Philadelphia, Aug. 12, 70

Messrs. Geo. W. Gaffet & Co. c/o Liberty St. Room No. 10 New York, N. Y.

Gentlemen:

Your telegram of this date to hand. Order for stamps is also received but I regret to say it has not been executed for the reason that the weather has been so very unfavorable of late that I could not gum and dry the new lot which has been recently printed.

If you can manage to use the stamps ungummed I will send the entire 100 sheets, or any part thereof, tomorrow upon hearing from you before noon by telegraph - otherwise I will not be able to send them regularly gummed until Monday or perhaps Tuesday of next week.

Very respectfully

Messrs. Ward Southerland Co. 130 William St. New York, N. Y.

Gentlemen:

I note advice per your favor of the 11th inst and have the pleasure to hereby acknowledge the receipt of three hundred and fifty dollars (\$350) as payment in full for engraving private die and making stamp plate complete, and return thanks for prompt attention.

There has been a change in the regulations of the Inter. Rev. Bureau in respect to the allowance of commissions on purchases of stamps from private dies. I believe that now five per cent is allowed on any amount exceeding \$50 up to \$500 and ten per cent on the excessof \$500. For full and definite information, however, regarding commissions I am compelled to refer you to the Commissioner of Inter. Rev.

All orders for stamps should be addressed to the Commissioner Inter. Rev., Washington, D.C. inclosing the duplicate certificate of a U.S. Treasurer or designated depositary of a deposit made covering the value of stamps ordered. The Commissioner will then make a requisition on me and stamps will be sent you from here direct.

I will probably be able to meet your first order in about one week from this date.

Very respectfully Jos. R. Carpenter per L. Philadelphia, Aug. 13, 1870

Chas. N. Shepard Esq. Grand Rapids, Mich.

Sir:

Your letter of the 6th inst. has been referred to me by the Inter. Rev. Bureau for reply.

I am the appointed agent of the Government to manufacture revenue stamp dies and to prepare stamps therefrom. Our charge for engraving a private die and making stamp plate complete is uniformly three hundred and fifty dollars (\$350) and the time required to do the work and to prepare an adequate stock of stamps to keep ahead of demand is about eight weeks. Stamps of the ordinary sizes are furnished without charge for manufacturing, but for increased sizes there is a charge at the rate of ten cents per thousand for stamps 3 1/8 inches superficial area and for all other sizes in proportion.

If, with a knowledge of these facts, you desire to have order engraved you will please draw a rough sketch, embodying the required size and your ideas of design and I will put the matter in hand at once.

Very respectfully

Gentlemen:

I reply to yours of the 16th inst that the fifty sheets of stamps due on your recent order were forwarded on the 15th.

The order would have been executed entire in the first place but for the spell of damp weather which completely suspended the operation of gumming.

A bad lot of paper and want of good gumming weather are the reasons for the defect in the adhesive quality of the stamps to which you refer. I expect to avoid the difficulty as soon as a new stock can be prepared.

W. A. Barnes, Esq. Rochester, N. Y.

Sir:

Your letter of the 23d inst addressed to the Hon. Commissioner of Inter. Revenue has been referred to me for reply. I am the authorized agent of the government to engrave revenue stamp dies, make plates and prepare stamps therefrom. The charge for engraving a private die and making stamp plate complete is uniformly three hundred and fifty dollars (\$350), and the time required to do the work is about eight weeks. Stamps of the ordinary size (13/16 of an inch for 1 and 2 cent stamps and 63/64 of an inch for 3 and 4 cent stamps) are furnished without charge for manufacture, but for increased sizes there is a charge made at the rate of ten cents per thousand for stamps 3 1/8 inches superficial area and all other sizes in proportion, besides three cents per thousand for perforations.

A stamp of the size devoted to the wrapper submitted would print to great waste and if charged for according to the square of its greatest dimensions would be very expensive in comparison with one which might be made to simply fill the inner square of the design and which would probably answer your purpose as well.

If, with the facts before you however, you desire to have a private design engraved, you can consider the matter of size and communicate your wishes to me in full.

The commissions allowed by the government to proprietors of private dies, after the 1st of October next, will be in amounts from \$50 to \$500, five per cent, and in amounts over \$500 ten per cent - or in other words if you send a remittance of \$510 you will be furnished with \$561 in stamps.

Gentlemen:

The Commissioner of Inter. Revenue has referred to me your letter of the 1st inst.

I am the agent of the Government to engrave plates and print stamps therefrom. The charge for making a private stamp plate complete is three hundred and fifty dollars (\$350) and the time required to do the work about ten weeks. Private stamps are in all cases kept on hand ahead of demand so that orders are always promptly filled. They are furnished without charge for manufacture except when they exceed in size the government stamp of the same denomination in which case there is an extra charge at the rate of ten cents per thousand for stamps 3 1/8 inches superficial area for extra paper and printing and all other sizes in proportion; besides three cents per thousand for extra perferations.

If in view of the facts, you desire to have a stamp engraved you will simply send me a rough sketch denoting size design, etc. and the work will be put in hand at once.

Dear Sir:

Just preceding the date of Mansfield Co.'s order referred to, there was an unusual spell of damp weather lasting about five or six successive weeks which almost entirely stopped the work in the gumming department, and in consequence whereof I was compelled to dry by artificial means the gummed stamps of Mansfield Co and some others, the stock of which was low at that time. Hence to save inconvenience to the parties the stamps were delivered by instalments as soon as they could be prepared.

Alvah Littlefield, Esq. Boston, Mass.

Dear Sir:

Yours of the 3d inst received and order for stamps noted.

As I informed you when you ordered your die the government was allowing proprietors a commission of ten per cent on all amounts over \$500 remitted for stamps - for instance for \$510 certificate it gave \$561 in stamps. But about the 1st of April last the regulation was changed so that no more than five per cent was allowed on the first \$500 of any am't remitted and then ten percent on the balance of the order or in other words, for \$510 in money gives but \$536 in stamps. A law has recently been passed however which provides that after the 1st October next proprietors will be entitled to ten per cent on the whole amt. of all orders for private stamps the same as when you were first informed by me. You will be careful to notice that you must remit over\$500 after Oct. 1 to get the 10 per cent - \$501 will do it.

Sir:

I herewith return the fifty dollar stamp and accompanying papers submitted to me by your note of the 13th instant.

The absence of perforation on the stamp shows that it was issued several years ago, and my opinion is that it has in the meanwhile been applied to use, from the fact that, although the original gum is still on the stamp, it is without the even flow which characterizes an unused stamp; and the face and lightest portion of the drapery of the vignette bear evidence of erasure.

In all cases of stamps of such high denominational value I suggest that the Government would do well to trace them back as far as possible. A fifty dollar stamp is very likely to have a history.

Sir:

On requisition No. 9751, received today, J. W. Schenck's order calls for7,166 three cent and 7000 six cent stamps, value \$634.98. This being obviously wrong, Schenck having a one but no three cent die, I have amended the order to read 21,498 one cent and 7000 six cent stamps, as before.

Also same requisition, Jno. J. Levy Co's order calls for 24,125 four cent stamps equal to \$965; and as Levy Co. have no four cent die but invariably require five cent stamps, I have amended their order accordingly, viz, 19,300 five cent stamps value \$965.

These amendments involve a change in the stamp totals of the requisition to the following amounts, viz: 1,527.748 one cent, 200,000 three cent, 26,875 four cent, 19,300 five cent, and 7000 six cent, making 1,780,923 stamps in all.

From the 1st of October next the commission allowed to purchasers of stamps from their own dies will be five per cent on amounts from \$500 ordered at one time and ten per cent on orders over \$500; i.e. if you remit a certificate of \$510 you will get \$561 in stamps.

Sir:

In reply to your letter of the 22d inst, the charge for engraving a private revenue stamp die and making plate complete is uniformly three hundred and fifty dollars (\$350) and the time required to execute the work is usually about eight weeks.

The sketch sent me would answer very well to work from, and could be greatly improved in the engraving. The size you submit being larger than the government stamp of same denomination would cost you something less than five cents per thousand for extra labor and material in the manufacture of the stamps - the regulations being (for four cent stamps) 63/64 of an inch superficial area, free, but increased sizes are to be charged for at the rate of ten cents per thousand for stamps 31/8 inches, for extra paper and printing and all other sizes in proportion, besides three cents per thousand for extra perforation.

If with this knowledge you desire to have a stamp engraved please communicate the fact to me and the matter shall have early attention.

Messrs. P. Fahrneys Bros & Co. Waynesboro, Pa.

Gentlemen:

In reply to your favor of the 27th inst, there can be no deviation from the regular charge of \$350 for engraving a private die and making stamp plate complete. It is your privilege to designate the size of die, large or small, it would make no material difference in the amount of work, the plates being of uniform size and while the small stamp would take less work to engrave, it would take more of them to fill the plate. The only disadvantage in a large die is that the extra work in preparing the stamps would be charged to you.

The Government will of course not make you any allowance of stamps in consideration of the amt paid for engraving a private stamp plate.

As to the percentage allowed on orders for stamps, I must refer you for definite information to the Commissioner of Inter. Rev. I believe it to be on private stamps (from Oct 1st inst) ten per cent on all orders of over \$500 - and on general stamps four per cent on \$500 and five per cent on \$1000.

I would await payment of \$350 for engraving until a proof impression could be presented from the finished die.

Very respectfully

Jos. R. Carpenter

Sir:

Your favor of the 28th inst to hand. I note your remark that \$350 is apparently too high for engraving a stamp and that it could be done for considerably less in New York; to which I reply that you have not considered the fact that beside engraving the stamp it is also a part of the bargain to multiply that engraving about one hundred and seventy times to make a plate of the government standard size from which the stamps are to be prepared. And besides this, there are elements of considerable moment which do not enter into the terms of an outside party but must necessarily be greatly considered by me.

The price stated, viz: three hundred and fifty dollars is in no case deviated from, and is the lowest possible amt. for which the work could be done.

Very respectfully

Dear Sir:

Will you please inform me by return mail what color to print your stamps and whether you wish them gummed and perforated. If you wish them perforated please understand that the perforation row on top of the stamp must necessarily be in a straight line as it is impossible to follow a curved line with a perforating machine.

I cannot find my note of your having previously advised me in the above respect and it will be necessary for me to have the information on Wednesday next when the plate will be ready to go to press.

Gentlemen:

As you require a stamp of the ordinary size there will be no extra charges. All you will have to pay is \$350 for the plate.

The Government will furnish you stamps at the usual proprietors rates, viz: on remittances of from \$50 to \$500 you will be allowed an addition in stamps of five per cent, and of over \$500 an addition of ten per cent in stamps.

The sketch you have submitted will answer every purpose of the engraver so it will be as unnecessary as it is inexpedient to draw another sketch which could not be made to show the elaboration which will appear in the engraving.

Messrs. Jeremiah Curtis & Sons write that their private die order executed on the 28th ulto was eight sheets short of the required quantity.

As the balance of their stamps on my hands is correct, no error could have been made here unless a corresponding overplus was sent to your office in the spoiled lot of June last, (which should have contained 778 sheets or 51348 stamps from their die). I herewith return the \$200 stamp and affidavit submitted to me with your letter of the 24th inst.

The stamp, although a poor impression, is certainly genuine. It is one of the very first issued as attested by the absence of perforation, and, no doubt, has in the meantime been subjected to much usage. My impression is that it has not been washed although the appearance of gum over the sides of the stamps looks as if it had been tampered with, and upon this suspicion I would require the party to show from whom he derived it and the discount allowed. A \$200 stamp should have a history not very difficult to trace.

Gentlemen:

Yours of the 31st ulto. addressed to the Commissioner of Inter. Rev. with sketches of designs for private dies, has been referred to me for reply.

I am the appointed agent of the government to engrave revenue stamp dies and to prepare stamps therefrom. The charge for engraving a private die and making a stamp plate complete is uniformly, for a single denomination, three hundred and fifty dollars (\$350). Each denomination of stamp requires a separate plate. If there is no variation in the design or size of the several denominations except in the letters and figures naming the denomination of the stamp, the charge will be \$350 for the first plate and \$200 each for additional plates.

You will have the right to designate any ordinary colors for printing without being subject to charge therefore. And there will be no charge for manufacturing stamps of the ordinary sizes, viz: one and two cent stamps 13/16 of an inch superficial area, and three, four cent, etc., 63/64 of an inch superficial area, but for increased sizes there will be a charge made for extra paper and printing at the rate of ten cents per thousand for stamps 3 1/8 inches superficial area and all other sizes in proportion, besides three cents per thousand for extra perforation.

I would require about to months to make a single plate and about three months to complete the four. The Commissioner of Inter. Rev. has temporarily prohibited the engraving of private dies but no doubt the prohobition will be removed in a few days.

If with the knowledge as above you wish to have the work done as soon as permitted by the government, please communicate your wishes and I will give them prompt attention.

I also note your advice respecting color, etc. and will have stamps prepared and ready to meet your first order by the 19th inst.

Orders should be addressed to the Commissioner of Inter. Rev. Washington, D.C. inclosing the duplicate certificate of a U.S. Apt. Treasurer or Designated Depositary of a deposit made covering the value of stamps ordered, stating in your note to the Commissioner that you require 4 ct. stamps from your private die: a requisition will then be made on me and stamps will be sent you from here direct. The commission allowed by the Government is five per cent in stamps, on sums of \$50 to \$500, and ten per cent on over \$500 - that is if you remit \$510 in the shape of a certificate of deposit you will get \$561 in stamps.

In reply to query as to the charge for additional denominations, I would say that it is three hundred and fifty dollars when the design or size of the stamp is not changed. If, however, there is no change except in the letters and figures of the denomination, the charge would be only two hundred dollars.

Sir:

Your favor of the 17th inst addressed to the Commissioner of Inter. Rev. has been referred to me for reply.

I am the authorized agent of the Government to engrave private dies and to prepare stamps therefrom. The charge for making a private stamp plate complete is uniformly three hundred and fifty dollars (\$350) and the time required to do the work is about eight weeks.

The Government allows to proprietors of private dies a commission in stamps of ten (10) per cent on all orders of over \$500 at a time.

After a plate is made an adequate stock of stamps is kept on hand in advance to meet orders therefor on demand.

There is no charge for manufacturing stamps of the ordinary size, viz: 13/16 of an inch sup. area for one and two cent stamps and 63/64 of an inch for higher denominations; but for increased sizes there is a charge for manufacturing at the rate of ten cents per thousand for stamps 3 1/8 superficial area, for extra paper and printing, annd all other sizes in proportion besides three cents per thousand for extra perforations.

I would inform you however that the Commissioner of Inter. Rev. has temporarily prohibited the engraving of private dies for the present, but I expect the prohibition will be removed in a few days.

If, with this knowledge, you desire to have a plate engraved, please advise me what denomination, size and design of stamp you require and I will give the matter immediate attention as soon as I am permitted by the Government to do so. Please accompany your application with a rough sketch of design to facilitate the work of our artist.

Very truly yours,

Gentlemen:

I reply to yours of the 22d inst. that it would cost one hundred and fifty dollars (\$150) to insert "N.Y. Match Co." in place of Bauer & Beudel on their die, as it would be necessary to make an entirely new plate. There are about 811,000 Bauer & Beudel stamps on hand.

If you conclude to have the alteration made, please get from Mr. Bauer a written assignment of the plate to you that it may be submitted to the Commissioner of Inter. Revenue as authority when I present the matter to him for approval.

Gentlemen:

Concerning the 500 labels claimed for deficit in order sent you on the 18th ulto, I find that the stock on hand here is properly balanced according to an accurate account of the paper printed and cut. The packages of 5000 labels when put up for shipment are composed of ten separate lots of 500 labels each and to account for the discrepancy it might be supposed that only nine of these lots had been put in the package referred to while eleven had been put in some other package: but this seems to me improbable inasmuch as the packages are invariably tied up while in a press made and adjusted purposely to require the exact complement of ten lots to fill it, so that any deviation in quantity would necessarily be apparent to the packer. I am therefor, you will perceive, entirely at a loss to account for the discrepancy, and hence beg you will further consider the matter and ascertain by investigation if the fault in count has not been made at your establishment, or if a package had been broken and 500 lost during the shipment of the order from here.

Gentlemen:

Your favor of the 4th inst. to hand. I have the pleasure to present you herewith proof impressions from your finished die. Please decide upon the color you prefer for printing and let me know how many stamps you will probably require per month, that I may keep an adequate supply of them ahead of your demand. In about ten days from the time of hearing from you I will be prepared to fill orders therefor. Orders should be addressed to the Commissioner of Inter. Revenue, Washington, D. C. inclosing the duplicate certificate of an Assist.

U. S. Treasurer or designated depository of a deposit made covering the value of stamps ordered, stating that you will require one cent stamps from your private die, the Commissioner will then make a requisition on me and stamps will be sent you from here direct. If you send over \$500, say, \$510, you will be allowed ten per cent extra or \$561 in stamps.

Your engraving account coming due at this state, I present the same herewith and remain,

On the face of the sketch presented are the words "Examine carefully that this sketch is not perforated or town at sides." But, however, the gentelman representing you in the matter says the stamps are to be perforated (for separation, the same as your present stamps) therefore the words quoted would appear inconsistent and apt to perplex a body who had no other explanation as to the meaning and object of the words, and I desire to call your attention thereto in the beginning so as to avoid the necessity for making any alteration after the engraving has been commenced.

In reply to the letter referred to me this morning, that Mr. Hillhouse's order No. 7461 was correctly filled. Of the one cent general stamps it contained 210 sheets or pieces, of 100 stamps each, and beside the stock account being correctly balanced, it is distinctly remembered by the clerk who put up the order, and also by the one who finally examined the stamps and sealed them for delivery, that the said 210 sheets of 100 stamps each, equal to \$210, were in the package marked No. of said order. The parties in New York may have been misled in counting the sheets by the manner in which they were cut. or they may have ordered more of that denomination, but in any event I have proof positive that \$210 worth of one cent general stamps were put in the package as stated.

Sir:

The charge for engraving a private revenue stamp die and making the plate complete is uniformly three hundred and fifty dollars (\$350), and the time required to do the work, about twelve weeks. There is no charge for manufacturing stamps when the die (4 ct) is of the Government size, viz: 63/64 of an inch superficial area; but for increased sizes there is a charge at the mte of ten cents per thousand for stamps 3 1/8 inches superficial area, for extra paper and printing and all other sizes in proportion, besides three cents per thousand for extra perforation.

The commission allowed by the Government is ten per cent in stamps on all orders of over \$500 at a time. The smallest order rec'd at the Revenue Bureau is \$50, upon which the commission allowed is five per cent.

Very respectfully,

Philadelphia Feb. 17, 1871

W. P. Shearman, Esq. Office of Internal Revenue Washington, D. C.

Dear Sir:

Pursuant to yours of the 15th inst, I herewith return the letter of the Act'g. Ass't. Treasurer at New York, and, in addition to my report already made through Mr. Pugh, I can only say that the usual checks were applied by experts in putting up the order in question, and it was proven to be correctly filled when it left this office.

The one cent stamps and others of the same class, are invariably printed 210 to the sheet. The explanation therefor, as to why there were only 100 on the sheets delivered, is that a large quantity of that denomination having been left on hand since the commencement of the business by reason of a change in the law, a portion became stuck together on the edges, and were found upon their separation to yield but 100 perfect or available stamps to each damaged sheet.

Very respectfully,

Jos. R. Carpenter

Gentlemen:

Your communication of the 13th inst addressed to the District Commissioner Inter. Rev. has been referred to me for reply.

It is not probable that the new issue of revenue stamps will be ready prior to the 1st of July next, and even then I am not aware that there will be a six cent proprietary stamp engraved by order of the Government.

Although you do not say proprietary stamps are required, I presume you refer to that kind from the large am't mentioned. Why not procure a private die at once? It would cost you only three hundred and fifty dollars, and take about three months to engrave the die and make a stamp plate complete, then you would be entitled by the Government to ten per cent commission on all orders for stamps therefrom, over \$500 at a time, or, in other words, would get for say \$600 remitted \$660 in face value of stamps.

Very respectfully

Jos. R. Carpenter

W. S. B. Jack, Esq. Portsmouth, O.

Sir:

I am in receipt of your letter of the 14th inst and sketch accompanying.

The charge for engraving a private die and making stamp plate complete is uniformly three hundred and fifty dollars (\$350) and the time required to do the work about twelve weeks. There is no difference between the engraving charges for a small or large die but when the stamp is larger than the government size, there is a charge for manufacturing stamps at the rate of ten cents per thousand for stamps 3 1/8 inches superficial area and all other sizes in proportion, for extra paper and printing; and three cents per thousand for extra perforation.

I also print the stamps for the government. If on learning these particulars, you desire to have a private stamp engraved, please inform me what denomination you require and the work will have due attention.

Very respectfully,

Jos. R. Carpenter

Gentlemen:

I have this day submitted your proposition to substitute your name for that of Bauer & Beudel on the die of the latter, to the Hon. Commissioner of Inter. Rev. and expect to get his decision in a few days. If favorable I will do the work as expeditiously as possible and upon the terms named. As the Bureau has honored your recent orders for B & B's stamps, I presume they are aware that the die has been duly transferred to your proprietorship.

Very respectfully,

Jos. R. Carpenter

Philadelphia Feb. 20, 1871

Hon. A. Pleasonton Commissioner of Internal Revenue Washington, D. C.

Sir:

The New York Match Co. have requested me to substitute their name for that of Bauer & Beudel on the die of the latter. I have no notice that the proprietorship of the die has passed to the New York Match Co. further than that you have honored their recent orders for B. & B's stamps.

The inclosed proof impression of the die is submitted for your consideration and authorization as to the proposed change.

Very respectfully

Jos. R. Carpenter

Philadelphia Feb. 24, 1871

Messrs. Craig Fairiley Co.

Gentlemen:

Your blank paper for imprinting 167 impressions of stamps, 6 to the page, is rec'd. The dealer's order accompanying calls for only 960 stamps and it will be impossible for me therefor to print on the dealer's account more than the number called for. But as your paper will receive 1002 stamps and you appear to require that number, I return the order herewith that you may take it to Mr. Ridgway and get it increased to the required am't before the work is commenced.

I would be very happy to comply with your terms about printing the full am't and collecting the cost of the extra stamps from you on completion of the work, but I am wholly unauthorized by the Government to do so. The rule is that the Government must be paid for the stamp value in advance and the order of the dealer is used by me as a voucher in his settlement with Internal Revenue Bureau for the stamp value in the imprinted paper.

Very respectfully,

Jos. R. Carpenter

Gentlemen:

Herewith please find eleven stamps for an equal number of mutilated inclosed with your note of the 24th inst. All the impressions going out are scrutinized pretty closely but it appears that now and then an imperfect one will escape observation.

Very respectfully

Dear Sir:

Your favor of the 25th ulto at hand.

In reply, I do not keep, or deal in, Fire Revenue Receipts.

Very truly yours

Jos. R. Carpenter
Successor to Butler Carpenter

Philadelphia March 6, 1871

Messrs. Fox & Co. Greensburgh, Pa.

Gentlemen:

Your letter of the 28th ulto addressed to the Commissioner of Inter. Rev. has been referred to me for reply.

I am the authorized agent of the government to engrave revenue stamp dies, make plates and print stamps therefrom. The charge for making a private stamp die and plate complete is uniformly three hundred and fifty dollars (\$350), the amt. whereof you will please remit to me. Stamps of the ordinary size (siz. 13/16 of an inch superficial area for one cent and 63/64 for three and four cent stamps) are furnished without charge for manufacture, but for increased sizes there is a charge made at the rate of ten cents per thousand for stamps 3 1/8 inches superficial area for extra paper and printing, and all other sizes in proportion - besides three cents per thousand for extra perforation.

If with this information you conclude to have the stamp prepared please address me accordingly and your order shall have due execution.

Very respectfully

Jos. R. Carpenter

Philadelphia March 9, 1871

New York Match Co. New York City P. V. Husted, Esq.

Dear Sir:

In reply to your recent favor the Commissioner of Inter. Rev. duly authorized the required charge in Bauer & Beudel's die to make it "New York Match Co."

I will probably have the amended plate ready for printing in about three weeks from this date.

Very respectfully,

Pgiladelphia March 9, 1871

John J. Bloomfield, Esq. 70 Chamber St. New York City

Sir:

In reply to your favor of the 8th inst. I would say I have no regular specimens of the stamp imprinted by me on checks, etc. but herewith submit a stamp from my check book which will give you a correct idea of the design. Should you wish to make an order for such imprinting, be good enough to address one of our city stamp dealers who is authorized by the Government to receive the stamp value therefor and he will attend to the matter fully and collect all the charges from you by express when the work is returned to you.

My charge for imprinting is uniformly one cent a page or impression of six stamps or less each and a half penny for impressions of only one stamp each.

J. R. McFetridge, "Inquirer Building," of this city is a stamp dealer and will promptly execute your orders for imprinting.

Very respectfully

Jos. R. Carpenter

Philadelphia March 9, 1871

New York Medical University John G. Howard, Esq.

Dear Sir:

I exceedingly regret to learn by your favor of the 6th inst of the decease of D. Scott. In reply to your inquiries, the circumstances connected with the ordering of the engraving of a private die for the University are as follows, viz:

On the 13th of October, 1870, Dr. Scott concluded his negotiations with me by ordering a four cent die according to the design of which proof impressions in colors are herewith inclosed, the University understanding that it would pay me the uniform price for the engraving, viz. three hundred and fifty dollars upon the completion of the work. The order or application was duly approved by the Government and the work of engraving was finished on the first of February, '71, when I notified you accordingly, submitting at the same time a proof impression of the die and my bill for the \$350 which was then, and is now, due.

"Dr. Scott who personally attends to the engraving and printing is dangerously ill at present, and as soon as possible will attend to business." There has been no further communication on the subject until yours of the 6th inst and hence my engraving account of \$350 is still entirely unpaid and the die now remains subject to your orders as to color and quantity of stamps to be printed therefrom.

Very respectfully

Jos. R. Carpenter

Philadelphia March 9, 1871

Hon. A. Pleasonton Commissioner of Internal Revenue Washington, D. C.

Sir:

I have the honor to herewith present my account, signed in duplicate, for the manufacture of revenue stamps delivered during the month of February last, as verified by the accompanying vouchers.

Very respectfully

Philadelphia March 12, 1871

Messrs. Charles Osgood Co. Norwich, Ct.

Gentlemen:

The Government has not yet authorized or directed the preparation of a six cent proprietary stamp, probably because the limited demand therefor has not appeared to warrant such action. It is possible that the denomination will be made in the course of a few months. If there be not, however, I should suppose that no inconvenience would result from the use of two 3 cent stamps on packages of \$1.50 preparations, but circumstances alter cases, and perhaps you are the better judge as to the matter of convenience, and should directly communicate with the Inter. Rev. Bureau on the subject.

Very truly yours,

Jos. R. Carpenter

A. H. Flanders, M.D. 737 Broadway New York, N. Y.

Dear Sir:

Yours dated lith inst is at hand. I am at a loss to conceive why the Adams Express Co. should hesitate in the least to deliver your packages. At any rate you can have your stamps sent to you by mail, free of expense (under an official frank), by notifying the Commissioner of Inter. Revenue each time that you make an order for stamps, that you desire them forwarded to you by "mail." I have no discretion in the matter but must ship them either by express or mail as directed by the Commissioner's requisition calling on me for delivery of the stamps.

Very respectfully

Jos. R. Carpenter

Sir:

I have the pleasure to herewith present you a proof impression of the new die altered from the Bauer & Beudel stamp. The new stamps will be prepared at once and will be issued to you upon government orders as soon as the present stock of the Bauer & Beudel die is exhausted, there being about 4000 sheets of them yet remaining on hand.

The account for engraving and making new plate being now due and payable, I present the same also herewith and remain

Very truly yours,

Sir:

Yours of the 17th inst is at hand. Pursuant thereto please fine herewith printed impressions of design for a six cent proprietary stamp, the impression printed in orange being submitted for approval as to color as well as design. Also please advise me what quantity to print to begin with. The stamps can be ready for delivery in about one week from the time of your approval of design and color.

Messrs. L. W. Warner Co. New York, N. Y.

Gentlemen:

Your favor of the 21st inst is at hand. I have 64,490 of your new label stamps on hand at this date. After these have been consumed I can print you a further supply in green ink which will cost you nothing extra for the color.

It will be impossible to perforate them perfectly, but if you choose they can be furnished unperforated and you can then cut them to suit.

I can furnish a special white paper for you and will take great pains to have them printed without any discoloration.

Very respectfully

Jos. R. Carpenter

Messrs. Mansfield & Higbee Memphis, Tenn.

Gentlemen:

Yours of the 18th inst at hand and directions in regard to engraving a one cent stamp are noted.

I will execute the order as speedily as possible, but probably will not be able to complete the work inside of ten weeks from date, whereupon I will duly send you a proof impression of the die.

The charge remains the same as before, viz: three hundred and fifty dollars (\$350) for engraving and making the plate complete.

The regulation at present respecting orders for stamps allows ten per cent on all amounts remitted exceeding \$500 at a time: that is, say, \$510 in money would entitle you to \$561 in stamps, while \$500 would yield you only five per cent or \$525 in stamps.

Very respectfully

Gentlemen:

I have the pleasure to acknowledge the receipt of your favor of the 25th inst inclosing seventy five dollars (75) in full payment for the alteration of Bauer & Beudel die to "New York Match Co." and for making a new plate.

The original plate and die will be preserved as you request. Your advice respecting a telegraphic order of today is noted and will be executed accordingly.

With thanks for your prompt remittance, I remain

Messrs. Croker & Telfer 96 Warren St. New York

Gentlemen:

Herewith find sample of stamp imprinted by me on checks.

My rate of charge for printing stamps is one penny per page or pull of six checks or less each.

I do not receive money for stamps imprinted. You will either address a stamp dealer here or the Government direct, on the subject. The former is more convenient for small imprints. I recommend I. R. McFetridge, "Inquirer Building" of this city, who will give you full information, and in case you send him your checks for stamping, he will pay all the charges and collect the same from you by express on return of the finished work.

The returned small pill stamps are at hand by today's Express.

I had not been advised by the Bureau that you desired the large stamps this time, but relied on your directions of Feby 24th last, that you would discontinue using them.

Pursuant, however, to yours of yesterday
I hereby send your large stamps for those
returned. As a small balance only (3990 stamps)
remains I will now proceed to prepare a new lot
in accordance with your recently expressed
wishes. Do you wish them in black or green?

Gentlemen:

Today's government requisition brings an order in your favor for \$1650, viz: 65000 lct, and 50000 2ct stamps.

It being unusual for you to order such a large quantity of the one cent stamps, I have not enough of that denomination on hand to meet it, but will at once put the plate to press and have the stamp ready for you in a few days.

If you propose ordering the one cent stamps to any extent please advise me as to the quantity you will require per month, or quarter, and I will have a supply duly prepared to meet your orders.

The 158 reams of white paper is at hand, as good order, except that it is folded in quires. It should be folded like the brown paper in lots of ten quires such to avoid the sharp creasing, which, besides spoiling many of the sheets, causes great additional trouble in its manipulation.

Sample sheet is inclosed herewith.

Albert L. Helmbold, Esq. 104 S. 10th St. Philadelphia

Dear Sir:

In answer to your personal inquiries respecting the speedy engraving of the private dies ordered by your brother H. T. Helmbold, I have to say that the work is still retarded by the action of the Government which has ordered an entire new series of general and common proprietary stamp plates, and it is necessary to make every effort to complete them at the earliest moment, before anything else be done.

But for this your would have had the dies ordered by your brother in due time; as it is however it will certainly be several weeks yet before they can be ready.

Regretting very much that I have been unable to comply with your repeated urgent requests to complete the plates at an earlier day, I remain,

Yours very truly

Copy of Instructions from Treasury Department relative to forms for

Treasury Department Washingron, D. C. May, 1871

Sir:

You will please report to the "Currency Division" Secretary's office, the receipts of all paper from the U.S. Superintendent at Glen Mills - the deliveries of same, if perfect to the stamp agent of the Internal Revenue Office and if mutilated or imperfect, to the Adams Express as forwarded to the Department at Washington, together with the balance on hand. Such reports should be daily as comprise all transactions of the day. An acknowledgment by the stamp agent, appended to such reports, that he has received all the paper therein specified as perfect, will be considered a good voucher for full credit of such perfect paper. The receipt and count of the mutilated paper by the Department will furnish the necessary evidence for final credit thereon. Any discrepancies found should be promptly reported so that the Secretary's office

of the Currency Division will arrange form of to be used, and submit the same to you.
