required to do the work is about eight weeks. The proprietor of a private plate has the privilege of ordering stamps therefrom at any time in any amount over fifty dollars. In consequence however of the Government having recently ordered an entire new series of general stamp plates, which must have priority of attention, I will not be able to execute a present private order within the usual time. But, upon learning the above terms, if you will address me direct with further advice, stating style, size, and denomination of stamp required, I will duly notify you as nearly as possible in what time the work can be done.

Gentlemen:

On and after the 1st of August next the Government will use a special white paper for all private stamps unless its use be proven to be impracticable. If you wish to appeal in favor of having some of yours on yellow paper as heretofore, you should do so at once to the Commissioner of Internal Revenue who has control over the matter.

The Government balance of your one cent stamps now on hand is all on yellow paper and can be supplied to you on proper order until the above date when the regulations will require a new supply to be printed on distinctive white paper.

Sir:

The first lot of the new private die stamp paper was in reality drawn from the Stamp Agent on Saturday the 17th of June, but was not used until Monday the 19th, and for convenience in my own accounts at the start I reported it under the latter date. All subsequent operations, however, have been and will continue to be reported under their actual dates.

I make this explanation in view of the discrepancy noted between the date of Mr. Pugh's first report and my own.

Gentlemen:

Yours of the 28th inst. duly received. I can cut the next lot of your stamps printed as you request. Those on hand however, or little more than enough to fill this order, cannot be cut for the reason that there are no register marks on them, and it will take time to prepare means for cutting them properly.

In the sample sent me, returned herewith, you have cut off that part of the label bearing the words "Syracuse, N.Y." Was this done by design or accident?

The Government contemplates furnishing a distinctive paper with a colored fibre in it similar to the present fractional currency, for all private die stamps furnished subsequent to Aug 1st next. If you have any objection to such paper for your stamps, you please appeal to the Commissioner of Inter. Rev. who has control over the matter.

Very respectfully,

L. M. Foulke, Esq.
San Francisco, Cal.

Sir:

Your favor of the 30th ulto addressed to the Hon. Commissioner of Inter. Revenue on the subject of a private die for Messrs. Nervbauer & Co. has been referred to me for reply.

I am authorized by the Department to engrave revenue stamp plates and to prepare stamps therefrom. All dies plates, etc. must be made of steel, hence the block sent me cannot be engraved, although the drawing upon it will answer our artist as a design for a steel engraving.

The charge for engraving a private die and making stamp plate complete is uniformly three hundred and fifty dollars ($350), and the time usually required is ten weeks, but in consequence of the Government having recently made a heavy engraving order which must have priority of attention, it will now take longer to execute a private order. If, however, upon learning the above facts it is decided to have a die engraved, you or Messrs. Nervbauer will please address me directly to that effect, and I will thereupon notify you more definitely as to the time which will now be required to execute the order and have an adequate supply of stamps prepared to meet your demands.

Very respectfully

I will further communicate with you however, and perhaps submit a drawing of design when it will be time enough for you to remit to me the unit of charge.

Sir:

Your favor of the 21st at hand. The order referred to is also at hand from the government today and is executed and forwarded by today's mail excepting 1100 1ct which will no doubt be ready tomorrow.

A temporary difficulty at present exists in the filling of orders, in consequence of a recent regulation of the government requiring stamps to be issued subsequent to the 1st Aug. printed on a new distinctive paper which compels me to run the old balances as closely as possible to avoid holding a surplus at that time. In view of this I will do the best to save you inconvenience and trusting to your forbearance in this instance I can safely promise that after the new issue is commenced your orders will be executed as promptly as heretofore.

Very truly,

Jos. R. Carpenter

Gentlemen:

Your recent order for stamps came to hand on the 24th inst, but unfortunately the stock of your four cent stamps had been almost entirely exhausted by the previous order. A further supply of yours with several other kinds of stamps were previously entered for immediate printing but it happened that yours was the last on the hurried list put to press, and hence the delay. In consequence of a recent regulation of the government requiring the issues subsequent to the 1st of Aug. to be printed on a new distinctive paper I have been running the stamp balances very closely to avoid having a surplus on hand at that time. Otherwise there would have been no difficulty in executing your order promptly. As it is I will no doubt be able to have the present order ready for shipment by tomorrow's express.

I return triplicate certificate, asking your forbearance in this instance and can promise that after the new issue is commenced your orders will be executed as promptly as heretofore.

Very truly,

Jos. R. Carpenter

Dear Sir:

Your favor of the 9th inst at hand. I very much regret to know that you have been inconvenienced by the delay in filling your last stamp order. The order was rec'd here on the 5th and was executed on the 8th inst. The cause of delay existed in the fact that the Government has recently adopted the use of a new paper for private die stamps, and the old stock of old dies having been run down to the lowest point in view of the change, and there being some difficulty in getting a full supply of the new ready (the weather being very damp and unfavorable for gumming), three days elapsed before I could make the entire amount - wanting some 1400 sheets of the new paper to complete it.

I have now however a full three months supply of your stamps printed on the new paper and there will be no futher delay in filling your orders immediately on receipt thereof from the Inter. Rev. Bureau.

Very respectfully,

Jos. R. Carpenter

Sir:

In reply to yours of the 8th inst. I have to say that the orders therein referred to came to me from the Inter. Rev. Bureau on the 4th and 8th inst. respectively and were both executed and shipped from here on the 11th.

The cause of the delay in the shipment of these orders existed in the fact that the Government has recently adopted the use of a new paper, and the stock of the old stamps having been run down to the lowest point in view of the change, there was trouble in getting the new ready, in consequence of the unfavorable weather for drying the gummed stamps.

Another order in your favor is rec'd today and will be executed tomorrow. Asking your indulgences under the circumstances named I can promise that in a few days a large supply of your stamps will be ready and thereafter you will find all orders will be filled as promptly as heretofore.

Very respectfully,

Sir:

I am now free to execute private engraving orders and could no doubt have your private die and stamps therefrom prepared by Oct. 15th next if I had your immediate advice to proceed with the engraving. As it is, the time of completing the work must depend upon the time of the receipt of your order.

$350 in advance should be forwarded direct to me.

The Commissioner of Inter. But for authoritative information on this point I advise you to address the Hon. Commissioner.

Dear Sir:

Your favor of the 10th inst. at hand. I will be duly prepared to execute the order to which you refer, when rec'd.

The last order was in the aggregate correctly filled, contents in sheets being as follows, viz: 1904 $\frac{161}{210}$ sheets one cent and 1372 $\frac{93}{170}$ three cent. The latter, of which you state there was a deficit of 8 $\frac{30}{170}$ sheets, was composed as follows: 491 $\frac{140}{170}$ sheets printed on new paper and 880 $\frac{125}{170}$ sheets on old paper.

I think you have been misled into error by supposing that the 491 $\frac{140}{170}$ should be 500, which would make a difference precisely the amount of your claim, viz: 8 sheets and 30 stamps. You should have found however that by adding the 491 ^{140} and 880 ^{125} together that you had the full amount of 1372 $\frac{93}{170}$ sheets or 233333 stamps of the three cent denomination.

In reply to your note of the 25th inst., I would state that the full amount of stamps viz: 1793 $\frac{22}{46}$ sheets were actually in the package sent, made up as follows, viz:

39	sheets	15	odd stamps	old
1754	"	7	"	new

There were fifteen odd stamps on top, but the <u>seven</u> odd ones to make up the twenty-two over, were <u>under the 39 sheets of old stamps</u>, and I presume that is the reason you were misled to overlook them. The balance of stock remaining is correct, with the seven odd stamps cut from the sheet.

I have the pleasure to herewith present you a proof impression of your engraved die and trust it will be found satisfactory. It remains now to make the plate and prepare a stock of stamps therefrom. Have the goodness therefore to state comments, and also about what quanitty of stamps you will probably require per month, and in about two weeks from the time I am advised the new stamps will be prepared to meet your first order and a sufficient balance kept up to meet your future orders on demand.

When I mentioned about the government allowing a credit for stamps I was under the impression you were a m.atch manufacturer, which being not the case I am of the opinion you will not be entitled to credit. You may however fully ascertain the fact by addressing the Commissioner of Inter. Rev. on the subject.

Gentlemen:

Your plate is nearly ready for press and stamps will be prepared in a few days.

On the 11th inst I received an order from the Bureau in your favor as follows: Mansfield & Higbee, New York, N. Y. 56,100 - $561. Is this address correct. When your Mr. Higbee called he said he wished the order prepared and delivered in parts at different addresses. Will you please advise me as to the particulars of this division and as to the separate addresses.

Dear Sir:

Yours of the 8th duly rec'd.

I have the pleasure to inclose you herewith proof impression of your finished die and trust you will be pleased with the engraving. I will proceed to make the plate at once and hope to have the stamps ready before the time last stated. You will please however in the meanwhile inform me what color to print the stamps and about how many you will use per quarter as I keep a thrr months supply mamufactured ahead.

In case I do not hear from you before the plate is ready for press, I will print in blue as that is decidedly my choice for your style of stamp and will print one hundred thousand stamps to begin with at a liberal venture.

Hon. J. W. Douglass
Commissioner of Inter. Revenue
Washington, D. C.

Sir:

Herewith I inclose Mr. Davis' letter of the 11th inst, with your note of reference endorsed thereon.

In answer I would say that under the old rule an imprinting credit account, such as Mr. Davis desires, could very easily be kept by treating the amount ordered as so many adhesive stamps nominally delivered, but really held in suspense, subject to future demand, either in stamps or imprinting. If demanded in imprinting I would charge the general stock with adhesive stamps equal to the number imprinted, crediting it at the same time with those imprinted and delivered, and so on until the order was exhausted. By this method the balance always adjusted itself. But, under existing regulations with regard to the daily and monthly reports of the paper account, all the operations in adhesive stamps and those in imprinted stamps, must necessarily be kept distinct from each other, and therefor the process of charging the adhesive stamps back to the stock account cannot take place without impairing the daily paper report previously made. And, on the other hand, as the total of each month's deliveries should agree with the total of stamps cared for by requisitions, no balance to imprint or other unexecuted order can exist without a corresponding discrepancy at the close of the month's account with the bureau. Hence I deem it inexpedient to comply with Mr. Davis' request. If, however, you will make any suggestion whereby the difficulties will be overcome, I would be pleased to have it.

Mr. Davis can be accommodated at any time in small or large amounts, by the city stamp dealers who are usually authorized to provide such imprinting for those requiring it.

Very respectfully

Sir:

I have the pleasure to acknowledge the receipt of your favor of the 27th inst with three hundred and fifty dollars ($350) in full payment for engraving new four cent die and making plate complete. You may send first order to Commissioner on the 2nd of Oct. with fair chances of getting it promptly filled. Please designate the stamps in your order to the Commissioner by some name by which they may be distinguished from your other stamps, and in the meanwhile let me know what color you wish them printed and if they are to be gummed and perforated.

With thanks for your kind attention, I am

Gentlemen:

By today's express I forward your order for which remittance was made to Washington on the 4th inst. as per triplicate receipt herewith returned.

The triplicate certificate of course does not in any case facilitate the delivery of orders as it is imperative that I await authority from Washington.

In the package sent today you will observe several sheets on the top that have been stuck together. Several of the stamps were somewhat defaced in the separation, not so much however, I hope, as to impair them for use. I would not have put them in but for the purpose of closing out the old paper account so that no balance of that kind might be carried interminably forward.

Isaac Pugh, Esq.
Stamp Agent

Dear Sir:

With regard to the claim of I. C. Ayer & Co. per communication herewith, I have to say that the order was correctly filled and contained in all 2864 28-48 sheets, making a total of 137,500 stamps @ 4 @ - $5500 as called for by requisition No. 362. The lot was put up in three packages, numbered 1, 2 & 3 respectively. Nos. 2 & 3 contained 1000 sheets each. Package No. 1 contained 709 sheets of stamps on the new paper and 154 sheets of old paper together with two payments of sheets, viz: 41 stamps on new paper and 35 stamps in the old paper to close out the old lot. This completed their order. The 154 sheets of old paper and the two payments of sheets making 1 28/48 sheets were on top of the 709 sheets and Messrs. Ayer & Co. have already accepted the 709 beneath as only 700 sheets and hence their misapprehension.

I have written direct to Messrs. Ayer & Co. today, explaining the matter as early as possible so they may note their discrepancy ere they proceed too far with use of the stamps.

Very respectfully

Sir:

In answer to your communication of the 14th I beg to state that the reports referred to are incorrect in both instances. In that of the 9th instant the 7/84 of a sheet of adhesive stamps should be amended to 7/54 as per my account. And on the 11th inst my account shows 2000 sheets of paper for adhesive stamps as having been received from the Stamp Agent on that day, and should have gone on the report accordingly.

Will you have the goodness to amend the reports as herein corrected?

Gentlemen:

I am informed today by the Inter. Revenue Bureau that nine sheets of four cent stamps are claimed as deficit in your order of the 29th ulto.

I desire to say the full amount was sent you, another explanation of your misapprehension is this: in filling your order of that date I used 2709 41/48 sheets of stamps printed on new paper (fibre) and 154 35/48 sheets on old paper (to close out the old stock). In submitting the lot I placed in package No. 1 709 sheets of new, and on top of them 154 sheets of old, and two fragments of sheets making together 1 28/48 sheet, or 155 28/48 sheets in all on top. You have therefore counted the top sheets correctly as to hundred and off sheets but have undoubtedly accepted the 709 beneath as only 700 sheets, and hence the discrepancy.

I send you this explanation as soon as possible hoping it will reach you in time to discover the correction. Upon your further investigation which must result as above explained, if the sheets have not been used, I beg you will advise the Commissioner and myself as to the facts.

Very respectfully

Hon. J. W. Douglass
Commissioner of Internal Revenue
Washington, D. C.

Sir:

Your communication of the 13th inst, addressed to Mr. Pugh, Stamp Agent, in reference to the shortage claim of Mr. Goldwater, has been handed to me, and I have the honor to say that I have delivered to the Stamp Agent three 25 cent stamps, equal to 75¢ for Mr. Goldwater as you request, holding your letter as a requisition therefor.

Permit me to say with regard to this claimed deficit that the order was a very exact one and the error of such a nature that it could not have passed our hands: viz: Order No. 3297 Ex. Morris Goldwater, San Francisco, Cal. 12 stamps @ 2¢, 12 @ 25¢ (two full rows six stamps each) and 8 @ 50¢ - $7 24/100, and was sent by mail in a tin box hermetically sealed.

It was the subject of former correspondence between the Bureau and Agency. This claim was then for $5.75

accompanying the stamps enumerated the items and called for but $7/24, and Goldwater had undoubtedly no right to expect more.

I am not aware that any evidence has been presented at the Bureau and certainly none has been given here, to support the cliam or show whether the package was opened by a responsible person, or, as to how it was treated prior to the discovery of the discrepancy.

I beg very respectfully to call your attention to a principle of settlement as apparently adopted in this case which I hereby suggest as not just to me, if I am expected to make good such alleged deficiencies, especially as under the new regulations, the Agency should assume for the Government the correctness of deliveries made by me. This is a small matter as far as the money value is concerned; but I presume your request to replace the stamps calimed to be missing is in the nature of a requisition and I have thus treated it. Otherwise my account and balance will be much confused, and display an irregularity which

Isaac Pugh, Esq.
Stamp Agent

Dear Sir:

In reference to the deficit alleged by Mr. J. L. Clark to have existed in his lot of Oct. 5/71 I have only to say that there were 1047 130/170 sheets of his private die stamps - $2200 - in the order when it was filled and shipped from here. The facts are impossible to be otherwise. No one else gets stamps from the die and the balance on hand is now correct, and as the sheets are counted in each separate process of manufacture and their history is unbroken since the commencement of the use of the stamps, there is no possibility for me to have made any mistake without immediately becoming aware of it. I had on hand at the commence of the month 861 172/210 sheets, manufactured this month 2000 and delivered 1571 90/210 sheets, leaves a balance now of 1290 82/210 correct by actual count.

Mr. Clark has no doubt shifted one of the paper markers between the hundreds in his package or else has made a miscount.

Sir:

I have the pleasure to acknowledge the receipt of your favor of the 7th inst with draft for three hundred and fifty dollars for full payment in advance for engraving private die and making stamp plate complete for Messrs. H. W. Newbauer Factory Proprietors of the Metropolitan Match Co. of San Francisco, Cal., as per design sent me with your letter of the 13th July last addressed to the Commissioner of Inter. Revenue.

The engraving is put in hand at once and stamps will be ready to meet your first order in about six weeks from date. Please advise me in the meanwhile about how many you expect to be requiring per year that I may have a lot ahead to fill orders on demand. Also what color to print the stamps.

With thanks for consideration

Very respectfully yours

Your new five cent stamps are now ready for delivery.

Please state (invariably) in your orders to Washington the amount wanted in five cent stamps as well as in ones, as I have no authority whatever to substitute one denomination for another in filling orders.

Your kind attention to this matter will save delay, and the trouble of making adjustments of any discrepancies in accounts between here and Washington as to the number of stamps delivered.

Dear Sir:

On today's private die requisition, order No. 729, favor Wm. J. Minshull, New York, calls for "438 stamps @ 12 cents - $52.46". This makes a discrepancy of ten cents, and the order should read either 438 stamps - $52.56, or 437 stamps - $52.44. As involving the least alteration, and to save delay in filling, I have amended the order by changing the value to $52.56 - which will increase the money value of the requisition as well as of the order ten cents, without affecting any of the other footings. Is this correct?

Gentlemen:

Your favor of the 30th ulto is at hand. I note your comments respecting the execution of the work on your new three cent die and will endeavor to make such improvements as you suggest in die vignett head but cannot hope to come much nearer the mark in so small an engraving.

I have finished the engraving of the three cent die and am now ready to proceed with the one cent. I have no objection whatever to complying with your wishes in respect to the terms you mention and if you prefer I will complete plates of the two denominations so that you may have the use of both dies in the meanwhile, paying me now $350 for the one cent and in the spring the balance $200, for the three cent die -

I await your advice in respect to this matter and remain,

Your order for $12500 Inter. Rev. Stamps dated at Washington Nov. 1st inst is executed today, less $4170 - withheld for want of 1¢ and 6¢ proprietary stamps. Orders for the new stamps, from all sources recently, have been very heavy and the drain on the proprietary stamps has been unusually great; new plates however have been prepared and put to press and in a few days the trouble will be passed and all orders can be promptly filled as usual. The items due on your order are 1500 sheets 1¢ prop'y and 100 sheets 6¢ prop'y - the former I will have shipped you on the 6th inst and the 6¢ prop'y on the 7th - Asking your indulgence, I am

Sir:

Your communication of the 1st inst addressed to the Hon. Commissioner of Inter. Rev., has been referred to me for reply.

I am deputized by the Government to engrave revenue stamp dies, amek plates and, and prepare stamps therefrom. The charge for engraving a private design and making a plate complete is uniformly three hundred and fifty dollars ($350). Each denomination of stamp requires a separate plate, and the charge for each additional plate is two hundred dollars ($200), provided the size and design are precisely the same as the first, excepting only the words and figures of the denomination. But if the additional denomination varies either in size or design it also will be subject to the full charge of three hundred and fifty dollars ($350). The time required to complete the two plates would be about ten weeks.

If upon learning these terms Mr. Martin decides to have the dies engraved, he will please furnish me a complete sketch of the ideas as to the required design, and if necessary I will communicate any further particulars on the subject.

Very respectfully,

Sir:

I have the honor to herewith submit a statement of the balance of distinctive paper on hand at the close of business for the month of October. As the last stamp requisition of the Internal Revenue Bureau, for each month, does not reach me until the next day, my balance of stock cannot be conveniently taken until the first day of the subsequent month. Hence the following balance is inclusive of the operations of the first instant. (Report No. 112).

viz:

In reviewing the copies of reports for the last month I notice on No. 104 Oct. 23, in fractional parts of private die paper delivered, I have written 40/70 instead of 40/72. The latter is correct and the report of that date should be changed to that effect.

Sir:

Your favor of the 16th inst at hand. Inasmuch as our telegram of the 15th inst was necessary to adjust a discrepancy entirely on your side I agree with you that I should be reimbursed the amount, viz. $2.85. The correctness of this amount may probably be verified by the figures on the lower margin of the telegram sent you, the office at this end declining invariably to furnish recepts for amounts paid for messages sent.

I have the know to be very respectfully,

Gentlemen:

Yours of the 23d inst addressed to the Commissioner Inter. Rev. is referred to me for reply.

I am authorized agent of the government to engrave private stamp dies, make plates, and prepare stamps therefrom. The charge for engraving a private die and making a stamp plate complete is uniformly three hundred and fifty dollars and the time required to do the work about eight weeks.

You may send me a sketch of required design and I will endeavor to render the engraving according to your wishes.

Gentlemen:

Your favor of the 28th to hand. The charge for engraving a private die and making a stamp plate complete is the same as it was a year ago; viz: three hundred and fifty dollars ($350) and the time required to make the same about eight weeks. The commission allowed by the government to proprietors of private dies is, I believe, ten per cent on all amounts over $500 at a time.

Please furnish me with a rough sketch of design showing size and denomination of stamp required and I will give the matter due attention.

Gentlemen:

I had supposed that according to my advice of the 14th August last, to Mr. Supervisor Foulke, you had already arranged the preliminaries with regard to having a deposit of stamps in quantity on hand at the U. S. Asst. Treasury at San Francisco, and I regret the inconvenience you will probably suffer by the delay in accomplishing your object now that the stamps are ready for use.

The Commissioner of Inter. Rev., Washington, D. C. is the only one with whom you can arrange with regard to the supply to be deposited with the San Francisco Asst. Treasurer, and all I can do is to refer your communication to him for reply. I would advise you however to address him directly on the subject so as to insure attention.

Dear Sir:

Your order No. 9771 $125000 Inter. Rev. Stamps is executed today less $32,300 withheld for want of stamps. The difficulties in preparing an adequate stock to meet the large demand have not yet entirely been overcome but will be in a very short time. The balance remaining due your account consists of 500 sheets 5¢ Gen'l, 600 sheets 25¢ and 300 sheets 50¢. Some of each of these denominations, however, are included in the lot sent you, and perhaps will last until the balance due is forwarded you which will perhaps be on the 18th or 19th inst.

Dr. Jas. C. Kerr
Cincinnati, Ohio

Dear Sir:

The stamp submitted for your favor of the 3d inst. and herein returned, is undoubtedly genuine. It can only have been obtained by outside parties, either from a genuine bottle or from some plate after it has been delivered to you; as to just how or where, of course, I am unable to say. I would suggest, however, that you invariably place your stamps on the bottles in such a manner that they will be effectively destroyed in reading the contents. This will meet the legal requirement and at the same time protect you from the liability of counterfeiters of the preparation to refill your bottles.

You have had stamps as follows since the plate was altered from a six cent, viz: Mch 18/71 - 5250, May 3/71, 7875, Sep. 19/71, 2625, Dec. 16/71, 2625.

To J. C. Ayer & Co., Lowell, Mass.

11956 24 46 550000 1 $5500

Gentlemen:

I send you on account of this order an instalment of 8956 24/46 sheet equal to $4120, leaving a balance of 3000 sheets (1380), which will be sent you in a few days.

I am now preparing a new plate for your one cent stamp so as to present a better impression of that denomination - with your indulgence in this instance therefor you may expect to see an improvement in the next order filled.

Very truly yours

Jos. R. Carpenter

John T. Pingree, Esq.
Auburn, N. Y.

Sir:

Your note of the 20th inst, on the subject of a two dollar stamp of the latest issue, has been referred to me by the Commissioner of Internal Revenue, who says the stamp submitted by you has been returned.

I am the manufacturer of revenue stamps for the government. The first issue of the two dollar stamps of the design in question was made by me to the Government Stamp Agent, Isaac Pugh, Esq., of this city, on the seventh day (7th) of September A.D. 1871. For information as to the delivery of the stamps to the public you may please address Mr. Pugh.

Very respectfully

Sir:

I note the discrepancies in the money value of the schedule sent you with the apoiled stamps of December 1871, pointed out by your favor of the 23d inst, and have adjusted them on my books accordingly.

The statement of stamps is all right, and the errors referred to were simply clerical in extending the money value.

Thanking you for making the correction and giving me note of the same, I am

Gentlemen:

I have the pleasure to acknowledge the receipt of your favor of the ninth instant remitting one hundred and seventy five dollars for balance in full of your engraving order, and return thanks therefor.

The stamps will be duly prepared and I expect to have them ready in about eight days from date. You can have them forwarded to you by mail (free) by notifying the Commissioner that you desire to have them sent in that way. Your notice to this effect should accompany each order, otherwise they will direct me to send them by express.

Dear Sir:

Your favor of the 26th ulto addressed to the Commissioner of Inter. Revenue has been referred to me for reply.

I am appointed by the government to engrave stamp plates and to prepare stamps therefrom. The charge for making a stamp plate complete is uniformly three hundred and fifty dollars ($350) and the time required to do the work and prepare a stock of stamps ahead to meet orders would be about eight weeks.

If you conclude to have the engraving done please send me a rough sketch of required design and size of stamp and I will give the work early attention.

In reply to your communication of the 9th inst addressed to Hon. Commissioner Inter. Rev. and by him referred to me, I have to say I am appointed by the Government to engrave stamp plates and to prepare stamps therefrom.

The charge for engraving a single private plate is three hundred and fifty dollars. Each denomination of stamp requires a separate plate. For each additional plate of precisely the same design and size as the first, two hundred dollars would be charged, making the cost to you for three plates, seven hundred and fifty dollars.

As the question of removing the stamp tax on matches is not at present being considered, I presume there has been no decision about the redemption of stamps that may not be required.

Mr. K. Clark, Esq.

Sir:

Your communication of the 4th instance addressed to the Hon. Commissioner of Inter. Revenue on the subject of a private die engraving, has been referred to me for reply.

I am appointed by the Government to engrave revenue stamp plates and to prepare stamps therefrom. The charge for engraving a private die and making stamp plate complete is uniformly three hundred and fifty dollars ($350) and the time required to execute the work is about eight weeks, including the time required to prepare a stock of stamps ahead.

There can be no objection to the size of the
presented by the model submitted by you

beyond that size stamps are charged for at the rate of ten cents per thousand stamps 3 1/8 inches superficial area and all other sizes in proportion. The present stamp therefore would be subject to a charge of about twenty cents per thousand stamps.

If you desire to have a plate engraved in view of the facts stated, you will please remit the cost of engraving, viz: $350 to me, and the work will have due attention and stamps prepared as soon as possible thereafter. As soon as you are notified by me that stamps are ready you may arrange with the Assistant Treasurer of San Francisco to procure you a stock through an order on the Commissioner of Inter. Revenue, and thus have them always at hand for use.

For further information respecting the engraving please address

Yours very respectfully,

Secretary of Treasury
Washington, D. C.

Sir:

Your advice of the 20th inst respecting the differences existing between your account and my report of paper on hand 1st inst, is rec'd.

Prior to sending the statement I had, as usual, taken an account of paper on hand and found it to agree with the book balance founded on my daily reports to your office, and hence I can only suppose that some clerical error exists in your account.

Assuming that our accounts agreed on the first of the preceding month I herewith submit a detailed statement of operations from that time, as embodied in the daily reports for the month of February, so that by a further comparison with your account the points of difference may at once be observed. If however the discrepancies occur prior to Feb. 1st, it will be necessary to send you statements of the preceding months. In any event I will be pleased to make any necessary explanations.

Very respectfully,

Jos. R. Carpenter

Clement Test, Esq.

Dear Sir:

After due reflection upon the subject submitted to me on Saturday last I decide and direct as follows, viz:

You will have no closet containing stamps withdrawn in any manner from the control of Mr. Lamasure. Furthermore, it is entirely in opposition to my wishes that any controversy should arise between you and Mr. Lamasure with regard to any matter of business. I wish it dintinctly understood by you that I have appointed Mr. Lamasure Chief of the Department of Stamp Delivery & Stock Room. All persons in this department are subject to his orders and must obey him as if I gave the orders myself. What he directs must be carried out promptly and efficiently. As your superior officer he will instruct you and you will do as he wishes. Pleasing him you please me. Displeasing him you will act in opposition to my express orders. It is but just to you and Mr. Lamasure that I state thus explicitly my will. Understanding the position you occupy you will find it to your interest to please Mr. Lamasure.

Very truly yrs,

Jos. R. Carpenter

Office of Internal Revenue
Washington, March 25th, 1872

Sir:

My attention having been called to the fact that the private die of Messrs. Zoiss, Daily and Smith, match manufacturers, of Philadelphia, contains nothing upon its face to indicate its character as a private die stamp excepting the word "Matches" and nothing whatever to show by what particular proprietor it is used, I have to request you to inform the gentelmen using stamps from such die that it will be necessary for them to cause their names or initials to be placed upon it in such manner that they will appear upon each stamp printed therefrom. I have also to request that if there are any other parties using private die stamps that do not contain their names or initials, you will make a similar requirement in their cases.

I will likewise thank you to observe and inform me, in case it should escape the note of this office at the proper time, that no die which might hereafter be transferred from one proprietor to another shall be used by the party to whom it is transferred until after a suitable alteration of the die has been made by a change of name or initials.

Very respectfully

Dear Sir:

Your favor of the 25th instant to hand.

The order referred to of the 14th inst reached me from the Inter. Rev. Bureau on the 18th. I was then unprepared to fill the order by 39 sheets 1¢ stamps, which I hoped to have ready that I might pack the full amount on the 19th. Encountering delay however in consequence of being obliged to move my factory - the bulk of the order comprising all but the 39 sheets was sent you by mail on the 23d inst, and yesterday the 26th the balance was also forwarded.

The first instalment should certainly have reached you at the date of your letter unless by fault of the mail, and I trust ere this you have rec'd the entire amount. If not you will please inquire at the P.O. to save you further inconvenience.

Very truly yours,

Joseph R. Carpenter

Gentlemen:

I have this day shipped per Adams Express Co. to your address, 334 imps - 2004 checks (imprinted) First Nat. Bank, Greenfield, Mass. which I trust will be duly rec'd.

The delay in executing your order in this instance is exceptional and has arisen in consequence of my removal to a new factory causing the work to be temporarily suspended. After ten days time however I will be in a position to complete orders and return them the second day after their receipt.

Very respectfully,

Jos. R. Carpenter

Hon. Geo. S. Boutwell
Secretary of Treasury
Washington, D. C.

Sir:

Your statement with communication of the 30th ulto is received.

The balance of paper on hand as reported for the 1st of March, '72, is correct. The discrepancy of 80/210 in private die paper I find is caused by an error in Report No. 63, Sep. 5th, '71, which should read, fractional parts of adhesive stamp paper delivered 122/210 etc, instead of 202/210 etc. This error is noted in my account but I have inadvertently failed to advise you of it.

Mr. Pugh, Stamp Agent, has reviewed the account of deliveries of that date and certifies on the paper herewith to the fact of the required correction.

Very respectfully,

Jos. R. Carpenter

Gentlemen:

The white paper from has been received and is put in by me.

Your advice having been received too late to affect the filling of your $800 order, I executed it in adhesive stamps and amended your regular order sent on the 9th so as not to include any adhesive stamps in it. The last account of paper on hand is correct. I have about seventeen reams additional but I am afraid it is too rough and too much shrunk from having been wetted after printing to be available for wrappers.

Gentlemen:

I am in receipt of your favor of the 10th inst and note discrepancy referred to.

The Government requisition on me bearing your order No. 1939 calls for only 6000 stamps equal to $500 and not $325, as stated in the Commissioner's notice to you.

An oversight either in the wording of the letter or the drawing of the requisition has evidently been made at Washington, and the Hon. Commissioner will no doubt make it all right, upon your reference of the matter to him.

Your favor of the 9th instant is at hand.

I must have overlooked the request of yours of the 20th Oct. last or I would have given it a prompt reply, and the notice to the same effect of Jany 15th did not reach me.

In reply however I would state that your stamps are manufactured ahead, and I have yet remaining on hand about $2000 worth, these of course it will be necessary to use first, but, as soon as the new lot comes in from the printing department I will execute your wishes in regard to the perforating.

Gentlemen:

Your favor to hand. The stamps referred to were sent you yesterday. I regret exceedingly the delay that has occurred in this instance and must assure you that it was only in consequence of my having to remove to a new factory which retarded my manufacturing operations for a few days. I fully noted your very large demand for stamps and have entered printing orders accordingly - intending to keep a three month's supply constantly on hand - and would have done so but for the obstacle stated.

In a few days I will have all my means again perfected and have no doubt that future orders will be executed with promptness that will be satisfactory to you.

Dear Sir:

Some of the Match Manufacturers having notified me not to gum their stamps in future, stating as a reason that they invariably use paste in applying them to boxes, I am prompted to inquire if the gum may be dispensed with on your stamps.

In the process of manufacturing, the principal delay is in drying the gummed stamps, particularly at this season when the prevailing damp weather seriously interferes with the operation, and if your stamps can be used just as well without gum, thei preparation may be greatly facilitated.

Very respectfully,

Jos. R. Carpenter

Gentlemen:

You certainly can have your stamps without gum if you prefer, and they can be manufactured with greater facility without, as the humid atmosphere at this season frequently delays orders for the reason that the gummed sheets will not properly dry. I therefore understand that you wish the gum dispensed with and will act accordingly.

Hon. Geo. S. Bontwell
Secretary of Treasury
Washington, D. C.

Sir:

Herewith please find the row of 14 stamps of one cent each of the Safety Match Company, to supply the omission in the spoiled lot of April, 1872, noted in your communication of the 22d inst.

Very respectfully

Gentlemen:

Your favor of the 21st inst. to hand. The new die will probably be finished and a proof impression submitted to you in about two weeks from date, when you will please advise me what color to print, and about how many stamps you will require per year. Upon the basis of this information I will prepare an adequate stock to keep ahead of orders.

Orders should be invariably sent to the Commissioner of Inter. Rev. Washington, D. C. indorsing the duplicate certificate of a U.S. Agt. Treasurer (or Designated Depositary) of a deposit made covering the value of stamps ordered, the Commissioner will then make a requisition on me and the stamps will be sent you from here direct. Observe to mention in your orders that you require "two cent" stamps from your "private die."

The commission allowed by the Government is 5% on remittances of $500 or less and 10% on amounts <u>over</u> $500.

Very respectfully

Jos. R. Carpenter

Dear Sir:

Your favor of the 23d inst is at hand.

The order referred to was filled pursuant to the government requisition for the amount, and in case any adjustment is necessary I beg you will refer the matter to the Hon. Commissioner of Inter. Rev. as I am entirely without authority to make any changes in the requisition.

Very respectfully,

Jos. R. Carpenter

Gentlemen:

Having inadvertently mislaid fourteen of your stamps you will please find that number short in this order and the amount in value made good by the substitution of an equivalent in three cent postage stamps.

Trusting this manner of adjustment the account will not be ogjectionable to you, I remain

Very truly yours,

Gentlemen:

Your favor of the 17th inst is at hand.

I can inform you that I have about 7000 sheets of your stamps on hand hence there is no imminent danger of any delay in filling orders. I am happy to impart this information, not that I am fond of prairie grouse, but because I am pleased to have large orders for stamps and to be able to fill them without delay.

I imagined the market would become bare of matches and hence prepared a good stock of stamps ahead - in I shall ever care for the Great West and give them all the light needed.

Sir:

In answer to your communication of the 15th inst, I would state that I can find no overplus of five stamps of the Star Match Co. to account for the deficit of that amount in the Spoiled lot of May 1872, recently sent you.

However, I enclose you the requisite stamps from the general balance on hand for which I have substituted an equivalent in postage stamps to reimburse the Star Match Co. for the five stamps that will be short in the filling of their next order.

Gentlemen:

As the Treasury Department have requested me to send them 5 of your stamps to supply a deficit of that number in a spoiled lot sent to Washington for destruction, I have used five stamps from the good balance, sending you that amount short in this order. To reimburse you however I hand you their value in three cent postage stamps and trust you will make no objection to this mode of adjustment.

Gentlemen:

Your letter of the 17th inst and telegram of today are just rec'd. We have about 7000 sheets of your stamps ahead and will fill your orders duly on receipt of Government requisition from Washington. The order was shipped you on the 11th - one on the 12th inst and another goes today. The entire 7000 sheets are gummed but the next lot made will be without gum. I shall take good care that your stock on my hands does not run down and if the stamps do not reach you promptly the fault will not be here.

I am very truly yours

Dear Sir:

Your order is executed today with ungummed stamps. I make this note from the fact that the Government requisition bearing the order contains three of your stamps gummed and words endorsed "Same as enclosed."

The stock of your stamps on hand here, which is large at present, is all ungummed but if you particularly desire it I will have it all gummed although I would greatly prefer to deliver them to you as they are and commence gumming on lots that are subsequently printed.

However if you will please advise me as to your wishes it will give me great pleasure to comply therewith.

Gentlemen:

Your favor of the 8th inst to hand. I very much regret to say that while I duly instructed my chief of perforating that your sheets were to be perforated in sections of four stamps each, he has again entirely overlooked the matter in a recent large lot just prepared.

I am mortified that your request has been repeatedly overlooked and when like occurrence hereafter I will immediately prepare a duplicate lot to meet your wishes.

Messrs. L. W. Warner & Co.
New York City, N.Y.

Gentlemen:

Your favor of the 16th inst is before me.

I find it impossible to conceive how your order filled on the 19th ulto. could have been seventy five sheets short of the number (267 71/187) called for on the invoice accompanying the lot. The slip which you found could have had no reference whatever to the quantity sent but was accidentally placed with the lot after it was counted from the balance and packed for shipment. Whenever an order is executed in part, I invariably make a memorandum on the invoice showing the quantity sent, and endorse on the outside of the package the value of contents only. Furthermore there is, and always has been, an accurate account kept of the number of sheets printed from each die, and each kind forms a separate and distinct account by itself; and when an order is filled the deduction is made and the balance counted and proven to be correct before the stamps are permitted to be shipped. I have now before me a consecutive account of the manufacture of stamps from your die from the very first sheet on Nov. 1862 down to this day, showing when every lot subsequent to the first lot was added to the balance, and also the state of the balance after filling each order, and the balance on hand at this moment is correct to a stamp after accounting for the full amount, 267 71/187 sheets - 50,000 stamps, delivered on the 19th ulto. For instance, after filling your order of May 21st last, the balance was

	165,348	stamps -	884 40/187 sheets
Deduct order June 19th	50000	"	287 71/187 "
Leaves Balance on hand	115,348	"	616 156/187 "

If you have merely taken the slip which you speak of as evidence without counting the sheets when you received them, you have been thereby misled as to the actual fact - and it would seem to indicate great want of care on the part of your subordinate; but, if you counted the sheets and found only 192 and the odd stamps instead of 267 71/187, the case is very different and I am nonplussed as to what to think of it. If any sheets were over in my hands it would give me pleasure to send them to you at once so as to vertify my accounts which I am required to keep correct, but as the cast stands I have no means whatever of satisfying your claim, and while confidently believing that it arises entirely from your having been misled by the slip referred to, I beg you will reinvestigate throughly on your side, and let me know the particulars of the result at early convenience.

In reply to your communication of the 25th inst. the difference between our balances of private die on hand July 1st inst, is evidently the result of our having posted 40/46th of a sheet delivered June 6th as 40/66th. Such an error would make the exact difference, viz:

Your account	433053 sheets	$\frac{38}{66}$	$\frac{42}{46}$
	subtract		$\frac{40}{46}$
	433053	$\frac{38}{66}$	$\frac{2}{46}$

Sir:

I am in receipt of your favor of the 24th inst.

The directions of the Inter. Rev. Bureau were to send your late order by "express."

I notice that the requisitions at present are made out by a strange hand, so I imagine that when the regular clerk returns you will not suffer from a repetition of the oversight.

Gentlemen:

The checks of McKim & Co. returned by you for the reason that the parties refused to receive them because of their being "soiled" in the operation of imprinting the revenue stamps on them by me are at hand.

I have carefully examined the lot and in my opinion it is not spoiled. It is true the sheets are slightly tinted on a line with the stamps, but this is often unavoidable under the circumstances, for you will recall that at your request a new plate had to be made to accommodate the lot with the old style stamp, and new plates until used a certain time are liable to imprint just such a tint on the sheets.

Under the circumstances therefore, I will beg you to prevail on Messrs. McKim & Co. to take this lot, and hereafter I will see that these wishes are more fully observed if possible. By so doing they save me pecuniary loss and at the same time not discommode themselves in any way. When the books are exhibited to them after binding the tint will not be nearly so perceptable.

I the lot by today's express.

Very respectfully

Gentlemen:

I am in receipt of your favor dated Aug 6th, referring to stamps that were recently received by you in bad condition, being stuck together.

I do not think there was any fault in the packing of the stamps as all necessary precautions are invariably taken to protect them. But during as damp weather as we have recently had and are now having such accidents cannot be entirely avoided.

In a future case of the kind please return to me (at once) any sheets that may be stuck together and I will separate them and return them to you with the least possible delay.

Very respectfully,

Sir:

On the 6th and 10th instants I filled orders for the New York Match Co. of $1210 each. That of the 10th was covered by an order on the requisition received the following day while no regular order to cover that of the 6th has as yet been received by me.

Please have the goodness to supply this omission on the next requisition and oblige

Sir:

Your telegram of the 19th inst authorizing the use of chameleon paper for private die stamps, is at hand.

I learn today from Mr. Bemis, Agent at the mill, that a new supply of the regular white paper can be ready in instalments by the latter part of next week, provided you order it at once. In this case I could get through without using the chameleon paper for private die stamps, and respectfully submit to you that this would be much better. The proprietors of private dies use their stamps as trade-marks and are particular to have all their characteristics preserved and would generally object to the tinted paper. Besides, this I desire to save the serious confusion in my accounts and relations with the government that would follow the use of both kinds of paper for private die stamps. There are about 450,000 sheets of the chameleon paper on hand at present, but this will be required at the rate of about 50,000 sheets per month for bank check and general proprietary stamps as heretofore.

In view of the facts stated I beg therefor you will at once give the necessary order that a stock of the white fibre paper be prepared and instalments sent here as soon as possible.

I will probably require one million sheets in the next ninety days.

Very respectfully,

Sir:

In answer to your favor of the 19th inst, I have to say, you should pay the Government for the value of stamps to be imprinted, either directly to the Commissioner of Internal Revenue, or, you may, particularly if the amount be less than fifty dollars, inclose both the stamp value and the amount of charge for imprinting, with the package of blank frafts, and send the whole to me by express (prepaid), and I will then pay the Government through one of the stamp dealers here, and return your drafts duly stamped. A few oversheets should also be forwarded.

To estimate the cost, deduct 2½% discount on the stamp value and add my charge for imprinting at the rate of one penny a sheet (or pull) for six or less drafts to the sheet; or ½ penny for impressions of only one draft to the sheet.

Sir:

Communication of the 21st inst advising me of the propriety of addressing your office on the subject of supplies of paper for stamp printing, is at hand, and due note made thereof.

In connection herewith I beg leave to express to you my obligations for the telegraphic information that orders had gone to the mills to forward the paper as soon as possible.

Very respectfully,

Gentlemen:

Your favor of the 25th inst to hand and advice in regard to your acquisition of Messrs. Bock Schneider & Co.'s private die is duly noted.

I would inform you that in such case it will be necessary for you to insert the name of your company, or the name or initials of the new firm, on the die before it will be approved for your use by the Commissioner of Inter. Revenue, as well as to erase the name B. S. & Co."

My charge for making the alteration would be one hundred dollars.

Please advise me further, as to what name or initials to substitute, and oblige,

Yours very respectfully,

Gentlemen:

Your favor of the 9th inst addressed to the Commissioner of Inter. Revenue has been referred to me for reply.

I am the agent of the government to engrave plates and prepare revenue stamps. The charge for engraving a private die and making stamp plate complete is invariably three hundred and fifty dollars ($350) and the time required to do the work about six weeks.

Stamps are furnished of the ordinary size without charge for manufacture but for increased sizes there will be a charge to cover the cost of extra printing and perforation. In ordering engraving please send me a rough sketch or description of design and the work can be executed and stamps prepared probably in about six or eight weeks from the receipt of your order. When a plate is made an ample stock of stamps is prepared and kept on hand in advance of orders.

Very respectfully

Gentlemen:

Yours of the 23d inst. at hand, but the previous communication referred to has not been received. The charge for engraving a private stamp plate is uniformly three hundred and fifty dollars ($350), and for each additional denomination or plate of the same design as the first, two hundred dollars ($200). For your two plates therefor one and two cent (provided both designs are alike) the charge would be five hundred and fifty dollars ($550).

Stamps are furnished of the ordinary size without charge for manufacture but for increased sizes there will be a charge to cover the cost of extra printing and perforation.

In ordering stamps engraved please send me a rough sketch or description of design and the engraving can be executed and stamps prepared probably in about six to eight weeks from the receipt of your order. When plates are once made an ample stock of stamps is prepared and kept on hand to meet orders.

Very respectfully,

Gentlemen:

There are on hand, from the private die of Messrs. Bock, Schneider & Co., 472280 prepared stamps, which I have no doubt the Commissioner of Internal Revenue would permit you to consume upon your application to him, stating the fact that you have acquired an interest in the die, and accompanying your application with a certificate of the transfer signed by B.S. & Co. and perhaps he might also authorize sufficient additional old stamps prepared to last until the alteration can be made to suit the change of title.

It would probably take about two weeks to alter the plate and have stamps prepared therefrom.

Gentlemen:

At the personal request of a gentleman who called here today, I herewith submit to you specimens of the two designs of stamps printed by me on checks and drafts. Unless the round stamp is specially ordered however I invariably print the Washington head stamp.

I will be pleased to have your orders and will execute them promptly. Inclose your remittance (in cash preferred) with the checks or drafts to be stamped, and send it to me by express prepaid.

I charge one penny an impression of six or less checks each, and a half penny of only one check to the impression, on the stamp value of $100 or less, 2½% discount will be allowed, over $100 three%.

Gentlemen:

The matter of your having acquired the right to use the stamps from private die of Messrs. Beck, Schneider & Co. has been referred to me by a gentleman personally applying at my office today.

As I before noted in my correspondence with the "Paragon Match Co." the plate should be altered to suit the new firm title, and to make this change you will be required to pay (in advance) one hundred dollars.

There are on hand of the original die 472,280 stamps ready for delivery which the Commissioner of Internal Revenue would probably permit you to use during the time (about two weeks) the new plate is being made.

Dear Sir:

I hand you herewith another sheet for that returned.

Upon your late notice of fault in the quality of the tinted paper I found by investigation that the difficulty arose from using a lot of paper that had been wetted at the late fire (Jayne Building) which had not been subsequently dried thoroughly, and hence had become rotton. This paper was recently made into the present stock of proprietary stamps (principally one cent) and is pretty much all bad. There is <u>some</u> difference in it however and I have directed that in future the best must be selected for your orders. It will not be very long, I am glad to say, until all this stock is used up and then of course the remedy will be complete.

Please send me what you have of the rotten sheets and I will give you others for them.

Very respectfully,

I telegraphed you today to send me at once thirty five additional sheets of Vose Bros. checks for that many spoiled by me. The fault was in the printer's having overlooked the direction to print the "round" stamp instead of which he printed so many of the Washington vignette stamps. Of course you will please furnish these extra sheets (provided the has been preserved) at my expense, the amount to be deducted from the costs of stamping.

The cost of stamping will be as follows:

I was not aware that I had stated the charge to Mr. Bock at only seventy-five dollars or I would have adhered to it in my note to you. That am't was found some time ago inadequate to the labor and expense of such work and was increased to one hundred dollars. However I can still give you the benefit of my statement of May 11th and hence return you $25 herewith inclosed, the receipt of which you will please acknowledge.

Gentlemen:

Spoiled sheets cannot be stamped by me and issued for samples except the government stamp tax is paid at the rate of two cents for each stamp. Hence the oversheets in your lot have been destroyed by me.

Please remit to cover costs as follows:

1000 checks stamped @ 2¢ less 2½ off	$19.50
Printing 200 imps. @ 1¢	2.
	21.50

You state your charge for the thirty five over sheets, viz:

Print	$1.75	
Transfer	2.	
Paper	1.30	5.05
		$16.45

Have the goodness therefor to send me by return mail $16.45 and a bill and receipt for $5.05, making the amt. of charge.

Gentlemen:

Herewith inclosed I hand you ten perfect stamps in place of the mutilated lot returned per your favor of the 4th inst.

I thank you for giving me the opportunity to correct oversight here which in large lots it appears, will now and then occur.

per E. Lamasure

I, Edwin Lamasure, Chief Clerk of the Delivery Department of Internal Revenue Stamps, under Jos. R. Carpenter, Philadelphia, Pa., hereby declare that the account in detail of stamps delivered during the month of October, 1872, is true and agrees in every particular with the aggregate of stamps called for in the requisitions from Washington for said month, amounting in all to thirty eight million, nine hundred and ninety three thousand, five hundred and twelve (38,993,512) stamps: and I also declare that having verified and proven said requisitions, I with assistants, made out and filled the item bills of the separate orders thereof, proven also in dollars and cents as well as stamps; and, after finding the correct filling of each individual order by counting the sheets and stamps thereof, as well as by the general balance of stock taken after filling the daily orders, have packed and sealed up thoroughly said separate orders for stamps, and delivered said package or packages to the Stamp Agent, Isaac Pugh, Esq.

Gentlemen:

Your communication of the 4th inst. addressed to the Commissioner of Inter. Rev. has been referred to me.

Please advise me direct as to whether you want "Greenleaf & Co." taken out of the stamp. It will be quite as expensive to put in the initials (B.J. & Co.) as Barber Jones & Co. instead of Greenleaf & Co. The charge is seventy five dollars for the one die, or denomination.

I have the pleasure to acknowledge the receipt of your favor of the 18th inst. bringing me remittance of $550 for engraving two and four cent stamp plates, for which please accept my thanks.

Stamp orders should be addressed to the Commissioner of Internal Revenue, Washington, D.C., inclosing the duplicate of a certificate of deposit with the U.S. Asst. Treasurer of your city covering the amount of stamps ordered, and you should mention in your order to the Commissioner that you require stamps from your "private dies" in such quantities of the respective denominations as may be wanted. The Commissioner will then make a requisition and one cent stamps (now ready) will be sent you direct, at once.

Your favor of the 9th inst. is at hand. The stamps from your new die will be ready in a few days. In the meanwhile however it will be necessary to consume the old balance of about 1725 sheets Bock Schneider & Co. stamps before commencing to issue the new stamps. They shall be ungummed as you request.

Adams Express Co. had and I think still have a contract to carry stamps to New York City for twenty five cents for each thousand dollars of face value, and hence their charge to you of $1 for carrying $1100 of stamps from here was an extortion. Apply to the company for information and redress and if they fail to give it you can refer the matter to the Commissioner of Inter. Revenue.

Gentlemen:

Your favor of the 23rd instant with remittance of $19.10 for printing second lot of stamps, to hand, for which I return thanks. This leaves a balance of $2.70 for printing third lot, which also please remit.

I am indirectly informed by the Internal Revenue Bureau that the long delay in settling the late exchange order was in consequence of the great amount of exchange business then on hand, resulting from the changes made by Act of Congress going into effect Oct. 1st ulto.

Gentlemen:

I have to acknowledge the receipt of your favor of the 29th ulto with $2.70 in payment of my bill for printing, for which I return thanks. I find however that I have made an overcharge as the $2.70 was included in the bill of $19.11 paid by you, but at the same time I neglected to charge you $1.15 freight on the first lot of checks sent me, which you neglected to prepay. Hence the difference, $1.55 is placed to your credit in my account.

I will procure the paper and print the stamps according to your last order.

Gentlemen:

Your favor of the 4th inst at hand.

Allow me to sincerely thank you for the correction of my oversight in oversending you the 200 sheets of No. 2 stamps. I think your course in retaining the sheets until advised by me was correct and it has caused me no complication or or inconvenience whatever. My account of stock on the first of the month revealed the discrepancy and of course I knew just where the sheets must have gone.

Gentlemen:

I regret very much to say that your orders to have your stamps ungummed were accidentally overlooked and a stock of 12000 sheets has been prepared with gum on them all. I presume I received your advice referred to, but it must be mislaid as it cannot be found on file. However I trust to your good nature to pardon my oversight in this instance and I promise that future manufactures will be without the gum, as you wish.

Gentlemen:

Herewith I have the pleasure to present you a proof impression of your die as amended to suit the new gum. It now remains to make the plate and prepare a stock of new stamps, in the meanwhile, however, I shall have the precaution to prepare sufficient of the old die to meet your wants.

Your account being due at this state I present the same also & remain

Messrs. Van Vosburgh & Co.
Star Chemical Works
Rochester, N. Y.

Gentlemen:

Your letter of 15th inst addressed to the Commissioner of Inter. Revenue has been referred to me for reply. The former communication mentioned did not reach me.

I am the appointed agent of the government to engrave revenue stamp plates and to prepare stamps therefrom.

The charge for engraving a private die and making a stamp plate complete is uniformly three hundred and fifty dollars ($350) and the work can be executed in about four weeks time. Each denomination of stamp requires a separate plate, and the charge for each additional plate, when the design of stamp is precisely like the first, differing only in the letters and figures of the denomination, is two hundred dollars ($200), making the cost of two denominations five hundred and fifty dollars ($550).

Stamps from private plates are furnished without cost for manufacturing when they do not exceed the size of common proprietary stamps of equal denomination; but for increased sizes there is a prescribed charge per thousand stamps for extra printing, etc. according to the excess of size.

Stamps from private dies are manufactured ahead and kept on hand in ample quantity to meet all orders for them on demand.

For other particulars please address, inclosing a rough sketch of design and size of stamp required.

Yours very truly

Gentlemen:

I am in receipt of your favor of the 30th ulto and note the prospect of a further shipment of No. 2 paper.

I regret to learn that the 500 packages of No. 2 wrappers are found to vary in count. In the aggregate I have no doubt they are correct and can only attribute the difficulty to some mixture in separating the spoiled from the good wrappers immediately after cutting the sheets. The sheets are invariably counted in 500's and proved to be correct before the cutting is commenced. I filled your last order today unfortunately, just before your note was received, and therefore did not have an opportunity to examine the total. Hereafter however I will take good care that the parcels sent you are uniform in count.

Sir:

Your favor of the 24th ulto addressed to the Commissioner of Inter. Rev. has been referred to me for reply, as to preparing your private dies for revenue stamps.

As to the matter of a bond in blank, I presume the Commissioner will give the information direct.

I am the authorized agent of the government to engrave revenue stamp dies and print revenue stamps. The charge for engraving a private stamp and making plate complete is uniformly three hundred and fifty dollars ($350). Each denomination of stamp requires a separate die and plate, but for two denominations or plates of the same general design I would charge five hundred dollars ($500). I could have the plates made and stamps prepared therefrom in about six weeks time.

Sir:

I am in receipt of yours of the 18th inst and make due notes of advice. The alteration of the die will be put in hand at once and as soon as the new plate is ready the amended stamps will be prepared. I shall endeavor in the meanwhile, and at all times, to keep a full stock (3 mos. supply) of your stamps on hand.

Very respectfully,

Gentlemen:

On the 19th February last I shipped you by Adams Express Company 250 impressions, 4 each, making 1000 Peabody drafts, bill for $22 by mail, requesting you to remit check for the amount which being small was not sent C.O.D. for the purpose of saving you the extra charge for collection. Not getting any response down to the 11th inst I sent you a further statement on that date, and still hearing nothing from you I now place the bill in hands of Adams Express Co. for collection, hoping thereby to get a report as to your disposition in the matter.

I send this communication by registered mail to make its receipt by one of your company the more certain.

Very respectfully,

On requisition No. 1255, I. D. Howe's order (No. 3715) is for 10500 one cent stamps when it should doubtless be 2625 four cent. I have therefor filled the order in the latter denomination and amended the footings of the requisition accordingly, making the new total 923392 stamps.

Secretary of the Treasury
Washington, D. C.

Sir:

In answer to your letter of the 24th inst, my statement of the balance of Distinctive Paper on hand March 1, 1873, appears to be correct and hence I believe the difference between the Treasury account and my own is probably the result of error in calculating or aggregating the deliveries of the month prior to March 1st.

In the Adhesive Stamp Paper balance your account differs from mine in one fraction only, viz: you have $\frac{141}{210}$ against my $\frac{61}{210}$

The latter is according to stock account and agrees with the balance brought forward the preceding month, less the aggregate of deliveries in February, viz:

Feb. 1 Balance forward (210)

Delivered in Feb. viz(3d) 52 (5th) 21 (6th) 66 (7th) 162 (8th) 48 (10th) 149 (11th) 168 (13d) 27 (14th) 199 (15th) 28 (17th) 189 (18th) 60 (19th) 203 (20th) 114 (21st) 185 (24th) 199 (25th) 74 (26th) 32 (27th) 162 (28th) 160 (March 1st) 158

Total $\frac{2456}{210}$ or 11 $\frac{146}{210}$

March 1st Balance (210ths) _____ 61

Of the Private Die Stamp Paper, the Treasury account of balance is 696671 against my 696681. In this I appear to be correct both from account of stock and balance brought forward as per statement, viz:

Sir:

As it is necessary to place the word "match" or "matches" on your die in order to comply with the department regulation requiring the purpose for which the stamp is to be used to be designed, will you have the kindness to inform me if yours is any particular kind of match? This addition must of necessity be placed at the sides within the vignette medallion, and as there should be wording at both sides to preserve the balance, I can either repeat the word "matches" or may put "percussion" on one side and "matches" on the other.

The stamp is now in the engraver's hands and your early reply will oblige

Gentlemen:

Your checks as per favor of the 5th inst at hand.

A difficulty arises that by my process (steel plate printing) I cannot stamp the checks unless the sheets are first cut to give six checks each lenthwise. I know how to cut them as to margin but don't know whether it can be managed accurately enough to avoid spoiling some of them. Please advise me at once whether to cut or not.

Gentlemen:

Your favor of the 30th ulto addressed to the Commissioner of Inter. Revenue has been referred to me for reply.

I am the authorized officer of the government to engrave revenue stamp dies and prepare the stamps. The uniform price for engraving a private die and making plate complete is three hundred and fifty dollars, and the time required to do the work and manufacture an adequate stock of stamps ahead to meet orders is about five weeks. The sketch presented by you is entirely sufficient for our artist, and its size being say 5½ x 3/4 inch - 4 1/8 superficial area, the stamps would cost you about eighteen cents per thousand for the extra labor and material in their manufacture: the ordinary sized stamp 63/64th inch sup. area) being subject to no charge except the revenue.

If you desire to have the engraving proceed, you will please remit the charge $350, to me; and for the manufacturing I will render you accounts monthly or quarterly, according to the frequency of your orders.

As to how to order stamps and pay the revenue to the government I can duly advise you hereafter.

Gentlemen:

Returned sample of your partially engraved stamp with approval is at hand. The work will be completed and stamps ready by the third proxo. Please advise me what color to print the stamps.

In making an order you will please procure a certificate of deposit (on account of revenue stamps) from your U.S. Asst. Treasurer for such an amt. as you may require. Any amt. over $500 at a time will give you the greatest commission, ten per cent: or in other words for a certificate of $510 you will obtain $561 in face value of stamps. This certificate you will forward to the Commissioner of Inter. Rev., Washington, D. C. stating that you require the amt. in "five" cent stamps from your "private die": he will then make a requisition on me and stamps will be sent you from here direct.

Please do not send your first order to the Commissioner before the 1st of the coming month, as I will not be ready to fill the order before the 3d and it would embarrass my operations to have it any sooner. I shall however endeavor to be prepared before that time and will not fail to advise you in the meanwhile if I find it can be furnished any sooner.

Dear Sir:

Your favor of the 10th inst at hand. You can assign the use of your four cent die to the party who has purchased the right of the article upon which the stamp is used by advising the Internal Revenue Commissioner of the transfer. Under the regulations however the present stock of stamps will have to be consumed and the die altered in some feature so as to distinguish its new proprietorship. There are some 400 sheets on hand so that the new party will not be delayed while the alteration is being made. If the desired change be not very great it can be done for seventy five dollars.

Very respectfully,

Gentlemen:

Your favor of the 28th inst with returned sketch and advice in relation thereto at hand, and I am prepared to proceed with the work as soon as your order to do so is received.

The charge for engraving a private die and makeing plate complete is invariably three hundred and fifty dollars, and the work could be completed and a fair stock of stamps prepared ahead in about five weeks time. The payment should be made to me on making the order, but if it would be any more convenient to you, one half might remain until the completion of the work.

Gentlemen:

Yours of the 28th ulto to the Hon. Commissioner of Internal Revenue, has been referred to me for reply as to the engraving, it being noted thereon that he had answered you as to the commission allowed on private stamps.

The uniform price for engraving and making a plate complete is three hundred and fifty dollars ($350), and the time required to complete the work and prepare an adequate stock of stamps ahead is about six weeks. There is no charge for manufacturing stamps that do not exceed in size the general revenue stamps of like denomination, but for those of increased size a charge is made for the extra work in their preparation.

If you conclude to have a stamp engraved please send me a crude sketch of design with size, title, and denomination, either drawn or written, to give me an idea of your wishes, and the order shall have immediate attention.

Very respectfully

My charge for the alteration of I. O. Howe's Golden Pill plate is seventy-five dollars, and it will take ten days to do the work independent of the time to print stamps. In the meanwhile the Commissioner of Inter. Revenue should be informed of the transfer by Mr. Howe and he may thereupon grant permission to Mr. McCullough to use the balance of stamps now on hand. Sir:

I am in receipt of your favor of the 26th inst, and in reply have to say that there is no such thing as a confiscated plate to be obtained, nor do I see how you can obtain a plate or rather the use of private stamps without getting a new one made at the cost of $350, or, finding out some proprietor who will assign you the use of his, which, beside what it would cost you for the plate, I could not afford to alter to suit the change of title as required by law, for less than $75. As to the repeal of the law imposing the stamp tax on matches, I do not think the risk in ordering a plate would be very great inasmuch as if you do an ordinary amount of business between now and the 1st of January next, the increased commission on private stamps allowed you would pay the cost of the plate.

Gentlemen:

I acknowledge the receipt of your favor of the 28th inst submitting to me copies of communications between yourselves and the Commissioner of Inter. Revenue in the matter of changes for forwarding your stamps. I have to say that the shipment of stamps is outside of my control, that branch of the department being in the hands of Mr. Isaac Pugh, Stamp Agent, (whose office is connected with my own) he alone having the charge of forwarding, subject to the orders of the Commissioner of Inter. Revenue, and hence all I might say except as to more detail would be entirely useless. I can say to you however, that Mr. Pugh desires to please you as well as the government offices at Washington, and is now corresponding on the subject, the result of which will probably tend to some final arrangement that will be satisfactory to yourselves.

All the large companies have had their supplies forwarded by express prepaid, all of them excepting you, Richardson, Ransom & Chas. S. Leete. Your case however is somewhat exceptional from the fact that $1000 worth of your wrappers is equal in weight to $4000 in value of simple stamps, and it is possible that Adams Express Company may refuse to carry them at stamp rates under their contract with the government. From the Commissioner's letter, however, I presume he will protect your interests in this respect.

I have referred your communication to Mr. Pugh, who promises to give the matter full attention.

Very respectfully

D. M. Richardson, Esq.

Dear Sir:

Your communication of the 30th ulto is at hand, which I have referred to Mr. Isaac Pugh, Stamp Agent (his office being at my establishment) who has in charge the distribution of all stamps prepared by me, and who will endeavor to serve your interests. I will of course pack your stamps without cost to you, in a manner suitable to their proper transportation. In answer to your inquiries, in the absence of Mr. Pugh today, I can say however that nearly all our stamps have been sent by express, the exceptions being those for only two or three manufacturers beside yourself, and there appears to have been but little complaint as to the expense; although it is true that few of them require such large quantities as you do. The packages are forwarded under a contract between the Government and Adams Express Company at speficied rates per $1000 face value, the company carrying and insuring them the same as money. As to the rate to Detroit, I am unadvised, nor do I think Mr. Pugh can tell. It would be proper for you to seek information on this point directly from the Commissioner of Internal Revenue, to determine the matter definitely from the start. The contract with Adams Express Co. includes their connections with the other companies, and the rate charges on all lots should be uniform. Your present order will be shipped tomorrow and the express charges thereon may be greater than the company is entitled to make, but this you may subsequently correct under advice from the Commissioner.

I conjecture you may not be able to have your lot shipped "contents unknown," inasmuch as the favorable terms of the Express Company are based on a right to carry all stamps (not sent by mail), at the specified rate of so much per thousand dollars.

Very respectfully,

Jos. R. Carpenter

I am at a loss for a reason why your stamps stick together in the package. They are carefully packed here to avoid such mishap, and I can only suppose they are not properly kept after they reach you. J. R. Maynard, Esq.

Sir:

I am in receipt of a note from the office of Inter. Revenue, asking whether a private die has been engraved for you, to which I have answered that no such engraving has been made.

My only knowledge of the matter is that on the 6th of February last I received a letter from you to the Commissioner of Inter. Revenue, and referred to me by the latter, asking for information as to the mode of procuring private dies for a one and a five cent stamp, to which I answered you direct on the same day (a copy of said answer is hereto annexed), but not getting any reply from you in the meanwhile, nothing of course has been done towards the engraving.

If you wish me to proceed with the work now you will please advise me to that effect (remitting $350 for one die or $500 for two dies of same size) and the engraving shall be put in hand at once.

Very respectfully,

Jos. R. Carpenter

Sir:

Yours of the 24th ulto, addressed to the Commissioner of Inter. Revenue, on the subject of preparing private die for revenue stamps, has been referred to me for reply.

I am the authorized agent of the government to engrave revenue stamp dies, make plates and to prepare stamps therefrom. The charge for engraving a private die and making plate complete is uniformly three hundred and fifty dollars ($350). Each denomination of stamp requires a separate die and plate, but for two plates in denominations of stamps of the same die and design I would charge five hundred dollars ($500). I could have the plates made and stamps prepared therefrom in about six weeks time.

In the matter of the bond I presume the Commissioner will himself give you the desired information.

Gentlemen:

Yours of the 6th inst, with copies of correspondence from the Commissioner and Mr. Hill, on the subject of express charges on your wrappers, duly to hand, and has been referred to Mr. Pugh who promises to do all that he can for you in the matter.

I feel interested to serve you and will do it in any way that I can. It appears to me however that the whole hitch is on the question as to whether Adams Express Company are bound to consider yours as simply stamps. The Secretary of Treasury or the Commissioner of Inter. Revenue, or whoever made the contract with the Express Company, should be invoked for a decision on this point. If he says they <u>are</u> stamps it is to be presumed that the Express Company will sufficiently respect the decision of so good a customer as the Treasury Department as to carry them at the <u>stamp rates</u> provided in the contract.

If you should arrange it to have your stamps carried any cheaper by reason of their being differently packed I will put them up in paper, although I fear that not more than eight packs of wrappers could be put in one bundle, and as the express company charges for the fractional parts of a thousand dollars on <u>each bundle separately</u>, the charge would be increased for the money value of the total shipment as $11000 is to $5000. Still you may be able to suggest something I can do in the matter in which case I will be pleased to give you my best attention.

Very respectfully,

Jos. R. Carpenter

Gentlemen:

Your favor of the 5th inst at hand. Your second letter was never received by me, and having no response, the work was untouched. Now that I know your wishes, the engraving shall be put in hand at once and an impression showing the alteration will be forwarded to you as soon as possible. Please advise me in the meanwhile if you wish to have the stamps gummed. My advice is that you have them ungummed however, and therefor avoid the risk of their being spoiled in transmission, or, in your hands, by dampness. You must necessarily moisten the stamps on their application to the boxes and there will be as little difficulty in applying paste as in using water only.

Please notice that you have addressed me "James" instead of Joseph which will probably account for my non-receipt of your previous letter.

Gentlemen:

Your favors of the 14th instant to hand.

All you have to do is to furnish me a rough pen and ink sketch, giving some idea of design, size, denomination and wording of stamp required, remitting therewith three hundred and fifty dollars for bill in full for engraving and making plate complete; and I will put the work in hand at once and have the plate completed for you and a stock of stamps prepared in about six weeks time. Of course you cannot get the ten per cent allowance until private stamps are actually delivered to you.

Gentlemen:

I am this day in receipt of your letter of the 4th inst.

The largest "commission" allowed in private die stamps is ten per cent on amounts ordered of over $500 at one time.

The charge for engraving a private stamp and making plate complete is uniformly three hundred and fifty dollars ($350). Each denomination requires a separate plate. The charge for each additional denomination is two hundred dollars ($200), so that the two plates would cost you $550. If you wish the stamps made, please forward me a rough sketch of the desired size and wording embodying your ideas as to design also, and I will give the work due attention. The charges as above are due and payable by you upon presentation of my bill accompanied with proof impression of the engraved die or dies. Should you require larger stamps than 63/64th in. sup. area, which is the government standard size of the 4 & 6 cent denominations, you would have to stand a small charge on all stamps used for the extra cost of their manufacture.

Please observe my name is Joseph, not James.

Sir:

Your letter to the Hon. Commissioner of Inter. Rev. respecting transfer of D. M. Cennett's stamp is referred to me.

The alteration would cost you seventy-five dollars ($75) for new die and plate, and require about three weeks to complete it and prepare a stock of stamps.

If you conclude to have the die assigned to you, please assure me as to your name, I take it to be "Cary" although am not certain as your signature is not distinct. Also please furnish me a duplicate of the assignment to you by Mr. Bennett.

Dear Sir:

Respecting your advice that one of your stamp packages shipped on the 19th inst. was badly stuck together, I would reply that at this season of the year damp weather prevails to an extent as to cause risk of damage to gummed stamps in their transmission, particularly by mail. We hear no complaint whatever of the condition of those carried by express (in iron safes) and therefor recommend that you order yours sent in that way during the months of Aug., Sept. & Oct. at least. It is needless to add that the stamps are always in good condition and properly packed when forwarded from here, but of course I have no knowledge of, or control over, the circumstances affecting them in their transmission. Experience proves however that stamps are better protected against the weather in hands of the Express Company than they are in the mails.

Checks or blank paper, together with remittance, to cover cost of stamps and printing, may be forwarded to J. R. McFelridge, a stamp dealer of this city, who will give your orders due attention, and will also furnish blank paper if you require it. He allows on the stamps as follows: viz:

up to $100	2½ %	discount
over $100	3%	"
" $300	4%	commission

You will have to pay the freight both ways.

If you choose to pay the government direct yourself, you can get 5% com. on remittances for stamps of $1000 at a time, in which case you would send the checks to me, as I imprint for the trade and stamp dealers only upon direct orders from the government.

Sir:

In reply to yours of the 3d inst, that you find but 856 sheets 1¢ proprietary stamps instead of the 857 called for in August Spoiled account, I can say that said stamps were carefully counted by our expert here and made to agree with statement before their shipment to your office, and the correctness also of my account of good stock on hand Sep. 1st would seem to confirm the correctness of our count of the spoiled.

Is it possible from the fact that these stamps were somewhat stuck together that your counters were prevented from getting the proper result? If not, please return this denomination to me, intact, and if I am unable to make it full count I will be pleased to procure a sheet of similar stamps from a dealer and make the account good.

Dear Sir:

In reply to yours of the 6th inst, inquiring "What consideration can you make to me if I take my stamps without the mucilage?" I have to say, No consideration. I will omit the gum simply to accommodate you if you require it, but the additional trouble of perforating ungummed paper makes up fully for the slight difference in the cost of gumming sheets, where, in my establishment, arrangements are made to gum all the issues. As a matter of preference on my part I prefer to gum them.

In reply to yours of the 16th inst, I would say that the spell of damp weather that prevailed here for a time prior to about a week ago caused the edges of many of the sheets to become stuck together. That season being passed now I think you will not experience further difficulty. The cost of altering dies and plates will be two hundred and fifty dollars ($250).

I would alter John F. Henry's die by striking out "U.I. Medicine" and insert Curran & Co. In Scovill & Co. dies, insert John F. Henry, in place of "A. L. Scovill & Co." and Curran & Co. in place of "Cincinnati." Or I can put the initials J. F. H., C & Co. in place of names as at present on the dies and retain "U.I. Medicine" in the one case and Cincinnati in the other, just as you choose.

Very respectfully,

Jos. R. Carpenter

Dear Sir:

The duplicate certificate referred to did not reach me, and besides, you should not have sent it to me, but to the Commissioner of Inter. Revenue, Washington, D. C. as you have always done heretofore. However, as the case stands the certificate seems to be missing hence I would advise you to call on your U.S. Apt. Treasurer with whom you made the deposit of $100 for information as to how you should proceed in such case. I cincerely regret the inconvenience you must suffer in the meanwhile, but as there are plenty of your stamps on my hands, there will be no delay here in the execution of your order as soon as I am in receipt of a requisition from the Commissioner of Inter. Revenue.

J. W. Eisenhart, Esq.

Sir:

Yours of the 21st inst at hand. I am authorized by the Treasury Department to engrave revenue stamp plates and to prepare stamps therefrom.

The principal advantage in private die over other stamps is that the government allows a commission of ten per cent on the former on all orders of over $500 at a time, while on common stamps it allows but five per cent on orders of $1000 and over.

The charge for engraving a private die plate complete is uniformly three hundred and fifty dollars ($350), and the time required to complete the work is usually about six weeks. A three months' supply of private stamps is kept on hand to meet orders therefor on demand.

If you decide to have your own stamp engraved you will please forward me a rough pen and ink sketch giving size, denomination and wording of stamp as well as something of your ideas as to the required design and I will give the matter due attention. You will also please remit me the amt of charges, $350; or, if inconvenient to remit the entire amt in advance, you can pay a portion now and the balance on receipt of a proof impression of the engraved die.

If your stamp is to be government standard size, viz "13/16th inch sup. area for one and two cent stamps and 63/64th of an inch for higher denominations" there will be no charge whatever for its manufacture; but if its size exceeds the standard as above, it will be subject to a certain small charge in proportion to its increased size, for the extra labor and material in its manufacture.

Very respectfully

Gentlemen:

I am unable to adapt a plate to print the stamp in the position desired by you on the checks for the Natl. Bk, of the Northern Liberties, and also think it doubtful if the government would sanction an exception to the usual position, inasmuch as the regulations require the stamp to be so imprinted that it will be effectually cancelled in Billing up the check.

If your objection to printing the stamp in the usual position is that it will obscure the writing, I can overcome this difficulty by printing it lighter and without a background to the head, and also avoid the risk of governmental disapproval. I submit herewith a specimin of the style of stamp I propose which please return to me with your decision at earliest convenient moment.

Sir:

Herewith please find specimens. My charge for imprinting on checks is one cent a page or pull for impressions of from two to six stamps each, and a half cent for imprinting of only one stamp each. Checks for stamping should be forwarded to me with expressage prepaid, and a note of the style of stamp required - "eagle" or "Washington." The money for stamps can be sent to the Commissioner of Inter. Rev. direct, for $50. or over at a time, and $1000 will give you the benefit of 5% commission allowed. But if you require less than $1000 worth at a time, you may more advantageously order through Mr. J. R. McFetridge, a stamp dealer in this city, who will collect both revenue and printing charges, and to whom I have referred your note for reply as to the discount he allows on the stamp value.

W. B. Wiggs, Agent
346 & 348 Broadway

Sir:

I am the authorized agent of the government to engrave private revenue stamp plates and to prepare stamps therefrom. The price for engraving a private stamp and making plate complete is uniformly three hundred and fifty dollars ($350), and the time required to complete the work and prepare a stock of stamps ahead is about six weeks. The principal advantage in having a private stamp, beside the fact of it being a trademark and protector of the genuineness of the article, is that the government furnishes it to the consumer with a commission added of ten per cent on all orders of over $500 at a time, while on common stamps it gives but 5% on orders of $1000 and over.

Your sketch is sufficient for the engraver who can of course elaborate it in the engraving. Being larger than the common government stamp of the same denomination, it would be subject to a charge for the cost of extra labor and material in its manufacture according to rule as follows: Stamps 13/16th of an inch superficial area free, and ten cents per thousand for stamps 3 1/8 inches sup. area; all other sizes in proportion.

These are about the only essential facts of the case, and if in view of them you decide to have the stamp engraved, you will please advise me accordingly.

A stock of the stamps would of course always be kept on hand ahead of your orders so that they could be supplied to you on demand.

Very respectfully,

Jos. R. Carpenter

Sir:

On taking an account of my balance of stock after filling order for the Paper Fabrique Co., Cincinnati, O., on the 13th inst., it was revealed that an excess of one hundred sheets had accidentally been sent on their last order. I at once telegraphed them to acknowledge the overflow, to which they replied: "We received the one hundred sheets and paid for them January 8th in the usual way." I then inquired of the Commissioner by telegraph if the proper remittance had been made to which he replied that their certificate of deposit was rec'd.

The one hundred sheets represent 17,000 stamps (private die) at five cents, making their total face value $850. My stock balance is of course short this amount, and I would have you request that the government duly enter an order accordingly on a coming requisition, to cover the deficit.

Gentlemen:

The charge for engraving and making two plates is six hundred dollars ($600); for the single plate or one denomination only, three hundred and fifty dollars ($350). The cost for engraving is the same for a small as a large stamp, but there is an extra charge for printing and perforating stamps larger than the ordinary government sized stamps of like denomination. The two plates could be engraved and a stock of stamps prepared therefrom, in six weeks. It would be optional with you whether the stamps be gummed and perforated or not. Private die stamps are furnished by the government at the following rates: orders of from $50 to $500, have a commission added of five per cent; over $500, ten per cent. A stock of private stamps is kept on hand so as to meet orders on demand. You would probably receive stamps on the fourth day from the date of your remittance to Washington.

Gentlemen:

Your favor of the 15th inst. is at hand. I think it doubtful that the Commissioner of Internal Revenue would authorize a stamp so small as you desire. Three hundred dollars is the least price. The size of plates being uniformly the same for all sizes of stamps, the number of transfers in your case would make such a stamp equally costly with larger stamps. Besides the alteration of the perforators for so small a stamp would be very troublesome.

I do not think the tax will be taken off perfumery.

Gentlemen:

Your letter of the 15th inst addressed to the Commissioner of Internal Revenue, Washington, D. C. is referred to me for reply.

I am appointed by the Government to prepare revenue stamp plates and to print stamps therefrom. Each denomination of stamp requires a separate plate. The price for engraving one denomination or plate complete is uniformly three hundred and fifty dollars ($350); two plates or denominations, $500, and three, $650 - all of the same size, viz: 13/16th of an inch sup. area, and differing in design only as to the letters and figures of the denomination. The sketch submitted is sufficient for the engraver to work from, and it would take about six weeks to complete the work including the preparation of a stock of stamps ready for use.

Gentlemen:

I regret you have been inconvenienced by our error in your last order, giving you one cent Comfit stamps instead of two cent Household Panacea. I can assure you however I am not responsible for the fault. The order came to me on the government requisition from Washington just as I filled it, with a separate note on the requisition saying "$110 from Curtis & Brown 1¢."

I have no doubt the Commissioner of Internal Revenue will acknowledge the error and make you due amends.

Yours of the 28th ulto to hand and advice noted. The charge would be one hundred dollars ($100) to take out Greenleaf & Co. and insert Eugene A. Jones & Co. on your one cent stamp. Would you want the initials B. J. & Co. to remain? As the die would necessarily have to be relaid ere making a new plate, I could leave out the initials without enhancing the cost.

I, Edwin Lamasure, Chief Clerk of the Delivery Department of Internal Revenue Stamps, under Jos. R. Carpenter, Philadelphia, Pa. hereby declare that the account in detail of stamps delivered during the month of February, 1874, is true, and agrees in every particular with the aggregate of stamps called for in the requisitions from Washington for said month, amounting in all to twenty seven million, three hundred and ninety-nine thousand, eight hundred and thirty-seven stamps (27, 399,837): and, I also declare that, having verified and proven said requisitions, I, with assistants, made out and filled the item bills of the separate orders thereof, proven also in dollars and cents as well as stamps; and, after finding the correct filling of each individual order by counting the sheets and stamps thereof, as well as by the general balance of stock taken after filling the daily orders, have packed and sealed up thoroughly said separate orders for stamps, and delivered said package or packages to the Stamp Agent.

Dear Sir:

Your favor of the 10th inst. covering remittance of $42.66 in full of my account rendered is at hand, and I thank you therefor.

The charge referred to is for the extra labor and material in the manufacture of your stamps from the Sand's die, which is larger than the government regulations provide for. The Government allows a one cent stamp to be only 13/16th of an inch sup. area, but leaves it optional with parties who procure their own private dies to increase the size by paying a certain rate for the extra expense incurred. This rate is fixed (for one cent denominations) at 13/16th free and ten cents per thousand for stamps 3 1/8 in. sup. area, all other sizes in proportion; and three cents per thousand for perforations.

Very respectfully

Messrs. England & Bell
Baltimore, Md.

Gentlemen:

In the absence of the gentleman in charge of my office business, on the 11th inst when Mr. England called, one of the hands loaned that gentleman a stamp from the private die of the "Wilmington Match Co." on his entreaty and promise to return the same duly. The clerk who made this loan was unauthorized to do such a thing, and saw his error as soon as the gentleman left the office. As the stamp has not yet been returned to me, I beg Mr. England will not forget to duly restore it as my balance of stock is a sworn one, and whether the deficit therein be one stamp or ten thousand stamps, the principle is the same, and the routine of settlement just as difficult.

Very respectfully,

Jos. R. Carpenter

Messrs. Lanaman & Kemp
New York, N. Y.

Gentlemen:

Your favor of the 17th inst. with remittance of five hundred dollars ($500) in full payment of engraving and making plates complete, of one and three cent private revenue stamps is duly received, and I return thanks therefor. Your advice as to color and quantity of stamps is duly noted and a stock will be prepared at once and ready to meet orders on and after the 25d inst.

Orders for stamps should be addressed to the Commissioner of Inter. Revenue, Washington, D.C. inclosing the duplicate of a certificate of deposit of a U.S. Asst. Treasurer or designated depository, of a deposit made covering the value of the stamps required, stating therewith the proportion of each kind of private die stamps desired. The Commissioner will then make a requisition on me and the stamps will reach you on or about the fourth day from the date of your mailing the order.

The government allows 5% commission on private die stamps up to $500 - over $500 it allows 10%; thus if you remit a certificate of deposit for $501, you will be entitled to $50.10 in stamps additional, or $551.10 face value of stamps. On the even $500 they will not give ten per cent.

Very respectfully

Dear Sir:

I am in receipt of your esteemed favor of the 18th inst. with inclosure of one cent stamp of the Wilmington P. Match Co. loaned you on the 11st and for the due return of which you have my sincere thanks. No apology is due me and I beg you will have no regrets in regard to the matter, as you were not at all in fault. I was simply vexed that one of my hands should be so thoughtless as to inadvertently violate the regulations in principle although the amount involved was nothing. My only fear was that you might lose the stamp or by some accident be prevented from returning it.

Gentlemen:

Your favor of the 21st inst. to hand and advice noted. Checks per express with remittance inclosed is also to hand this A.M. In counting the checks for the National Metropolitan Bank to be stamped, I find these are as follows:

	1850 imps.	x 3	- 5550 checks		
	31 "	2	62 "		
Total	1881 "		5612 "	@ 2¢	$112.24

Gentlemen:

Your favor of the 20th inst. to hand. One denomination of the design referred to for die and plate complete would cost you three hundred and fifty dollars ($350), two denominations five hundred and fifty ($550).

I have no doubt whatever the government would allow you to combine the two kinds of stamps in one order at the full commission provided the order was made by a single firm authorized to use them both. This however is a matter for the Commissioner of Internal Revenue and not me to determine.

Gentlemen:

My charge for imprinting revenue stamps on bank checks is one penny a page, or pull, of not more than six stamps each. The Commission, or discount, allowed you on the stamp value is as follows:

over	$25	face	value	2½% disct.
"	100	"	"	3% "
"	500	"	"	4% Commission

Blank paper can be furnished, and stamped, as well as printed checks. The paper will be supplied at dealers' rates without any advance thereon whatever. The weight, size and divisions for checks should be carefully prescribed.

Your orders should be directed to J. R. McFetridge, Stamp Dealer, Philadelphia, Pa. accompanied by a remittance to cover the amount of charges and he will give prompt attention to the matter. Or you can pay the stamp charge to the Government ($50 or over at a time) and remit the printing charges to me direct, but the commission on amount less than $1000 would not be so favorable to you as the allowance of the dealer. I inclose a directed envelope of Mr. McFetridge to whom I refer you for further information if necessary.

Sir:

Herewith inclosed ate a few samples of private die impressions which please return to me after you have considered them. The price for engraving and making plate in full, for the smallest, or regular size, is three hundred dollars for one plate or denomination and five hundred dollars for two plates or denominations of stamps, each denomination requiring a separate plate. For dies of the larger sizes the charge is $350 single and $550 double plates.

My opinion is you may use one or as many stamps as you please on a single box of matches, as the money value is adequate, but that is a matter for the Commissioner of Internal Revenue to inform you of.

I can recommend no stencil. Private die stamps that are properly affixed to the match boxes need no cancellation.

Sir:

Your communication of the 27th ulto addressed to the Commissioner of Internal Revenue has been referred to me.

I am appointed by the Government to engrave revenue stamp dies, make plates, and to prepare stamps therefrom. The charge for making a private die and plate complete, the size of the ordinary four cent stamp, is three hundred dollars. If a larger stamp is required, three hundred and fifty dollars. Six weeks time would be required to make the plate and prepare a reasonable stock of your stamps to keep ahead of the demand.

You would obtain any quantity from $50 upwards: by ordering <u>over</u> $500 at a time however you would receive the greatest commission, viz: ten per cent is if you remit say $510 to the Commissioner he would make a requisition on me to send you $561 face value of stamps.

Gentlemen:

I find by comparing one of the present stamps with a proof impression of the die, that your plate has been mashed in printing, or transferring, rendering it necessary that a new one be made at once. I have however some four thousand sheets of the present stock on hand which I would like you if possible to consume in the meanwhile.

Gentlemen:

Your communication of the 1st inst. (with model inclosed) applying for a private stamp die, addressed to the Commissioner of Inter. Revenue, has been referred to me for reply as to the cost, etc. of the engraving.

I am appointed by the government to engrave revenue stamp dies, to make plates and prepare stamps therefrom. The charge for engraving, as per model, and making plate complete is three hundred and fifty dollars ($350). The time required would be six weeks to make the plate complete and to prepare an adequate stock of stamps to be kept ahead of the demand. This sum includes everything connected with the engraving and making the plate; but the size of your proposed stamps being larger than the common proprietary stamp, it would be subject to a charge for the extra cost of manufacture, under the regulations which allow 63/64th of an inch superficial area free, and for stamps 3 1/8 inches superficial area ten cents per thousand, all other sizes in proportion, cents per thousand and if perforated. Your model is about five inches sup. area, so that the charge for the extra labor and material in your case would be about twenty-one (21) cents per thousand stamps perforated.

Please advise me, with remittance for engraving, as soon as you are ready for the work to proceed and the order will have due attention.

Very respectfully,

Joseph R. Carpenter

Gentlemen:

I wrote you on the 8th ulto, that the stock of your No. 1 wrappers was getting low and a lot of white paper would be required at an early date. As the lot has not yet reached me, I recall your attention to the fact. The entire stock of No. 1 wrappers now on hand is only 20,000, in view of which I would suggest that future orders be 20 apportioned in detail as not to call for an excess of that quantity of white wrappers until an additional lot is manufactured.

Gentlemen:

Your favor 14th to hand. Paper according to your sample, 17 x 24 inches, 22 lbs. costs 26 cents and prints four sets of checks three each set, or twelve checks to the sheet. The paper for 5000 checks would therefore cost you say $5. The gross expense would foot up say:

417 sheets paper or 834 imps 6 checks		$50.04
	Stamps @ 2 cents	100.08
	Less 3% dis.	97.08
	Printing stamps	8.34
	Paper	5.
	Express	1.25
(For paper and stamps)	Total	$111.67

I do not print checks and prefer not to have anything to do therewith, my business being exclusively in printing stamps for the government. I refer you however to Theo Leonhardt & Son of this city, a responsible Lithographer who has the trade of the best printers and stationers. You can address them direct and make your own bargain as to the checks, they will take your order and attend to the stamping and all else complete at my rates of charges and return the work to you without recourse to me. Mr. Leonhart informs me in this instance that they will furnish you similar style checks to those of our samples (which they printed for me through Murphy Sons) same quality of paper, etc. at $18 for 5000; $32 for 10,000, open ends; with engraved ends from $1.50 to $3 extra according to amt. of work in the end. The cost of stamps and printing stamps will be the same as set forth in my printed rates.

I have your communication of the 27th inst. ("C.H.B."), that Messrs. "S. & Co. Beecher & Co." are credited on the statement of July Spoiled with seven hundred sheets of one cent stamps, while no such lot is transmitted, and that an equal number of Swift & Courtney stamps are found of which there is no entry on the statement.

In reply I would say the entry on the statement was intended for the Swift & Courtney stamps. Swift & Courtney & Beecher & Company are the proprietors of the Swift & Courtney plate, and I inadvertently made the statement name the proprietors (abbreviated) instead of the title on the stamps. Will you oblige me by amending the statement of Swift & Courtney?

In reply to yours of the 27th ulto, I have no "sample" stamp and hence regret to say it would cost you the same for samples of my stamps as it would for the regular article. The samples issued by me such as you received with my circular were regularly paid for to the government the same as if they had been prepared for use.

Application is made to me from time to time for the imprinting of sample stamps on checks, etc, said stamps to be characterized in some way, as invalid for actual use. The latest applicant is the Calbert Lithog. Co., Detroit, Mich., who issue specimens of their engraved checks, etc. with sample revenue stamps imprinted thereon. (Speciman herewith) Will you please authorize me to imprint samples of the stamps designed by me, and inform me what restrictions are necessary in the case?

Gentlemen:

Your letter of the 2d inst. addressed to the Hon. Commissioner of Inter. Revenue, Washington, D.C. is referred to me for reply.

I am appointed by the Government to engrave revenue stamp dies, make plates and to prepare stamps therefrom. Each denomination of stamp requires a separate plate. The price for engraving one denomination and making plate complete is three hundred and fifty dollars ($350), two denominations or plates five hundred and fifty dollars ($550), both stamps to be the same size and design, differing only in the letters and figures of the denomination. It would take about six weeks to complete the work and prepare an adequate stock of stamps to keep ahead of your orders. The sizes mentioned by you being larger than the government stamps of same denomination, you would be subject to a charge for the extra labor and material in the stamps delivered to you at the rate of about eight and a quarter cents ($8\frac{1}{4}$¢) per thousand stamps according to the regulations of the department.

A pen and ink (rough) sketch of required design and wording of the stamps should be submitted to me with your order to engrave.

Very respectfully,

Jos. R. Carpenter

Gentlemen:

Lot of checks per your application of the 10th inst. stamped as directed are forwarded today by Adams Express. There is a variation in the amt. of charge, which you will observe by comparing the copy of your application with the following statement, viz:

Wickham & Co.	167 x 6	1002	
1st Natl. Adrian	1250 x 4	5000	
S. Mich.	167 x 6	1002

	Less 5%		840
			271.56
	316 imps @ 1¢		30.06
			$301.72

Amt. forward	$301.72
Cr. by remittance Sep. 10	295.53
Dr. To balance due (please remit)	$6.19

The bulk of the difference between us is in your having counted the 1st Natl. Bank of Adrian 625 imps x 8 instead of 1250 x 4. Stamping presses will not take in more than than 6 checks to an impression and when they are stamped more than that number to the sheet, the charge is double, or rather the number of impressions is counted double.

Some of the checks received from your house are printed in threes, side by side; these I have stamped so far, but prefer to have them in sheets of six in one row, as it may occur in cases where the checks are large they cannot be stamped as one impression unless they are in one row.

Your advice of the 12th that 2000 checks per side have been ordered to your credit with me is . The lot of checks for Allen Shelden & Co. 200 x 6 - 1200 instead of 1000 and will be forwarded when Commissioner's order is received.

St. Paul, Minn.

Gentlemen:

I am with you in regretting the unsatisfactory result attending your last order. The package was forwarded by Mr. McFetridge, stamp dealer, with bill $111.67, net C.O.D. Of course as you did not accompany your order with the cash, you fairly incurred the charge for collection, viz $1.50 made by the Adams Express Co., which they inform me is the correct amt. instead of fifty cents as you suggest. To remedy the matter however as far as it is possible to do so at this time, the Express Company are requested to telegraph to St. Paul to deliver you the package on receipt of the net amt. of bill, and collect the costs at this end. The Express Company here deny having received any inquiry for instructions. It is a matter of further regret to Mr. McFetridge who has been a return of the money that you did not pay the bill under protest and write redress, and thus save delay on both sides.

To avoid a repetition of this misunderstanding you will in future please accompany your orders with the remittance, as you can easily perceive by the schedule of discount allowed by the stamp dealer, that the small margin of profit will not permit him to pay costs of collection to the Express Co.

In reading over your two communications making this last order I can easily see how you look upon the Express Cos. charge as unfair for you to pay, but taking into consideration also the wording of the circular, you will observe that it was properly chargeable to you.

Your favor of the 10th and remittance of $2.06 are acknowledged received with thanks.

From your present advice I begin to think the delayed lot of checks has not reached me at all. You refer to it as your "shipment of the 30th" as your last lot, but do not state the nos. on the checks. If the lot sent on the 30th is not the one according to your form of the 20, then the lot has certainly not reached me. Sir:

Herewith I hand you the outlining of your new stamp as far as it is engraved, to show you the effect which you may more fully obtain by comparing it with one of your stamps of the ordinary size. With the exception that the "B. Brandreth" is rendered as prominent as possible in this instance the stamp will be the counterpart of the old increased in size to "two inches in length and proportionately wide."

Trusting to hear you are satisfied with this exhibit, I remain

Sir:

Yours of the 21st inst. at hand.

The price for engraving a private die stamp size of the common stamp of same denomination is three hundred dollars ($300), including plate and everything complete: large size stamp, such as you state, three hundred and fifty dollars ($350). The time required to do the work and to prepare an adequate stock of stamps to keep ahead of demand is about six weeks.

It will only be necessary for you to furnish me with a sketch of required design and working (a rough pen and ink sketch will do, my artist will elaborate) together with the dimensions of the stamp, and I will put the work in hand at once.

Very respectfully,

Jos. R. Carpenter

Dear Sir:

Your favor of the 27th to hand.

I am not responsible for the division of your orders or I would gladly place the percentage as you wish. They come to me from the government for so many of each denomination, and I have no right to alter the requisition.

I suggest that when you remit to Washington, you state to the Commissioner the gross amount of each kind of stamp required so that there can be no mistake as to your meaning.

Very respectfully

Gentlemen:

I have the pleasure to acknowledge the receipt of your favor of the 30th ulto. with remittance of $202.29 for which I return thanks.

I note your instructions to print next lot in color according to sample submitted. I may be some time however before I print a new lot as I have large balances of your stamps ahead, enough probably to last you four or five months.

I regret my inability to furnish you samples of colors as requested. I can however print in any of the usual plate printing colors that you may chose to designate.

Very respectfully,

Gentlemen:

Enclosed please find one good sheet of your stamps in lieu of the mutilated one returned with your note of the 4th inst. My examiners are as a general thing very vigilant in culling out the bad impressions, but once in a while a bad one will accidentally excape notice. In such cases I will thank you to return the stamps for exchange as in this instance.

Gentlemen:

Your favor of the 7th inst rec'd.

The stamps you refer to were printed in purple ink, a well known fugitive color, but I am much mortified and vexed that these stamps have faded to such an extent as to make them almost entirely indiscernible. I beg you will recall all the checks that have been so stamped and return them to me at early convenience. On their receipt I will give you full credit for the stamps and imprinting or will refund in cash at your option and pay every cost that has resulted from a blunder which, however, nas been in a measure accidental on my part. In addition to this you have my sincere apology for having subjected you to so much trouble.

I return letter herewith, and book separately, as requested.

Sir:

I have the honor to hand you herewith for approval, a proof impression of a one cent private stamp die for B. Bendel & Co., San Francisco, Cal., superficial area 13/16 inches.

I would also ask the favor of your early consideration of the die for B. Brandreth forwarded to you for approval on the 23d inst.

Dear Sir:

It will be impossible to fill your present order with the new stamps. The Commissioner of Inter. Rev. has not yet approved the stamp, hence the printing is delayed. Besides this, your order at Washington will probably be dated this month, in which case, under the system of the government requiring me to account for the amt. of paper consumed in the orders of each month respectively, I am not permitted to anticipate or hold over the delivery of stamps that will not be manufactured until a succeeding month.

Very respectfully,

B. Brandreth, Esq.
New York, N. Y.

Dear Sir:

I have heard from the government in regard to your new stamp submitted some days ago to the Hon. Commissioner of Inter. Revenue for his official approval. The communication from him returning the proof impression unapproved is as follows: "You are informed that the words 'guaranteed genuine' which appears thereon must be cut from the die before it can be approved. Dr. Brandreth has been heretofore informed that it would be necessary to have the words 'United States Certificate of Genuineness' cut from the private stamp heretofore used by him, as it is not deemed proper that a stamp issued by the United States should be in the nature of a certificate of the genuineness of any preparation."

Under the circumstances of course I will be unable to print stamps of the new design until you can satisfy the Commissioner on his objective point.

Awaiting your advice, I am yours

Very respectfully,

Jos. R. Carpenter

Dear Sir:

On the 27th inst. I filled orders for you and Jas. Eaton (Utica, N.Y.) for $2200 private die stamps respectively. By some accident the package directions were transposed, giving you his stamps, and him yours.

Mr. Pugh has telegraphed you to exchange packages with Eaton as nearly as possible. Will you please adjust differences between yourselves for such amts. as you may have accidentally used of each other's stamps and let me know the expense you have incurred for expressage, etc., that I may pay you the amount?

I will write the same to Mr. Eaton and trust the blunder may be corrected with as little inconvenience to you as possible.

Dear Sir:

On receipt of this note you will please forward to the Stamp Agent, Mr. Pugh, if you have not already done so, the 480 130/210 sheets excess of your order received from Mr. Eaton. You should have returned this excess the moment your own stamps were received and saved me much anxiety and trouble growing out of my mistake in transposing the directions on the stamp packages.

Mr. Eaton has acted promptly and commendably in the matter, although I regret to say he has suffered vexatious delay in getting his own stamps.

Your favor of the 9th inst. at hand covering remittance of three hundred and ninety three 95/100 dollars ($393.95) for which please accept my thanks.

You state that the small stamp will be continued for the Pills, and direct me to alter the die by inserting "Allcock's Porous Plasters" in place of United States Certificate of Genuineness. You may of course intend this, but I deem it proper to call your attention to the discrepancy between the proposed new title of stamp and the article to be stamped, and beg you will further advise me in the matter.

I understand you will not continue to use the present balance of small stamps on hand. Am I right?

Gentlemen:

I am in receipt of a communication from the Commissioner of Internal Revenue, dated the 14th inst., notifying me that the proprietorship of the private revenue stamp of the Excelsior Match Co. of Watertown, N.Y. has been transferred to you and that it will be necessary to cut the word "Watertown" from the die and substitute the word "Syracuse."

To make this change in the die, which necessitates a new plate, will cost you seventy-five dollars ($75) and will take about four weeks time.

I have a balance of about 1,600,000 of these stamps, face value $16,000, now on hand, which I presume the government will permit you to use in the meanwhile, and trust there will be no objection on your part to your consumption of this balance.

Very respectfully,

Sir:

On taking act. of stock at the close of last month, I discovered that my balance was two sheets of two cent stamps over, viz: one sheet of two cent general, and one sheet of two cent proprietary stamps. In the absence of any claim for shortage in the meanwhile, investigation has failed to reveal to whom these stamps are due. Will you therefor please advise me how to dispose of them?

Very respectfully

Jos. R. Carpenter

Inclosure:

one sheet Two cent general stamps

one " Two " proprietary "

Over sheets found in the balance of Joseph R. Carpenter, Philadelphia, Pa., on taking act. of stock at the close of December, 1874.

In the absence of any corresponding claim for shortage, investigation having failed to reveal to whom these sheets are due, the matter was referred to the Hon. Commissioner of Inter. Revenue, who, under date of Jan. 29, 1875, (E.R.C.) made order to wit:

"You are requested to wrap and carefully seal the aforesaid sheets, and place upon the package a certificate as to all the facts in the case, which should be signed by yourself and the stamp agent on duty at your establishment. The package may then be transmitted to this office to be held to await any claim that may be made therefor."

Sir:

A surplus of 5166 sheets of distinctive stamp paper has remained on my hands, under the heading of "Suspense Act.", since June, 1872.

In explanation, I would state that on the day following the occurrence of the fire at my old establishment, the government detailed a number of clerks from Washington to count the balance of stock and estimate the loss of paper by said fire. Pursuant to this counting and estimate, the government having taken possession of and removed the remains of the burnt paper, a communication from Acting Secretary Richardson, dated June 18, 1872 (G.W.M.) was addressed to me, as follows: "I have this day placed to your credit on the books of the office 21889 sheets of adhesive stamp paper, and 43890 sheets of private die stamp paper, burned and partially burned by the fire at your establishment, on the 4th of March last."

By my own account taken at the time, the correctness

of which is confirmed by every subsequent balance account taken at the close of each month, I found that the net amount of the credit was erroneous and very considerably in my favor; that while I was entitled to a credit of only 16644 sheets of adhesive stamp paper I received a credit of 21889; and being entitled to a credit of 43969 sheets of private die paper, I received 43890, making a difference in my favor of 5245 sheets of adhesive paper and against me of 79 sheets of private die paper, or a net difference in my favor of 5166 sheets as stated. The 79 sheets for which credit is still due me are represented in my regular paper account by an equal amount of adhesive stamp paper.

Although this surplus is kept boxed and sealed, separate and distinct from the regular paper, in what is called "Suspense Act.", I think it desirable to have the discrepancy adjusted, and therefor embrace this opportunity to refer the matter to your attention.

Gentlemen:

My letter of the 10th inst. does not justify the tenor of your reply which is herewith respectfully returned to you along with the copies referred to.

The oversight appears to have been at the Office of Inter. Revenue, Washington, D. C., in omitting your instructions from the requisition; they probably supposing that you had only one kind of stamp and it was necessary to state its title. Hereafter when you require only one kind, you should advise the Commissioner that you have two one cent stamps and then designate the kind you want. Your stamp orders in all their details should come to me only through the Commissioner of Inter. Revenue.

Hon. J. W. Douglass
Commissioner of Inter. Revenue
Washington, D. C.

Sir:

I have the honor to submit for your approval the inclosed proof impression of a one cent private die, 13/16 inch superficial area, for the Excelsior Match Co., Syracuse, N.Y. The die was originally engraved for the Excelsior Match Co., Waterbury, N.Y. and this is an alteration by substituting the word "Syracuse" for "Watertown." Notice of transfer to the new proprietorship is referred to in your communication to me of January 14, 1875.

Very respectfully,

Gentlemen:

My shipments have always been made by Adams Express Co. so as to secure their quickest transit, and I regret that you have been subjected through oversight, to the payment of $5.60 freight on the lot, instead of about $1.25 which you say would have been charged by the Empire Line or the Merchants Dispatch. It is proper however to call your attention to the fact that you may be mistaken as to the $1.25 because when I received the very same lot, and I presume you shipped it at least partly by the Empire Line, or Merchants Dispatch, I had to pay $5.80 freight on it, or a greater amount than was charged to you for its return.

The remedy for the future is simple. My regulations, see circular herewith, require that all checks forwarded to me must have the freight prepaid. If the lot contains five thousand checks or more, I will pay the return freight; on lots less than five thousand you will pay and I will ship in either case as you direct. By your prepaying on large lots and my paying the return charges

you will of course have the opportunity to regulate the mode of transit to suit yourself.

Your complaint that the stamp is generally printed out of certre is duly considered - most of my customers prefer it near the bottom and right hand end. Hereafter I would be pleased to have you outline a stamp in position desired on one of the top checks of each lot for special instruction to the printer.

I ship today checks to the Auburn City N. Bank. There are 970 imps 4850 checks in the lot (balance spoiled and retained) so that your act. stands thus:

Draft recd.	$107.50
Amt.	3.71
Imprinting 970 imps x 5 4850	103.79

Promissing to make every effort to give you entire satisfaction in soliciting the favor of your further orders, I remain,

Yours very respectfully

Gentlemen:

To engrave plate for one cent private die stamp, as you suggest, will cost three hundred dollars ($300), and require about six weeks to complete the work including the preparation of an adequate stock of stamps ahead to meet your demand.

Orders for any amount of stamps over five hundred dollars at a time will entitle you to ten per cent allowance - five hundred dollars or less will give you only five per cent.

Beside the remittance of $300 it will only be necessary for you to forward me a rough pen and ink sketch of required design, and the order will have prompt attention.

Gentlemen:

I return you by today's mail check of Paulding, Kemble & Co. In the lot when received there were 102 impressions. In the imprinting there were accidentally spoiled 18 of these impressions, leaving in the lot sent you today only 84 impressions instead of 100 as required. Can you forward me additional sheets at once that I may make up the deficiency? Or shall I remit difference in amt. of charges together with payment for the spoiled work? Stamping the 84 imps. - 420 checks - $9.03 leaves $1.72 to your credit.

Gentlemen:

Your favor of 3d inst. with remittance $703 duly to hand. Checks according to schedule are rec'd. this Am. and will be put to press at once.

Your terms cannot possibly be complied with and I had anticipated no such proposition. The best I can say is full rate for imprinting (one penny a page) and I to pay express charges both ways. Or you to pay freight on shi;ments to me, and I to pay the return expressage and allow you ten per cent reduction on the imprinting. Bills collected monthly.

As to stamps, your terms are that I should furnish them at better rates than are allowed by the government which at best gives, say, $1050 stamps for $1000 cash which is only about 4 3/4 discount. Why not send $1000 at a time direct to the Commissioner of Inter. Rev. and get $1050 credit for imprinting at my establishment? When remittances for stamps are sent to me I can allow you 4% dis. only.

Dear Sir:

In looking through some boxed records today, I came across the identical lot of requisitions that were sent to your office, and I supposed never returned to me. I have just concluded their careful examination and regret to say, find nothing that throws any light on the early California order. The first, order No. 1670, appears to have originally been entered by Stamp Agent Kemble on requisition No. 74, Jan. 5, 1863, but crossed out before the footings were made. It is evident that the first two California orders were each made to constitute a separate requisition, and it appears strange that both are missing. Mr. Pugh plausibly suggests that as he surrendered up his memoranda of the case to a gentleman from your office who formerly called here, that these two requisitions may have been handed to him also.

Very respectfully,

Jos. R. Carpenter

Your lot of checks on the Farmer Deposit Natl. Bank, "H. McCallum" to hand.

$9.75

Imprinting 100 imps @ 1¢ 1
Total $10.75

$10.75 is correct, but you will observe by the application which you sent with lot, herewith returned, that you figure 500 stamps equal to $20, and make still another error in adding $1 to $19.50 which would be only $20.50 instead of $21.50 as you figure it. There was also an error in the last previous lot by which you forwarded to me double the quantity of checks called for by your application and remittance. I mention these discrepancies because they put me in doubt as to what are your exact requirements. I inclose $10.75 herewith.

Gentlemen:

I have the pleasure to hand you herewith a proof impression of your finished die which I trust will be found entirely satisfactory. It now remains to make the plate and prepare a stock of stamps therefrom. In the meanwhile please inform me what color to print the stamps and about how many you will probably consume per month.

My bill for engraving being due at this stage, I present the same herewith, and remain.

Yours very respectfully,

Jos. R. Carpenter

Gentlemen:

Your note of the 14th inst., with model inclosed, at hand.

To engrave a stamp such as you require, say five inches long and seven eighths of an inch wide rectangular in form, will cost you three hundred and fifty dollars ($350) for die, plate, etc. complete, and the time to complete the work would be as usual, about six weeks. Your stamp being larger than the stamp for common use, you would be subjected to a charge of about fifteen cents per thousand stamps consumed for extra cost of their manufacture.

Should you decide to have the work proceed please advise me what denomination of stamp

Gentlemen:

I have the pleasure to acknowledge the receipt of your favor of the 16th inst. with remittance of $83.99 dollars in full for altering stamp and for extra cost of unused balance; and note your advice. The plate will be made and new stamps prepared for use in about ten days from this date.

The old balance will remain intact in my custody probably until the stamps are destroyed by the government. No other authorized parties can receive private stamps and it is unlikely that the persons you refer to have obtained Jackson's stamps through the Inter. Revenue Office. If the stamps are reused it would indicate that they were not applied to the bottles in the first case as required by law, which prescribes that they must be as affixed to the packages that the contents thereof cannot be reached without involving the destruction of the stamp.

May revenue stamps be printed on the backs of checks? Several correspondents having requested me to so stamp their checks, I desire authoritative information on the subject. Sir:

Your communication of May 20th last to the Hon. Commissioner of Inter. Revenue has been referred to me and is duly received this morning. The Commissioner advises me that the remittance of three hundred dollars by P.O. order has been returned to you.

I am appointed by the Government to engrave revenue stamp dies, to make plates and prepare stamps therefrom. The charge for engraving a die and making the plate for a stamp the size of your model is three hundred and fifty dollars ($350) and a charge will also be made for the extra cost of manufacturing the stamps at rate of about four cents per thousand stamps. If you can allow me to reduce the size of your stamp to the same size as the ordinary government stamp of the same denomination, the government will pay the entire charge for manufacturing the stamps so that you will escape this charge for the increase and I will then engrave it for you for three hundred dollars ($300) instead of three hundred and fifty dollars.

The model sent me is sufficient guide for the engraver, and the work will be put in hand on receipt of your advice and remittance as above, and can be finished and an adequate stock of stamps (say a three months' supply) prepared to commence with, in about seven or eight weeks' time.

Please let me know whether the denomination of your stamp is to be one cent, or what. Also the color you wish it printed and whether to gum and perforate the stamps. I would advise you to have them ungummed so as to avoid the danger of being spoiled in transmission.

Very respectfully,

Dear Sir:

I have the pleasure to acknowledge the receipt of your favor of the 29th ulto with remittance of three hundred dollars ($300) in full for engraving a one cent stamp and making plate complete.

The order will be put in hand at once and its execution completed at the earliest possible moment. A proof impression will be sent you on completion of the work, and due notice as to when the new stamps will be ready to meet your demand.

Very respectfully,

Jos. R. Carpenter
